

## The Rural School Problem in Huron County

(Continued from page 3)

The survey showed that 49 per cent., almost half of the rural churches in Huron county, are stationary. They have neither lost nor gained 10 members during the last 10 years; 24 per cent., or over one-quarter of them, are actually decreasing, and only a few have closed altogether. Only 24½ per cent., or less than one-quarter, have increased their membership.

All denominations have suffered. Anglicans, for instance, numbered 12,472 in 1881 and 7,031 in 1911. The Methodist membership decreased from 29,330 to 13,199 in the same period. Presbyterians numbered 5,683 in 1881 and only 18,373 in 1911. The Lutherans came nearer finding their own, their decline being only from 1,970 to 1,833. The maintenance of its church and its minister becoming an ever-increasing problem in the rural districts.

### THE BREADTH OF THE SURVEY

The survey embodied much more than this brief review would indicate. The status of the rural church, particularly, was clearly inquired into. Figures were collected showing interest taken in Sabbath school and church societies. The overlapping of churches came in for close investigation. In short, conditions in Huron county are now better known than conditions in any other county of Ontario or of Canada.

Huron county is only one of many rural counties in which conditions are similar. Through this survey, Mr. Adams and those who worked with him have brought the seriousness of the situation before the churches and the people generally in a manner that cannot be denied or side-stepped.

The extension of the survey idea will serve to keep public attention focused on the rural problem. The questions now up for discussion are: What are the causes? What is the remedy? Next week Farm and Dairy will outline the remedies proposed at the three meetings held recently in Huron. Then we will welcome discussion through these columns by all who have thoughts to put in connection with this great problem. For Huron's problem is as common to all of Eastern Canada—F.E.E.

## The Army Worm Invasion

Threat pest of the farmer, the Army Worm, is again in action. Reports last week told of great devastations in Brant, Oxford and Norfolk counties, the first county suffering the most. Just before going to press Farm and Dairy received word that army worms had started operations in Peterborough county, one farmer finding three acres of his corn stripped.

With these outbreaks in such widely scattered districts farmers all over Ontario will be feeling uneasy and should be on the lookout for the pest. One of the methods of fighting the worm adopted in Brant county under the direction of district representative Mr. Schuyler, is to plow a deep furrow and dig out holes at intervals in the furrow. These post holes are filled with the worms which are exterminated by soaking with kerosene and burning. Another method recommended is to go ahead of the worms and spray thoroughly a strip of ground with Paris Green or arsenate of lead. Scattering bran manure poisoned with Paris Green in front of the advancing host will also help. The worst the fight is started after the worms are first discovered, the easier will be the conquest.

Some kept busy has no time or room for idle jealousies.

## Making the Farm Pay

Is a book that every farmer should have in his library. Each of its different departments dealing with a special phase of farming, is edited by a specialist in that particular line. In its 500 pages are many facts and suggestions that are invaluable to the progressive farmer of to-day.

## Gleason's Veterinary Hand Book

A book on horse training, and the diseases of horses, cattle, sheep, swine and poultry, with remedies given for each. It will worth its retail price, \$1.00.

Either of these books sent to you on receipt of One New Subscription to

## Farm and Dairy, Peterboro, Ont.

Build Sills, Driveways, or any concrete building from Concrete blocks. The London Adjustable Concrete Block Machine makes every kind and size of block. High grade. Moderate price. We manufacture a full line of Concrete Machinery. Tell us your requirements.

LONDON CONCRETE MACHINERY CO.  
Dept. C, London, Ont.

### THE SALVATION ARMY

## HOMES WANTED

A number of Boys and Girls are available for immediate placing, ages 8, 6, 7, 8, 9 and 10 years. For full particulars apply to:

L.T. COLONEL TURNER

Immigration Secretary

22 ALBERT ST. - TORONTO

## A Sure 25% Saved on Tires

18 makes of tires now sell above Goodyear prices. Half of them sell about one-third higher. As between them and Goodyears, you are sure of one saving—right at the start—of 25 per cent.

### Arrogant Prices

The evidence is that Goodyear tires are the best tires built today. They outsell any other. And they won that place by millions of mileage tests.

If that is so, an extra price means simple arrogance. Or it is used to infer an extra quality, which doesn't and cannot exist. Or it is forced by limited, high-cost production.

None of those reasons warrants you in paying the higher prices.

### Our Latest Saving

Price is our latest saving. For years we worked solely to increase the Goodyear mileage. No-Rim-Cut tires then cost you more than others.

We reached the present-day limit in good tires, then turned our efforts to reducing cost. Now No-Rim-Cut tires cost you half what they used to cost. Last year's reductions totaled 23%.

And many of the tires which once undersold us, cost you more

than Goodyears now. One reason lies in the modern equipment and high efficiency of our great Bowmanville factory.

### Things Others Lack

These four features of No-Rim-Cut tires are found in no others, whatever the price:

First, our No-Rim-Cut feature.

Second, our "On-Air" cure—done to save the countless blow-outs due to wrinkled fabric.

Third, our patent method for combating tread separation.

Fourth, our All-Weather tread—our double-thick, resistless anti-skid, yet as flat and smooth running as a plain tread.

These are all costly features. One of them adds to our own cost immensely. Yet we offer them all in No-Rim-Cut tires, and no high-priced tire offers one of them.

If these facts appeal to you, ask your dealer to supply you Goodyear tires.
