PARTIALLY DEVELOPED MINES FOR SALE.

MINING PROPERTIES DEVELOPED.

CONFIDENTIAL REPORTS ON MINES.

Rossland, B. C., Nov. 10.

Dear Sir:

There has been considerable improvement in the tone of the market during the week, and a revival may be looked for all along the line.

The strike reported last week on the Novelty is surpassing the most sanguine expectations of the management. Development has proved the ore body to be not only extensive, but of good shipping value. Assays shows nearly \$22 in gold and \$1.66 in silver to the ton from the grass roots. The best authorities in Rossland are unanimous in the belief that Novelty will rival our best mines.

Iron Mask, Big Three, Smuggler, Cariboo (Camp McKinney), Evening Star, Giant, White Bear and Deer Park have been good sellers, and are undoubtedly good buys.

On the Giant development progresses very satisfactorily. The tunnel is being driven towards the ore body with two shifts of men, and shows every indication of nearing the vein. The showing in the shaft continues to improve.

There is considerable inquiry for Jumbo, but little or none offering. As shipments are to begin in the near future holders of Jumbo shares will not sell at present quotations.

Homestake, Lee and Gopher are attracting attention and will doubtless come in for considerable trading in the next few weeks.

Sincerely Yours,

C. O'BRIEN REDDIN & CO.
