Look For
the "SV"

THE highest of all compliments is being paid to Vessot grinding plates—imitations are now being offered for sale. We appreciate the compliment, however, more than our customers will appreciate the imitation plates. Therefore, to protect our customers as well as ourselves, we have arranged to mark every genuine Vessot grinding plate with the raised letters, "SV" showing plainly in the face of the plate, near the center. It will, therefore, be easy for you, hereafter, to identify any plate offered to you for use in your Vessot feed grinder.

Look for the "SV." If it's there, you are buying a plate guaranteed as fully as your grinder was guaranteed when you bought it. We cannot stand behind the performance of Vessot grinders unless genuine Vessot plates are used.

Another point—even the genuine Vessot plate will do better work and give better service when driven by the steady power of a Mogul engine. If it should happen that you are not fully informed on the advantages of the Vessot feed grinder, with its two sieve, spout and grinding plates so good they are imitated, and with the kerosene-burning feature of the Mogul engine, see the McCormick local agent, or write to us at the nearest branch house. It will pay you.
