

STEEL ROOFING
PER 100 SQUARE FEET
\$1.75

Most economical and durable roof covering known. Easy to put on; requires no tools but a hatchet or a hammer. With ordinary care will outlast any other kind. Thousands of satisfied customers everywhere have proven its virtues. Suitable for covering any building. Also best for ceiling and siding. Fire-proof and water-proof. Cheaper and more lasting than shingles. Will not stain rain-water. Makes your building cooler in summer and warmer in winter. Absolutely perfect, brand new. \$1.75 is our price for our No. 15 grade of Flat Semi-Hardened steel roofing and siding, each sheet 24 ins. wide and 24 ins. long. Our price on the corrugated, like illustration, sheets 22 ins. wide x 24 ins. long, \$2.00. At 25c per square additional we will furnish sheets 6 and 8 feet long. Steel pressed brick siding, per square, \$2.25. Fine Steel Beaded Ceiling, per square, \$2.25. Can also furnish standing seam or "crimped" roof. **WE PAY THE FREIGHT TO ALL POINTS IN CANADA**

Satisfaction guaranteed or money refunded. We will send this roofing to any one answering this ad C. O. D., with privilege of examination if you will send us 25% of the amount of your order in cash; balance to be paid after material reaches your station. If not found as represented, you do not have to take the shipment and we will cheerfully refund your deposit. Ask for Catalog No. 9046. Lowest prices on Roofing, Eave Trough, Wire, Pipe, Fencing, Plumbings, Doors, Household Goods and everything needed on the Farm or in the Home. We buy our goods at sheriff's and receiver's sales.

G. A. GILROY, Glen Buell, Ont.
Brockville Stn., G.T.R. or C.P.R.

Porter's Golden Fawn St. Lambert and Golden Lad

JERSEY HERD.

I AM now breeding the two most popular and productive families of the Jersey breed known—the St. Lambert and Golden Lad. And what is more, my foundation stock of both families was purchased from the two most noted and best breeders of Jerseys on the continent: The St. L. from the late Wm. Rolph, of "Glen Rouge"; and the Golden Lad from T. S. Cooper, Linden Grove, U.S.A. My St. L's are headed by the little dandy, Porter's St. L. John Bull; and my Golden Lads by Blue Bell's Fox of Linden Grove—a grandson of Mr. T. S. Cooper's high-priced cow, Blue Bell, which was sold at his 1903 sale for \$3,600. I have a few animals of both sexes for sale.

THOMPSON PORTER, Carleton West.

HIGH GROVE JERSEYS AND YORKSHIRES.
For sale cheap, several choice young bulls and a few heifers, some of them prizewinners at Toronto this fall; bred from the best. Twenty young sows just ready to breed. Prices, extended pedigree, and all information for the asking. **ROBT. TUFTS & SON, Tweed P.O. and Sta.**

F. C. PETTIT & SON, Burgessville Ont.

QUESTIONS AND ANSWERS

Miscellaneous.

CANKER.

Our hens droop away, and their combs turn black; some last a week, others only about three or four days. They get plenty of fresh water, ashes, and everything else that goes to make healthy fowls.

Ans.—It is very difficult to say what is the matter with the chickens, as when a chicken gets sick it is almost sure to get droopy, and turn dark in the comb. To make a guess, I would say I am under the impression that this chicken has canker. Open the bird's mouth, and see if there is a white growth near the windpipe or on the tongue. If there is, the best thing is to kill all birds so affected, and use potassium permanganate in the drinking water for the balance of the flock, using as much as will stay on a five-cent piece to a gallon of water. If you can see no canker present, give the flock a dose of salts, and use ordinary condition powder for a week or ten days, according to directions. When using the salts, use about one pound to 100 birds. You can give this in their drinking water or mash.

W. R. GRAHAM,
Ontario Agricultural College.

TREATMENT FOR OYSTER-SHELL BARK-LOUSE.

What is the best method of treating apple trees for oyster-shell bark-louse?

W. J. A.

Ans.—Ingrate the trees by plowing the orchard shallowly, turning under some manure and a dressing of wood ashes, if available. Work this orchard with disc and drag harrow until July, then sow a cover crop of clover, vetches, buckwheat, oats or rape, to plow under the following spring. Prune the trees, and if they have been planted too close, so they are now crowding, thin them out. When winter set in, these trees should have been sprayed with either the lime-sulphur mixture, or else with plain lime wash—one pound of lime in each gallon of water. Two coats of this lime wash should be applied; the second immediately after the first is dry. It is not too late yet to use these washes. The young bark-lice emerge from their mothers' scales in June. The exact date should be watched for, and immediately the dust-like yellow mites are noticed, the trees should be sprayed without delay with weak kerosene emulsion, or a whale-oil soap solution, using one pound soap to six gallons of water. Many of the scales may be removed by scraping the limbs at this (i. e., the dormant) season.

DRAINAGE.

A drain has been surveyed, and levels taken through a considerable portion of wet land in the township of Derby. The proceedings have been carried on under the Municipal Drainage Act. My land is situated next to the outlet, which runs into a ravine through high land. From where engineer commenced to take levels in said outlet to the front of my place, there seems to be only six inches of fall in about 100 rods.

1. Can I make the engineer commence farther down the stream or ravine to give me more fall to drain by, the other parties having naturally four and five feet to the hundred rods in their respective outlets?
2. Can I make him give me as much as theirs, as by going down ravine 20 rods more it can be got? I am highest assessed of any for ditch. The majority of the owners of said lands asked for ten years to pay for said ditch.
3. Can I pay my share cash when ditch is completed?
4. Would I save interest and other expenses?
5. Would I require to notify them at once that I wish to pay when work is done?

Ontario.
Ans.—We see difficulties in the way of your doing what you purpose, and in almost every, if not every, particular. Still, it is possible that if the matter be attended to judiciously on your behalf your wishes may in the main be respected, and we would recommend you to see a solicitor personally, and be guided by him as to the course you ought to pursue.

ZAM-BUK SAVES A FARMER'S ARM

SOME SENSATIONAL PROOFS OF ITS HEALING POWER.

Every day brings interesting instances to light of the wonderful healing power of Zam-Buk, the herbal balm. Mr. Wm. Snell, a Langenburg, Sask., farmer, says: "I saved my arm by using Zam-Buk. I had a terrible scalding accident, and the arm, after the injury, 'took the wrong way.' When I started to use Zam-Buk, it was all swollen up and discolored, and I feared it would have to come off. In a few days, Zam-Buk killed the poison, reduced the swelling, and finally healed the arm completely."

ECZEMA CURED.—Mr. J. E. Cusick, of 349 Wilson St., Hamilton, says: "Every winter I used to have eczema on the back of my hands. Last winter I was especially bad—so bad that I had to be off work for three weeks. While suffering acutely, I was advised to try Zam-Buk, and did so. I could not have believed anything could have healed so quickly!"

Zam-Buk heals all skin diseases, cuts and bruises, eczema, scalp sores, ulcers, chapped places, Spring pimples, scrofulous ailments, poisoned wounds, swollen glands, boils. As an embrocation it cures rheumatism, sciatica, etc. All druggists and stores sell at 50c a box, or from Zam-Buk Co., Toronto. Six boxes for \$2.50. Send 1c stamp for dainty trial box.
