

# FASHION IN CHINA

## THE NEW LOOK

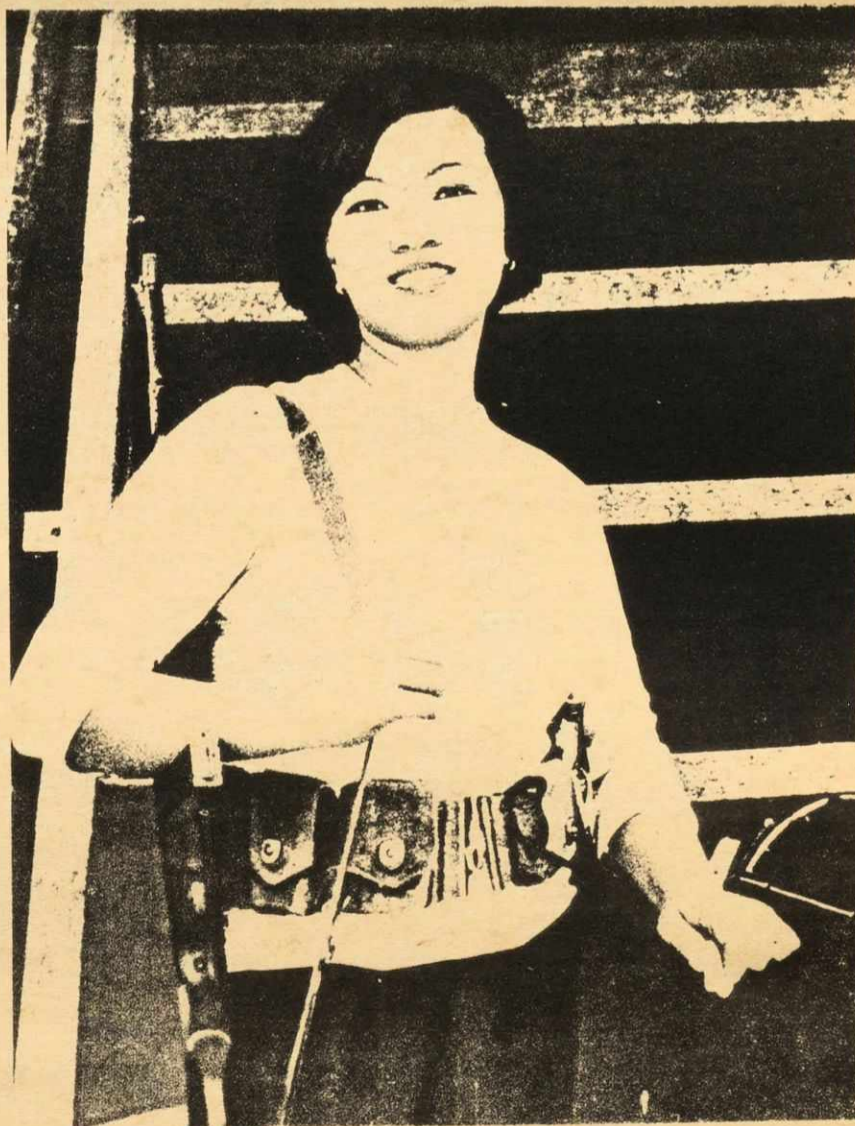

*It's a daring new fashion design that just might revolutionize Chinese outerware. Notice the second button to the top is undone! Proponents say this increased exposure is sexier, and definitely anti-Confucius.*

## FAMILY OUTING

*You'll be the envy of all the ladies in this new two piece about-the-town outfit.*

## ALWAYS IN STYLE

*Whether gunning down a fascist pig or just lounging about with friends praising Mao you'll always be in style with this ultra-chic revolutionary outfit. (Gun belt extra)*

## THAT'S THE SPIRIT!

*For those cold mornings when you want to warm up the crowd. Comfort plus fashion speaks for itself.*
