

38366

Hot Springs, Va.
April 28, 1918

Mr. E. S. Cowdrick,
Assistant to the President,
The Colorado Fuel and Iron Company,
Denver, Colorado.

Dear Mr. Cowdrick:

Your letter of April 12 addressed to Mr. King has been travelling about from place to place until finally it was received here.

Mr. King has had to forego all correspondence for a while, but he wishes me to let you know that your name will be handed to the newly appointed industrial relations commission in Canada, with the request that you be supplied with any publications they may issue.

Mr. King has promised also that he would write to you to request that Mr. J. W. Curry, of the Standard Oil Company, Whiting, Indiana, be supplied with as complete a supply of forms used in your department as you can supply, and also a set of Industrial Bulletins from the first number issued, if these are available. The Indiana Company is planning to proceed along lines similar to those laid down in the Colorado industrial representation plan, and any information you can give Mr. Curry will be very helpful and very much appreciated.

Within a few days, Mr. King and I expect to leave New York for England, to be absent probably until the end of July. Anything sent to The Roxborough, of course, will be duly forwarded.

Yours sincerely,

L. Mackenzie King
