An illustration of the effect of the tariff is found in the fertilizer industry. A small duty was taken off this spring and all our fertilizer factories have had to close their doors. Fertilizer is higher now than when the duty was on. Farm implements are higher to the farmer than they were just before this Government took office.

I am asking my Secretary to send you just as soon as he can get it a map of the Essexes. These are not easily secured; I think, however, he sent one to Mr. H.W. Wilson just recently.

I am very much relieved to know that Mrs. Robinson's health is improving. May this good news continue to come. She is a most remarkable woman and I can well understand your anxiety. Kindest of good wishes to Mrs. Robinson, yourself and your splendid family for 1935.

Yours very truly,

Colonel S.C. Robinson,
Walkerville,
Ont.
