

MILKING RECORD
AGAIN BROKEN

Famous Holstein Bred by F. R. Mallory Knocks the Top off Several World's Records

VALUED AT \$50,000

Now Owned by Mr. A. C. Hardy, Millionaire Manufacturer of Medicines at Brockville.

It has been thought several times that the outside limit had been set in butter and milk production, but such is apparently not yet the case. It should be a source of pride and satisfaction to all dairymen in this premier dairy district to know that the cow that is now the acknowledged queen and the wonder of the dairy world was bred in the township of Sidney in the herd of Mr. Fred R. Mallory.

This phenomenal milk and butter machine is now the property of Mr. A. C. Hardy, the millionaire medicine manufacturer of Brockville. For this record-breaker, Mr. Hardy was offered \$25,000 in cold cash by an American but the offer was promptly turned down. Double that figure, or \$50,000 is the value set upon May Echo Sylvia, the champion of champions.

Mr. Hardy, as a very profitable sideline, has established on his farm near Brockville a dairy that is a model in every respect. Here he is establishing his herd of Holsteins and incidentally smashing records.

May Echo Sylvia was born Feb. 23, 1909, her sire being Inka Sylvia Beets Posch and her dam, May Echo Verbeke. The latter cow was a daughter of the famous May Echo, the cow that was sold at the first sale of the Belleville Holstein Breeders' Association, April 1911 for \$1475 to the Allison Stock Farm of Chester-ville, Ont. The same parties two years later at the spring sale purchased May Echo Verbeke for \$1500. These are the highest prices ever paid at the local sales.

May Echo Sylvia, the champion cow, is therefore the granddaughter of May Echo, herself a world's champion in 1910, and a daughter of May Echo Verbeke who won another world's championship in 1912.

May Echo Sylvia was sold as a calf by Mr. Mallory to Mr. E. Maybee of Wooler who later sold his prize to Mr. A. C. Hardy. It goes without saying that neither Mr. Mallory nor Mr. Maybee realized what a gold mine they held in their possession.

A few weeks ago a new Canadian record was established when Lake-view Rattler gave 37.54 lbs. butter, on an 80 per cent. basis, in seven days. The performance of Lakeview Rattler has now been surpassed by that of May Echo Sylvia. May Echo, in a seven-day test recently completed, gave 41 lbs. of butter, on an 80 per cent. basis, and 1,095.3 lbs. of milk. Her highest one-day record was 148.3 lbs. of milk. The butter record is the highest in Canada by 3 1/2 lbs., while her milk record for seven days, is over 85 lbs. higher than any cow of any breed in America, and her one day's record 12 lbs. higher than the highest now on record.

A report recently published gives the following details.

From June 1st to July 15th the records of sixty-nine cows and heifers were received and accepted for entry in the Record of Merit. The sensational feature of this report is the work of the mature cow, May Echo Sylvia, the greatest milk producer the world has ever known. The largest official one-day milk record ever previously reported was 136.5 lbs. May Echo Sylvia sets the mark at 152.1 lbs. In seven days she gave 1005.3 lbs.; in thirty days, 4,196.9 lbs.; in sixty days, 8220.1 lbs.; in ninety days, 11,855.1 lbs. and in one hundred days, 12,899.3 lbs., making her world's champion for all these periods. Her seven day butter record of 41.00 lbs. gives Canada her first 40-lb. cow, and makes her Canadian champion for all ages. Her butter record for thirty days is 169.72 lbs.; for sixty days, 323.32 lbs.; for ninety days, 463.67 lbs. and for one hundred days, 505.34, all championship records for Canada. Some people affect to believe that payment for milk according to quality will give other breeds an advantage over the Holstein. May Echo Sylvia's record of 505.34 lbs. butter in one hundred days is a fitting answer to such claims. It is highly doubtful if any other cow in Canada, except a Holstein, could produce 75 per cent of the above amount in the same time.

DUCKS PLENTIFUL NEAR HARWOOD

Shooting Season Will Open on September 1st—Close Season Has Been Extended Ten Days

Ducks are very plentiful at various points around Rice Lake and along the Ottawa. From present indications the shooting season, which opens on September 1st, is sure to be a good one; and a large number of the flying water fowl will likely be brought down by Rice Lake sportsmen as soon as the season opens.

The close season lasts ten days longer and will give the fowl a good chance to fatten, and thus prove easier marks for the hunter. A new restriction has been placed on the Game Statutes this Fall, viz., that no fowl are to be sold. Thus the hunter who brings down a dozen birds or thereabouts will have to consume the same himself, or else invite all his friends in and make a good feed of himself.

George Pond, who lives opposite Harwood wharf, and the old Harwood creek, are especially plentiful with the choice fowl, which should prove some easy shots on and after September 1st.—Peterboro Examiner.

15TH BAND AT
CONSECON LAKEEnjoyed Outing Yesterday—
Unique Sporting Events Held

The 15th Band held their annual picnic at Conseccon Lake yesterday, where they had as their guests several friends from the city. Going by motor bus, they arrived at the lake at nine a.m., immediately taking to the water to qualify for the prizes.

In swimming Walter Asestine took first prize, pulling off many daring feats, on and under the water. In the submarine race Mr. E. Mouck was an easy winner, as none of the others escaped being torpedoed.

In the fishing competition the contest was keen and prizes were awarded as follows:

Largest fish caught, Billy Hart. Most fish caught, Dave Lees. Smallest fish caught, Jack Weese. Jack McFee and Phil Allore fished on land. They caught a can of salmon. Bob Blaind the veteran bandsman, was an easy winner in the rifle shooting contest.

The bun eating competition called for six o'clock was cancelled, the bun supply having been exhausted by that time. Mr. D. Green and Sgt. Chas. Gibson were judges of the many events and their decisions were satisfactory to all.

In the evening the band played a concert at Allisonville, where the presentation of prizes took place, the awards being made by Mr. Nelson Parliament, M.P.P. Others taking part in the concert were Mr. E. Mouck and Sgt. Chas. Gibson. The proceeds amounted to \$133.00.

MAGIC "NERVILINE"
ENDS STIFF NECK, LUMBAGO.Any Curable Muscular or Joint Pain
Is Instantly Relieved by
Nerviline.

Get Trial Bottle Today.

You don't have to wait all day to get the kink out of a stiff neck if you rub on Nerviline. And you don't need to go around complaining about lumbago any more. You can rub such things away very quickly with Nerviline. It's the strongest liniment, the quickest to penetrate, the speediest to ease muscular pain of any kind.

One twenty-five cent trial bottle of Nerviline will cure any attack of lumbago or lame back. This has been proved a thousand times, just as it was in the case of Mrs. E. J. Grayden, of Caledonia, who writes: "I wouldn't think of going to bed without knowing we had Nerviline in the house. I have used it for twenty odd years and appreciate its value as a family remedy more and more every day. If any of the children gets a stiff neck, Nerviline cures quickly. If it is earache, toothache, cold on the chest, sore throat, Nerviline is always my standby. My husband once cured himself of a frightful attack of lumbago by Nerviline, and for a hundred ailments that turn up in a large family Nerviline is by far the best thing to have about you."

The British steamer Whitgift, previously reported missing, is now understood to have been torpedoed and sunk on April 20, says Lloyd's. The sole survivor was a Japanese.

It is learned from a confidential source in Geneva that the Austro-Hungarian losses since the beginning of the Russian offensive on July 7 are: killed 76,000, wounded, 321,000; missing 300,176.

THE CONDITION
OF MASONRY

Masterly Report by Lt.-Col. W. N. Ponton, K.C., Chairman of Board of Gen. Purposes

The Ontario has been handed a copy of the 61st annual report of the Masonic Grand Lodge of Canada held in the month of July in the city of London, Ont.

One of the leading features of this number is a most comprehensive report by Lt.-Col. W. H. Ponton K.C., and Past D.D.G.M. for Prince Edward District, as chairman of the Board of General Purposes on "The Condition of Masonry."

Col. Ponton's report is not a barren and uninteresting grouping of lodge statistics but a vital and inspiring literary document. The aim of the report is not so much to record growth in Masonic membership but rather the realization of Masonic ideals.

Col. Ponton admonishes his brethren in eloquent words like these:

"Our duty, like that of the Commonwealth, is clear—for we too are or ought to be Knights of the Round Table—to use our own talents and to bring out of our treasure-house things both old and new, to repair, to correct, to improve, to build up, but always in the light of our own tradition which has made us what we are, to maintain and deepen and justify our faith in the unity of the true spirit of man, to enable the brain-worker and the manual-worker each to supplement the other, and draw both within the circle of a common humanity. This surely our Fraternity, composed of men in a world of men—(not children or gods)—can do—is doing, in the process of welding and working together which night by night the faithful Brotherhood carry on together. We are Builders not Prophets, yet we have the vision splendid, while fully recognizing the foundations of our predecessors. We must be factors in the future, and pass on the goodly heritage—fortifiers, not foretellers. After me cometh a Builder, tell him I too hath known. We must bridge this great full today—whose Dawn comes up like Thunder with a still greater tomorrow of achievement and of the excellence of mankind; we into whose nostrils at creation, the great Architect breathed the breath of life."

Masons have borne their full share in the work of carrying on the war and naturally, Col. Ponton's report is largely concerned with military problems. In regard to the kind of peace that will be acceptable to the Allies, he has this to say:—"He that loveth his brother abideth in the light. That is the touchstone of the enlightened, who pray for peace with honor for our children's children—within these walls and without—peace after crime exploited—after wrongs righted—after sacrilegious violations are purged—a peace that will be independent of broken covenants and treaties and will be assured by universal and allied will—a peace that will enable us in faith and practice to live out those virtues the whole world over, which we not merely profess but do admire and love. Men are fighting for their children that these children may not have to know what their fathers and mothers have known during their malstrom of inhuman murder and lust—this epic of agony. Better even racial ruin than eternal infamy. Better go out with honor than survive with shame. And this do all free men, free women, and especially free masons proclaim with the sacred pledge of fidelity and truth—and we shall not fail!"

For Freedom's Battle once begun, Bequeathed from bleeding sire to son Though baffled oft, is always won."

PAKIS SAID TO BE SELLING CLOTHING.

Things promise to be warm for several Jews from Toronto, who are said to be going through this section claiming they are selling goods from Gough's fire. It seems they are making their headquarters at a local hotel and hire an automobile to tour the country with the goods for sale. The story they tell is that the clothing is slightly damaged from the recent fire at Gough's. It is understood a number of farmers have been taken in on this shoddy stuff. Mr. Gough is taking steps to have the men brought up short. He states he has no goods being peddled through the country. He is, however, offering big values at his fire sale. In the meantime the public are warned against the unscrupulous persons selling supposedly fire damaged clothing.—Lindsay Post.

Japanese Merchant Looks to Canada for Larger Trade.

The following are extracts from a communication received this week by Col. Ponton, Secretary of the Board of Trade, from a business man who is reaching out for wider trade as a citizen of Japan, one of the staunch allies of Britain The English is quaint but it serves well as a vehicle of communication for the purpose intended. They have no bilingual troubles in Japan. The circulars enclosed are most interesting.

Kyoto, August 3rd, 1916. First of all, I beg to take liberty of introducing myself of what I am. My firm has been established very old and have had experiences for long time of over two hundred years.

As a matter of course, my forefathers were not engaged in Foreign Trade but expanding by degrees, at the present period of my generation, I might say to be doing tolerably extensive foreign trade.

Stimulated by necessity, the industrial art of our manufacturers has greatly advanced in a comparatively short time, and at present their products are never inferior to those of European markets.

Having been long acquainted with your esteemed fame in the business line I herewith beg to have the honor to inform you of my services and shall be glad to enter business connection with your firm.

Since the great war most of European manufacturers have been absolutely closed out of the market and as the result, great want of daily necessities have been keenly felt in every market over the world.

Though we are also a member of the alliances, our markets have been comparatively less affected by the war than any other fellow countries. Hereby all the importers, throughout the world turned their eyes toward us, and wished to import all things from us and here at every kind of orders were thrown upon our factories.

We are now ready for large orders. When you are in need of some thing in this class of articles, please do not hesitate to make an inquiry toward us.

Re my financial standing I beg to refer you to the undermentioned bank or to any other bank first class in Japan.

HOPE TO REACH THE MILLION

Toronto, Aug. 24.—Canadian National Exhibition officials are beginning to entertain thoughts of another million year, basing their rosy anticipation upon the record demands made by the railroads all over the continent for literature dealing with the Fair. Travel from the United States gives every indication of being unprecedentedly large, one special excursion of 500 people having been booked from Pittsburgh over one line while the other connecting lines from that district say they, too, will bring large delegations. The Ontario visitors should be unusually numerous, the only drawback being the scarcity of help on the farms, which may delay the harvest and threshing operations. The West is showing more than the usual interest and all three transcontinental lines expect heavy traffic in this direction.

HAZEL DAWN DREW CROWD

Griffin's Filled Last Evening to Witness Film Production by Young Actress

Hazel Dawn in "The Saleslady" was the main attraction at the Griffin theater last night. The amusement was crowded for both evening performances, so great was the interest taken in the film work of this young actress. The story of the film

is an entrancing one. The life of a young girl of wealth who is forced into the cold world by reason of paying a relative's debts, her fruitless endeavor to make a living by devoting her time to giving instruction on the violin, her life in an ill-savoured boarding house, the salvation of a young man by her playing on the violin, her life in a store, her marriage, the accident which causes her husband to break his leg, her friend Lizzie's experiences on the stage, her decision to go on the stage for a few weeks, her success and her husband's father's infatuation, and her final reconciliation of banker and son are depicted with great skill.

HOLLOWAY METH. S. S. PICNIC

Delightful Outing at 12 o'Clock Point—Moonlight Cancelled.

Holloway Street Sunday School members and friends yesterday spent a most happy time at Twelve O'Clock Point. It was the annual picnic of the scholars and the Steamer Brockville carried large numbers to the park. The day was delightful for such an event and on all sides were heard favorable comments of the pleasure. Although the sky lines were obliterated by the smoke, yet this fact did not interfere with the enjoyment. In the evening however, Captain Christie would not venture to take out his boat owing to the risk incident to the heavy blanket of smoke enveloping the atmosphere. Accordingly those who planned a moonlight trip were disappointed and the picnickers had to come home early in the evening.

The children of the Shelter were the guests of the school for the day.

GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORRIS, 22 Russell Street, Taunton, Mass.
