SIR WILLIAM HARCOURT IN DANGER. REPORTED ATTEMPT UPON HIS LIFE.

London, March 23 .- The apathy into which the course of events has fallen in the House of Commons was disturbed to-day in a way of honor. which was entirely in harmony with the spirit of destruction to dignities prevailing throughout Europe. A parcel, with the Man-chester express label upon it, and addressed to Sir Willian V. Harcourt, Home Secretary, House of Commons, London, was duly received and placed in his box. On being notified of its receipt, Sir Vernon Harcourt, who had no reason to expect any where else, looked at it, and thinking it had a suspicious appearance, declined to handle or open it. Inspector Grant, of the police, was then sent for, and requested to ascertain its contents, which he proceeded to do with ease. great caution, having a momentary dread of an explosion. On removing the bottom of the box without having received any harm, some interim wrappings were found, which, when taken away, revealed a loaded pistol, so placed as to go off in case, as was evidently expected, the box had been opened in the usual manuer. When the character of the package became known in the House, there was great consternation, and the Home Secretary was congratulated by his friends on his escape from a possibly violent death. There was no clue to the sender.

Consumption Unred. An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French, or English, with full directions for preparing and using. Sent by mail by residence among us, seems to be meeting addressing with stamp, naming this paper, W. W. SHERAR, 149 Powers' Block, Rochester, 11-eow-G

NO PERNICIOUS INGREDIENTS!

A Scotch landlady, being told by a customer that he hoped she put no pernicious ingredients into her liquor, retorted: "Ther's naething pernicious put into our barrels but the exciseman's stick." Well would it be for drugs into the stomach, and thus upsetting suffering humanity if all the quack medicines and disarranging one part of the system in and preparations sold now-a-days were as free the hope of benefitting another. Because a native woman had been delivered of twins, the Indian seers prophesied that unless one of them died the seals would not come again to the sealing grounds on the British Columbia coast. So the parents carried the babes into the bush, and began a course of incantation and starvation. In the midst of the rites Father Nicolai, of the Roman Catholic mission, suddenly appeared, and induced the parents to give the babes proper nourishment. The twins lived, the catch of seals was uncommonly large, and the seers have lost all prestige in the vil-

lages. " Hail beauteous, bounteous gladsome Spring"—this was Mark 'Twain's prize poem -but the dire diseases incident to Spring, spoil the romance. TORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping - cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or evens, made of cheap and ineffective ingredients, now offered, which as they contain no carative qualities. which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dan-gerous experimenting with unknown and cheap medicines, from the great liability that cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply scated or incurable. Use Ayer's Cherry Pectoral, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their knowing its composition, prescribe it in their practice. The test of half a century has practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
