Extract of Hemlock Bark—Extract of Oak Bark

Important to Tanners, Merchants, Machinists, Lumbermen and Capitalists seeking for a Remunerative and Profitable Investment in Canada.

THE IRVING BARK EXTRACT COMPANY OF BOSTON have succeeded in perfecting a Machine for obtaining by compression from underground Bark, all the astringent and Tanning properties of Hemlock and Oak Bark.

By the operation of this Machine, which can be taken into the forests of Canada, on the spot where the Bark is peeled, the actual Tanning principle of the Bark is extracted by compression, and is produced in so concentrated and so small a bulk, that it can be conveyed to market, ready for use, at a mere fractional part of the expense required to freight the crude Bark; 40 galls. of this Extract, weighing 400 lbs., can be obtained from one cord of first quality of Hemlock Bark, and this is worth for home use or for exportation \$20 per barrel.

We are now ready to grant licenses or to receive orders for these Machines.

Any further information may be obtained by addressing

THOS. W. JOHNSON,
At American House,
Boston, Massachusetts.
