

Dam, Old Mill on the Left and Electric Light Plant on the Right, Bear River, N.S.

SOURCES OF INFORMATION AND WATER POWER LEGISLATION

CONSIDERABLE information is available with respect to certain water powers in these provinces. At Grand Falls, on the St. John River, the largest water power in the Maritime provinces and one of the largest sites in Canada, a large amount of work has been done by the International Commission pertaining to the St. John River, which latter Commission has collected much valuable hydraulic data in connection with the whole drainage basin of the St. John River. The United States Government, through its Geological Survey, and also the State of Maine for a number of years, have conducted investigations relating to the inland waters of the State of Maine. The St. John River, with a number of its tributaries, has its sources in the State of Maine, while the St. John itself with the St. Croix, forms part of the International boundary between the province of New Brunswick and the State of Maine. Accordingly, the work done by the
