

3. The first meeting of every four shall be a business meeting, and the fourth a public meeting; the 2nd and 3rd meetings shall be confined to the 2nd and 4th years; and for the 1st and 3rd years there shall be held two extra meetings in each of the 2nd and 3rd weeks, on such an evening as shall be determined on by these years.

4. That Art. 5, sec. 7, be abolished.

5. That orders of business, c. i. inclusive, and p. be omitted at ordinary meetings, and be the only orders of business at business meetings, and that the minutes of each business meeting be read, etc., at the next.

6. That to the officers mentioned in Art. 3, sec. 1, be added two vice-presidents and one recording secretary: these officers to preside at the meetings of that part of the Society consisting of the 1st and 3rd year, and to be members of the 3rd year chosen for that purpose.

7. That all essayists, readers and debaters, for ordinary meetings, be chosen in turn from the number of those who have paid their fees.

CONVOCATION.

A memorial (which by the statute must contain twenty-five signatures) is in circulation, praying the Chairman of Convocation of the University of Toronto to call a meeting of that body to discuss the following questions:

(1) Compulsory attendance on lectures; (2) shortening the arts course by relegating the first-year work to the collegiate institutes; (3) publicity of the proceedings of the Senate; (4) throwing open the local examinations to males as well as females. The memorial further asks that the meeting may be called as soon as possible, in view of the forthcoming elections to the Senate.

THE BOAT CLUB.

The amount subscribed up to Thursday was \$651. The committee are preparing of three different ways under which it is proposed to carry out the scheme, and are ascertaining how many undergrads are willing to join the club if established, at a membership fee of \$5. The committee is composed of the following: J. A. Culham, B.A., C. C. McCaul, B.A., T. A. Haultain, B.A., J. C. Tibb, M.A., W. H. Oliphant, W. J. London, W. F. Maclean, H. A. Fairbank, E. W. H. Blake, G. G. S. Lindsey, D. Armour, H. T. Brock, W. K. Macdougall, W. H. Blake, H. B. Wright, B. Cronyn, H. S. Osler.

COLLEGE ITEMS.

The residence men of the fourth year are going to have a picture taken.

The vice-chancellor of the university—Chief Justice Moss—is improving.

F. HAULTAIN, B.A., '79, was in the city the other day on his way to the great Northwest.

WM. McBRIDE, B.A., '79, spends the Easter vacation of university college, London, in a tour through France, Switzerland and Italy.

It is worthy of note that the two men taking the most work in the third and second years wear number five hats.

MR. MINOT will not be able to act as one of the examiners in natural science at the coming medical and arts examinations.

OUR Rugby Union football club has sent a chal-

lenge to the Harvard club, proposing a match here next October or November.

It is understood that the new Baptist college is to be on Floor street, on the west side of the ravine. Rumor connects the name of a prominent member of that denomination with the purchase of the site and also with the erection of the building.

THE Victoria University will have its headquarters at Manchester. Owens College is the only one named in the charter. No other college will be admitted without first making out a sufficient title. Yorkshire will be adequately represented in the University Court.

THE crowded state of the room allotted to the classes in metaphysics of the second year calls for better accommodation by next term. 'Were we not immortals, the atmosphere of the room after a lecture to the second-year men would kill us,' said a fourth-year man in this department.

BRANTFORD *Expositor*:—Mr W. T. Herridge, of Toronto, occupied the pulpit of the Congregational Church yesterday morning and evening. The attendance was good, and the sermons really above criticism. Mr. H. is a young man who will doubtless occupy an exalted position in his chosen profession.

R. B. LESSLIE, M.A., '73, M.D., '75, has presented the museum with a collection of implements of war and of domestic use, and national costumes of Zululand, from which place he lately returned. Dr. Wilson has been adding to the Indian relics, the latest additions being a number of arrow-heads and other weapons from the old fort at Markham.

SCENE.—The library reading room. The four o'clock bell rings. A compassionate freshe, being also an intending candidate at the coming election, approaches one of the 'immortals,' who is resurrecting himself from a heap of some twenty-one volumes. The freshe has been inquiring the names of the fourth-year men, and is informed by a kind friend that this immortal's name is Mr. Kant. The would-be candidate addresses the great man with 'Mr. Kant can I have the pleasure—aw—of removing a few of your books to the counter?' The immortal (who is somewhat absent-minded) is immediately on the alert, and horrifies the young gentleman with 'Sir—I am surprised at your insensibility—I have a ticket filled for every one of these books.' The freshe hastily retires in confusion, under the impression that he has made some slight mistake.

COLLEGE WORLD.

THREE Japanese ladies are studying in Vassar. At Harvard the students are required to attend church regularly.

THE mayor of Princetown has prohibited the use of bicycles by students.

PRINCETOWN is to have a new chapel which will cost at least one hundred thousand dollars.

AMHERST has had a successful gymnasium exhibition lately.

THE idea of introducing the Rugby game at Cornell is being agitated.

THE Harvard vs. Yale race will occur this year on July 2nd, instead of June.

THE Cornell freshmen have organized their crew, which has begun training in the gym.

S. C. SMOKE, B.A., has been appointed librarian of Victoria college.

LOOSE medals appear to be pretty thick around the country.

OF all the words of youth or lass the saddest are these: 'you did not pass.' TRIFLED.

EDISON will next turn his attention to the invention of an electric pan-cake machine for the young maidens of Vassar.

ELEVEN seniors at Columbia, for delinquencies at chapel, have received notices that they are no longer candidates for a degree.

THE lectures on science and history subjects at King's and Christ's College, Oxford University, are open this term for women.

HARVARD has a 'Dramatic Association,' whose regular performances are well attended and enjoyed by the professors and students.

It is probable that several colleges will enter in the next regatta of the National Association of American Oarsmen.

The Trinity Boat Club being a thing of the past, sporting men are now turning their attention to the field meetings.

TRINITY college has five thousand volumes in its library: but according to the *Rouge et Noir*, nobody seems to know much about it.

THERE are to be two more organ recitals, the first two weeks, and the second three weeks from to-day—viz., on April 4th and 11th.

AT Queen's college the games committee is appointed in the spring, and less delay is experienced in bringing on the exercises early in the fall.

ANYBODY can wear a gown at Kingston, matriculant or matriculated student. The *Journal* wishes the restoration of the rule that only the latter may be gowned.

WHY is a lame dog like a sheet of blotting paper? Because a lame dog is a slow pup, and a slope up is an inclined plane, and an inclined plane is a sheet of blotting paper.—(Æsrus.

JULIANA (as they were going home from Pinafore)—'I think Sir Joseph looks just swell in his white pants.' Absent minded student—'And so do his sis—H'm. Yes, very.'

The following changes have been made in the examiners:—Classics, S. A. Marling, M.A., '54, (gold medalist, classics) and Adam Johnston, B.A., '77, (gold medalist, classics) in place of Messrs. Fletcher and Kerr. In natural sciences, Prof. Martin, of John Hopkins university, in place of Mr. Minot, of Boston.

PROFESSOR—'Hi, you fellows in there! Can't you make less noise?'

VOICE WITHIN—'Who's out there?'

PROF.—'It's me.'

V. W.—'Who are you?'

PROF.—'Professor Thomas.'

V. W.—'You can't fool us. Thomas would have said 'It's I.' Come on boys; just once more.' And the strains of 'Lan loid, fill the flowing bowl' resounded through the house till daylight. The affair was never after alluded to by the professor.

SOME colleges intimate that they are unable to sustain boating, and at the same time give their support to base-ball and foot-ball. Although in one case out of ten this may be a sufficiently strong plea, any college of spirit and energy ought to carry on base-ball and boating associations, and the preference should, by all means, be given to these two. Now it does not seem right that this most manly and invigorating of college pastimes should thus be allowed to fall into decay. A sport which is by far the most universal, from the fact that in 1875 at Saratoga, the crews of thirteen colleges entered the race, and which in English universities takes the precedence of all others, should not be allowed to pass from the annals of college life without a strong effort to keep it up.—*Orient*.

There came a fair fresh from Winon;
Her feet she had cause to bemoan;
When she lay on her bed,
They raised up the spread
To the height of St. Peter's at Rome.

There was an old man of Trieste
Who said, 'I will pull down my vest.'
But his daughter said, 'Papa,
The action's improper,
And I hope that you'll give us a rest.'

—[Crimson.
