## FIT NOTES DEPARTMENT UNB Bombers Beat Moncton Trojans 20-6 Tri-Service Holds St. Thomas To 18-0 Win

The Editor, Brunswickan. Dear Sir,

Surely you must be able to fill your paper up with something else than throwing snide remarks at the Varsity Hockey team.

Upon reading the column the first thing that confronted me was that you titled it "The Problem". The only problem is that there are too many narrow minded people like yourself who don't even know what a hockey stick is for. Here they sit at these "practice debates" (SRC meetings) and try to argue who should play hockey and other sports around the campus.

I read on and find that we did not win a championship. True enough, but when we left the Commercial League because of our commitments to inter-collegiate play we were tied for second place and had the fewest goals scored against us. In inter-collegiate play we went down fighting and I think that the team had a creditable showing for the playing material we had. Besides the Canadian Football team did not win a championship, and neither did the Basketball Team. Who did? The girls Varsity Basketball, a wonderful showing for a university with so few co-eds. Also, the Varsity Soccer team. They won again this year too. Just imagine their fifth consecutive inter-collegiate Soccer title—and you couldn't even give them a top headline. Shame on you! But, of course we are all more interested in the Globe Trotters beating a UNB (plus outsiders) pick-up team.

I understand only too well that it is an expensive business running a hockey team on this campus. The whole trouble, of course, stems from the fact that we do not have our own rink. However the players too have their expenses. Practically all of us own our own skates; the most expensive piece of equipment a hockey player has; a good pair ranging between \$40 and \$50. We spend approximately \$80 on bus fares, up to \$1.50 per week for skate sharpening, and buy our own laces to boot. I would not be tolerated by players in other universities across Canada. These players if they had to spend their own money, definitely would not turn out.

You also mentioned that we had a turn-out of some thirty people at our games. If you are referring to the Commercial League, plain logic itself explains that very few people would turn out on a Saturday night to watch that brand of hockey. In comparison, the basketball team did not draw too well either, and the people have a modern and well heated gym to sit in. For that matter the flamboyant (excessively decorated) Canadian Football team as yet cannot outdraw a high school rugby game, and each playing centre is only a short walk away for most students. If I remember correctly there were a large number of students and outsiders as well in attendance at the UNB vs. St Thomas hockey game last winter. Of course, you being a Business Admin. student would have trouble counting.

You go on to make the idiotic statement that we should hire "professional players". All I have to say to this Mr. Editor is that I think that you are a nincompoop.

Yours sincerely,  
John K. Elliot  
Editor's note—This high-minded type, so imbued with singleness of purpose, was one of the first students to sign the petition that circumscribed the Varsity Hockey and other athletic budgets.

The Editor, Brunswickan. Dear Sir,

Although the whole issue of the allocation of funds to the Amateur Athletic Association has now been settled, I would like to take this opportunity to clarify and correct some of the inaccurate statements made in last week's editorial (Nov. 4). As I have said, the issue has now been settled, but to the complete satisfaction of nobody at all—especially of the AAA who are directly concerned with the matter.

Mr. Oakley was indeed labouring under a false illusion... an illusion that an "overburdened" athletic programme was forcing non-athletic activities to practically nil. Now, in fact, the athletic department was not overburdened, nor was it the cause. This year the AAA was to receive \$8,800, a figure only a few hundred dollars above what was actually spent last year on athletics and a hundred dollars less than what was spent the year before. In past years athletic expenditures have fluctuated between eight and nine hundred dollars, thus the amount we were to receive was not too extravagant. Irregardless of what percentage it is, there has to be approximately that amount. This \$3000 Year Book debt that has also been mentioned seems to be the cause of everything. This year's council has adopted the glorious policy of paying off two-thirds of that debt. This is why non-athletic activities suffered. The council had over \$8,800 at their disposal and voted to pay \$7000 of it on year books... for this year's and for the past few years also. Is this year's council obligated to "cut" its throat in order to pay off a debt incurred by former councils? Indeed, the debt must be paid, but not all in one year. If they had been willing to pay only \$1000, then they could have covered their non-athletic activities and the athletic programme would not have to suffer, as it is now suffering.

Mr. Oakley, to prove his statements, even printed a preliminary budget which, not only being absolutely incorrect was also not even added up correctly as he printed. In order to prove his point where this budget came from. Certainly not from me, for as a preliminary AAA budget it is almost a thousand dollars off, not including a budget for track nor for intramural expenses. As far as I know the AAA does not intend to bank, nor will it even have. Mr. Oakley's mythical figure of \$1018.12... for I do not even know how he arrived at such a figure. The actual preliminary AAA budget was approximately \$8500, and I did expect a small surplus. However, I had agreed to turn over any surplus to the SRC until this so-called petition railroaded the issue.

Now that this is all over, the AAA appears to be sadly the loser. We have had \$2000 cut from our athletic programme. This same \$2000 will pay off the budgeted Year Book debt.

The SRC has indeed created for itself a valuable precedent... and every time an ugly debt rears its obnoxious head, they can cut the athletic programme by the same amount.

Yes, it is time that the students of this University found out what is happening at UNB. When an obviously prejudiced, incorrect and definitely insane editorial appears on the campus, it is indeed, the beginning of the end.

And so, with the axe to be sharpened, I remain,  
D. W. Gallagher,  
AAA President.

Editor's note—Mr. Gallagher's letter was shortened by one paragraph to fit it in this issue. The paragraph dealt at great length with the hockey situation at UNB. In future all letters addressed to the editor will not be published if they are more than 350 words in length.

ART COWIE

### ARTS AND SCIENCE AGAIN SOCCER CHAMPS FIFTH STRAIGHT YEAR IN HOUSE LEAGUE

Fredericton (Special) — After playing a torrid regulation soccer game and then slogging through ten minutes of overtime and eight minutes of sudden death, the Arts and Science Soccer Team roared through for the lone goal that gave them the Inter-Faculty Soccer Championship last Saturday.

The win was the fifth in a row for the team. Will Morell took a head pass from Jack Elliot and raced twenty yards for the score-breaking goal.

The outstanding player of the game was Burnell for the Chemists, as he repeatedly turned back one Arts and Science attack after another. Two others playing well for Chemists were Henderson and Valenta. Starring for the winners were Hacker (in goal), William Patterson and Morrell.

Jack Elliot, who has captained the team for four years can now retire from the soccer world with an unblemished record. The team has lost but one game in four

years and that was by default. This could not have been done however, without the keen interest and confidence shown by players that are on the winning team, something that intramural sports has lacked in past years.

Chemists: King, Gaspar, Tompkins, Simpson, Burnell, Ayer, Valenta, Edwards, Little, Manson, Stewart, Humber, Henderson and Bankiewicz.

Arts and Science: Patterson, Crockett, Wilson, Hacker, Monaghan, Thompson, Gallagher, W. Morrell, Thorpe, Russell, S. Morrell, Norrad, Sparcks, Fillmore, Lawson and Elliot.

### UNB SCORES IN MONCTON

Doiron tags in for a touchdown...

Fredericton (Special) — The UNB Red Bombers defeated the Moncton Trojans Saturday at Moncton by a 20-6 score in a regular league game. The win confirmed the Bombers' first place standing and gave them a 46 point lead over St. Thomas. This lead was cut to 28 points when St. Thomas defeated Moncton Tri-Service 18-0 at Chatham Sunday. The Moncton-Red Bombers encounter was the last league game for the University of New Brunswick team.

Saturday's game was played on a hard stony field and with low mercury readings, numb fingers made ball handling difficult. The Trojan defence was strong when the heat was on, and almost certain UNB touchdowns were stopped with inches to go. The upset of the game came in the last minutes when the Moncton squad took advantage of a Bomber pre-finish slump and slashed through for five points and a one point convert.

In the opening plays of the game UNB started a drive from its own 20 yard stripe. A 25-yard pass from D. Brophy to Benson was good for a gain of 25 yards. On the next play, Oatway streaked around the end for an 8-yard gain to put UNB on the Moncton 8-yard line. A UNB fumble was picked up by the Trojans' Wilson and Moncton took the ball. On the next play UNB's Gundry nailed a Trojan pass to start the ball rolling. From the Trojan 16-yard line an extension play and a right side plunge gave the Bombers a first down and touchdown to go (3 yards). Doiron smashed over to tally on the following play and the score stood at 5-0. Benson's convert kick was good, giving UNB a 6-0 lead.

The kickoff gave Trojans the ball on the mid-field stripe in spite of constant Trojan interference on the run back. After an incomplete pass and a 10-yard roughing penalty UNB took the Trojan kick on their own 4-yard line and ran it back to the 14. Two incomplete passes later there was a fumble again knocked the Trojans back to mid-field. At three minutes in the quarter UNB shook loose when Lolat intercepted a pass and dodged to the Trojan 40. A pass by Brophy to Lolat put the Bombers on the Moncton 25-yard line. Another pass to MacLaren put UNB on the Trojan 15.

At the opening of the second half the Trojan's Dion took the UNB punt and ran it to the Bomber 28-yard line. A couple of plunges found them on the UNB 16-yard line. Here they were met with a strong defensive and lost possession of the ball. First Watson of UNB slashed through to their own 40, then Adderly on an end run went to the Moncton 20. The Trojans took the ball on their own 3-yard line but Pollock got through a hole to tackle a Moncton player in the scoring area for a 2 point range. This made the score 8-0 for UNB. Late in the quarter when Pollock picked up a loose Trojan ball, UNB moved to the enemy 40. Brophy, Doiron and Oatway picked up yards to move to the 28. Doiron whipped around the end for another 10-yard gain. On the following play Oatway took a hand-off and drove to the 10-yard line. Oatway again took a hand-off and this time went over for a touchdown. Brophy kicked the convert and the score stood at 14-0 with less than a minute to go in the third stanza.

The last quarter opened with a Trojan kick from their own 45, and much later they were still in that vicinity. From the 55-yard line, Al Moiler took a hand-off to gallon to the Trojan 37. Oatway in a nice piece of broken field running got through to the Trojan 6-yard line. A few penalties later, Auger ran a Trojan kick to their 41. Later a Brophy-Adderly pass gave UNB the ball with 23 yards to go for a TD. After being bosted off again UNB finally managed to get to the 10-yard line. A hand-off to Oatway nearly resulted in a touchdown, but he was held to the 3-yard line. A similar play following was successful as Oatway went through for the third tally. Benson's convert was good and UNB stretched the gap to 20 points. Late in the game the upset came when the Trojans fought their way towards the UNB scoring zone. A 25-yard pass from Ferguson to Richardson was stopped on the UNB 10-yard line. A plunge and a pro pass gave the Moncton squad 8 yards. As the minute flag went up, the remaining two yards were snagged when Cotis banged over for a TD. Trimble converted to make the score 20-6. The last play was an incomplete UNB pass.

### Sports Scraps

The physical education department is hoping to stimulate wider interest in intramural sports by having reps appointed in all classes.

Where it is found that there is not sufficient interest in a particular class to enter a team, classes may be combined.

The main objective is to make room for all students to compete in some athletic activity on an intramural level throughout the year.

The program in the past has allowed no control over the possibility of a group of students selecting the best available players in a sport and entering a team, which would be head and shoulders over most of the other entries.

Fortunately, this type of team backing has not been done to a great extent, but has occurred in some activities with the result that one or two teams win by lopsided scores and the weaker teams lose interest.

In addition to giving the less skilled student an opportunity to compete within his class, we feel that this plan will be a means of stimulating a greater class spirit.

The Trojans took the ball on their own 3-yard line but Pollock got through a hole to tackle a Moncton player in the scoring area for a 2 point range. This made the score 8-0 for UNB. Late in the quarter when Pollock picked up a loose Trojan ball, UNB moved to the enemy 40. Brophy, Doiron and Oatway picked up yards to move to the 28. Doiron whipped around the end for another 10-yard gain. On the following play Oatway took a hand-off and drove to the 10-yard line. Oatway again took a hand-off and this time went over for a touchdown. Brophy kicked the convert and the score stood at 14-0 with less than a minute to go in the third stanza.

The last quarter opened with a Trojan kick from their own 45, and much later they were still in that vicinity. From the 55-yard line, Al Moiler took a hand-off to gallon to the Trojan 37.
