

- Urachus, Luschka's observations on, 516
 malignant changes in, 628
 multilocular carcinomatous cyst of, 637
 patent, congenital, 487
 and patent omphalomesenteric duct in
 same child, 491
 appearance of umbilicus in, 488
 cases illustrating, 495-512
 escape of urine from umbilicus in, 487
 general condition of child, 490
 irritation around umbilicus, 489
 race incidence, 490
 sex incidence, 489
 size of umbilical opening, 489
 symptoms of, 487
 treatment of, 490
 tuberculosis of, 649
 remnants of, 515
 historic sketch, 515
 in animals, 523
 infection of, abscesses of abdominal wall
 due to, 567. *See also Abscess of abdominal
 wall.*
 Luschka's observations on, 516
 producing tumors between umbilicus and
 symphysis, 526
 urachal concretions associated with, 620
 urinary calculi associated with, 620, 622
 Wutz's observations on, 519
 sarcoma of, 634
 cystic, case illustrating, 635
- Urethra, absence of, escape of urine from um-
 bilicus and, 610
 blocking of, causes, 610
 umbilical urinary fistula following, 609
 stricture of, umbilical urinary fistula follow-
 ing, 611
 vesical calculi obstructing, associated with
 escape of urine from umbilicus,
 613
 cases illustrating, 613
- Urinary calculi associated with urachal remains,
 620, 622
 fistula at umbilicus, 487, 607. *See also*
Fistula, urachal.
 associated with enlarged prostate, 616
 with growth in bladder, 612
 congenital phimosis with, 611
 following blocking of urethra, 609
 following stricture of urethra, 611
 when no urethral obstruction exists, 608
 with absence of urethra, 610
- Urine, escape of, apparent, from umbilicus,
 breasts, and other parts of body, 618
 from umbilicus, absence of urethra and,
 610
 in congenital patent urachus, 487
- Urine, from umbilicus, in urachal cavities,
 communicating with bladder or um-
 bilicus or both, 581
 vesical calculi obstructing urethra asso-
 ciated with, 613
 cases illustrating, 613
- Uterine mucosa, umbilical tumors containing,
 373
- Uterus, carcinoma of, carcinoma of umbilicus
 secondary to, 436
- VALVE, WUTZ'S, 521
- Vas deferens, tuberculosis of, umbilical fistula
 due to, 325
- Vascular cords of umbilicus, disposition of, 48
- Vein, umbilical, abscess of, in adult, 295
 inflammation of, in new-born, 92
 relations of, to umbilical fascia, 53
- Veins, omphalomesenteric, embryology of, 33
 peri-umbilical, anatomy of, 50
 umbilical, embryology of, 26
- Vermiform appendix, abscess of, opening into
 subumbilical space, 296
 opening of, at umbilicus, 296
 urachal cyst and, differentiation, 541,
 550
- Vertical umbilicus, 35, 36
- Vesical. *See Bladder.*
- Vesicle, umbilical, embryology of, 10, 14
- Vitelline duct, embryology of, 3, 31. *See also*
Omphalomesenteric duct.
- Volvulus of ileum, strangulation of Meekel's
 diverticulum caused by, 165
- WHARTON'S jelly, 35
- Wild oat straw, escape of piece of, from um-
 bilicus, 290
- Worms, escape of, from umbilicus, 328, 330
 cause of fistula, 329
 historic sketch, 328
 report of cases, 331
 symptoms, 329
 treatment, 330
- Wound infection of umbilicus in new-born, 85
 Wutz's cases of small urachal cysts, 528
 observations on urachus, 519
 valve, 521
- YOLK-SAC, embryology of, 1, 10
- ZINC chlorid in epidemic of erysipelas and gan-
 grene of umbilicus in new-born, 75
