Questions and Answers. Miscellaneous.

Full Age.

When is a girl free from the home's care; or, in other words, when is she legally of age, at eighteen or twenty-one?
O. M. S.

Ontario.

Ans.—At twenty-one.

Sore Teat.

We have a cow that has a teat that is swollen and hard at the end; it also scabs over, and seems very sore. It is hard to milk, and gives only a small stream. What would you advise us to do with it?
T. E.

Ans.—It may be necessary to use a teat siphon. Bathe the teat in warm water, and apply vaseline with a little carbolic acid added. It is probable the cow will lose the quarter.

Salt for Hens and Pigs.

1. I have been told that salt would kill hens. Will it?
K. C.

Ans.—1 and 2. Too much salt is not good for either; in fact, salt in too large quantities becomes poisonous to some animals. A little salt in the mash fed the hens, or in scraps from the table, does no harm. A little given to the pigs is all right, but do not overdo it.

Holidays for Hired Man.

1. How many hours per day is the hired man compelled to work?
2. What holidays is the hired man entitled to?
3. Would it be within the hired man's rights to refuse to work the extra hours and on holidays?
A. L.

Ans.—1. We cannot say how many he is "compelled" to work, but ten hours in the field is generally considered a day's work, the man to take care of his team besides, or do a few necessary chores.

2. Sundays, New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Labor Day, Christmas Day, and any other day appointed by official proclamation as a public holiday.

3. Yes.

Condition of Aid to Western Farmers.

I am holding a mortgage against a farm in Alberta. As the last crop was a total failure, the Government let the farmers have seed grain. Will this be charged against the land, and will it hold priority over the mortgage?
F. D.

Ans.—The Superintendent of Immigration, Ottawa, answers this question as follows: "The distribution of seed grain was formerly limited to persons who had made entry for homestead, but had not received patent, and a patent for the land did not issue until the lien had been paid. This year, on account of the unusual shortage of crop, the advance of seed grain was made also to those who had received patent for the land. In these cases, a mortgage was taken on the land, which took priority over all other encumbrances."

Line Fencing.

A and B have fifty acres each, side by side, adjoining lots. A buys other fifty, which abuts his, through to other road alongside of C, who abuts B. The line fence between is not straight, and a new one will have to be built. C offers to take the end of present fence at each road, which is probably about on lines as surveyed for line between A and C. A and B have line built as they agreed upon some years ago. Can A compel C to take line from their corner? Or can the line be made as C offers? Or what can be done so the matter? C's land means a lot, and it has been in place for many years.

Ans.—It is a matter to be dealt with and decided by the local surveyors of the parties and the court, quite unable to say whether or not an arrangement of this kind is possible.

The case is a matter to be dealt with and decided by the local surveyors of the parties and the court, quite unable to say whether or not an arrangement of this kind is possible.

Your last chance to get this Silo Free

Competition Closes June 1st

Get your "reasons" in right away
Costs nothing to enter

THE competition is open to any Canadian farm owner or to any member of his family living on the farm with him.

It isn't necessary to spend a cent to enter this contest. There are no entrance fees. The prize will be awarded to the one who gives the **most and best reasons why there should be a silo on every farm.**

The "reasons" should be written plainly in pen and ink, or typewriter, on one side of the paper only, and sent to our Peterboro address, as given below.

The prize will be one of our 10x20 Ideal Green Feed Silos, complete, with roof, having a silage capacity sufficient for 7 or 8 cows.

MADE IN CANADA

If the winner of the prize prefers a silo of larger size he will be given credit for the list price of a 10x20 silo toward the payment of a larger size silo.

Should the winner of the prize purchase an Ideal Green Feed Silo before June 1st, 1915, the date this contest closes, credit will be given him for the list price of prize silo toward payment on whatever size silo he may have ordered.

The contest will close June 1st, 1915, and no entries will be considered after that date.

Our new silo book, containing a great deal of silo and silage information, will gladly be mailed upon request.
