O. K. CANADIAN COW STANCHIONS.

O. K. Canadian Stanchions have sold before at \$1.00. Owing to our having purchased a large quantity of steel at a very low figure and to improved processes of manufacture we are able to offer them, for the time being, at \$1.00 each, f.o.b. Galt, cash with order.

We have not in any way altered or cheapened the construction of the stanchions. They are exactly the same as those formerly sold at \$1.50.

These O. K. Canadian Stanchions are made of the same U-bar steel, they have the high hinge that has always been a feature of their superiority, and the simple, secure lock that is proof against the wildest cow.

Orders for Stanchions of \$1.00 can be filled only while our present supply of steel lasts, so those who wish to take advantage of this price should order quickly, either through their dealer, or direct from us.

Tell us how many cows you keep and we will quote prices on complete metal stank.
