THE GREAT WONDER Of the Nineteenth Century, Professor Wood's HAIR RESTORATIVE. ereafter designated and known as ALBER-SAYS the St. Louis (Mo.) Democrat: Below we publish a letter to Dr. Wood, of this city, from a gentleman

O a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, MAINE, Jan 20, 1858.

Professor O. J. Wood & Co.:

Gentlemen: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what had wheel. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural colour, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife not he age of fifty-two, has used it with same effect.

The above notice I deem due to you for your valuable discovery. I am assured that, who were soft with the since of the shore before the set of the shore notice I deem due to you for your valuable discovery. I am assured that, who were soft with the set of the shore in the set of the set of

My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
