

Prosecutors Closing Address  
in the case of E-14207 Pte. Louis P.F.

Sirs: the prosecution has presented sufficient evidence to prove each point in this very serious charge. The date, time, place have been proven, the articles positively identified by both the owners & the provost who arrested him & the articles on his person. In view of the fact that this was a dastardly act committed by a Canadian soldier enjoying the hospitality & confidence of friendly Belgian civilians, I ask the court to return a verdict of guilty.
