Coover. desire to keep the right hand free in extending their appreciation for the the event a stranger should need some thing done to him. The "explanation" service afforded them by the Grand Trunk Railway System while en route may not be far from the truth.-Chapto the World's Fair, at St. Louis Mc. lain C. C. Bateman in Journal of the Military Service, Institution recently. An abstract from a letter reads as foliows :---

"On behalf of the members" of th Butter is so common a com Canadian Press Association excursion party to the Louisiana Purchase Exthat people use it and scarcely ever think what wonderful value lies at position, I desire to express to you our their hands in the pats of dainty yelappreciation of the excellent service afforded by the Grand Trunk Railway low cream fat. But this delicate fat is as valuable as the dearer cod liver oil System between Toronto and St. Louis. for the weakly, thin people, and doc-The twenty two hours each way in tors have frequently recommended the eating of many thin slices of bread your magnificent train, over your excellent road bed, passed quickly be-cause of the utter lack of discomforts thickly spread with butter as a means of pleasantly taking into the bodily tissues one of the purest forms of fat of any kind. The promptness with which the trains were run, the cheer it is possible to get. Butter is a carbon, and all excess of it is stored up ful attention of your officials, and as fat in the body. It gives energy and power to work to those who eat the pertection of management imshould insure you a large traffic beed the members of our party and heartily of it; so it is not economy at table to spare the butter even to the tween Canada and St. Louis during healthy folk.

1904. I should like to refer especially to the excellence of the dining car Finger Nails and Disease service and of the Pullman equipment with which your trains are provided; of a case of disease as recorded upon finest I have e

TORONTO'S FAMOUS FIRES. How the Recent Staggering Blow to the Wholesale Section Has Stirred Up

the Reminiscent Man.

Toronto has been struck many a staggering blow by the Fire King, but the pride of her merchant prin-ces was never so humbled as in the fire of the 19th April, 1904. A large part of the wholesale district has been destroyed as only fire can destroy, millions of dollars' worth of goods have gone up in smoke or lie goods have gone up in smoke or crumbled ruins behind the skelet walls; but even in the face of this disaster, the worst in our civic history, we are conscious that we have much to be thankful for. Not a life was lost, nor was a man seriously

injured. Some Karly Fires. Among the earlier fires in this city

was that of Good's foundry, situated on the north-east corner of Queen and Yonge 'streets, says The Mail and Empire. The structure was almost completely destroyed, and many citizens must recall how, on that occasion, the work of the firemen was hampered by the condition of Yonge street at the time, the thoroughfare being torn up for the laying of a drain. It was at Good's foundry that the first Canadian steam gine was built-the famous Lady Elgin. The Dickie and Neil fire was another noted conflagration of a generation ago. Again it was a foun-dry that was abiaze. This firm made the narrow gauge cars for the old Toronto, Grey and Bruce, and it was a common sight for the passer-by to observe these cars standing on Phoebe and Soho streets. In the early days the old Iron Block, as it was known, was the scene of several fires. This row of buildings, standjust west of the Customs House ing on Front street, was supposed to be fireproof. In its construction iron been substituted for wood wherever possible, and the builder be-lieved that the place was no more likely to be burned than a stove. It was declared fireproof, and was viewed with awe and respect until the first fire. Others followed, and soon the celebrated Iron Block had become a hissing and a byword for its pretensions. The iron proved no better than wood, for it curled up and cracked under the extreme heat, affording no protection at all for the contents. After several costly experiments, the last of which cost \$400,000, the Iron Block was wiped

Leplanade and University.

Coming down through the years we note the Grand Opera House fire, we note the Grand Opera House Inc. where three lives were lost; the fire in The Mail Office, May 24, 1885, and the great Esplanade fire of Dec. 8, the same year. This, like most of Toronto's great blazes, began at night, and had painted a picture of vuin and desplation before the Sun ruin and desolation before the sun lit up the scene in the morning. The Esplanade fire was a great spectacle. Wood was the fuel, whether in sheds, wharves, or piled lumber. For miles about the sky seemed ablaze, people in the country thought that surely the Queen City was being wiped out. The money loss was es-timated at \$350,000. For many years the famous Esplanade fire held all Toronto records. In only one sense was it insignificant-the archisense was it insignificant—the archi-tectural loss was nothing. It was on Fet. 14, 1890, when Toronto Uni-versity was laid in ruins, that this fact was recalled. This beautiful building was the pride of all Toron-to, and its loss was perhaps the greatest shock citizens, as a body, ever received. It is difficult to be-lieve that a sincle exploding lamp lieve that a single exploding lamp could be the cause of this magnifi-cent structure's doom. Built as it was of stone and brick, slate and hardwood, it burned like a furnace, and so quickly that those responsible for the disaster were hard pressed to escape with their lives. The Ill-Fated Trie.

In 1895, within a couple of months of each other, occurred three fires which destroyed three lives and more than two million dollars' worth of property. The first of these was The Globe fire on Jan. 6, in which brave

HER PRECIOUS SPOONS.

she Used Them For Show at Lun con With Dis Considerable quiet laughter has been ing on among the guests at a lunchgoing on among the guests at a funch-on given by a young West Philadel-phia bride the other day to the attend-ants at her wedding. There had been among the hostess' presents at the

time of her marriage s particularly beautiful set of spoons, and, while she had no occasion to use them at this particular luncheon, she thought that she would put one beside each cover for-well, just for instance.

Unfortunately, hc vever, there was one stranger in the merry little company which sat down about the table, a pretty, outspoken, somewhat "gushy" young woman from the west, and it was she who caused all the trouble. As the luncheon neared its end and

became apparent that the spoons were not for use she kept eying the one at her place, and finally she burst forth with this flash of inspiration: "These spoons-what perfectly lovely

souvenirs!" The confused hostess found explanation impossible, and every guest went

away from the house with one of those DUS SDOODS.

GOING SCOT FREE.

The Source From Which This Old Saying Emanated.

The origin of the old saying, "Going scot free," is this: Scot, from the Anglo-Saxon "sceot." a portion, signified in old law a customary tax or contribution laid on subjects according to their ability and embraced all paroents. The conclusion is chial assess obvious-namely, that to escape "scot free" was to avoid all such payments

of dues and taxes. Before the reform act the right to vote for parliamentary and municipal officers was vested exclusively in payers of "scot and lot." Rastall (1558) speaks of it as a certain tallage for the use of the sheriff or his bailiff, and in Kent the usual rates paid in Romney marsh for repairing sea walls are known by the same name.

"Scot," says Camden, "is that which from various sources is gathered into one heap" - literally that which is "shot" into a general fund, from the Dutch and low German "schot." This may have come to us through the old French "escot," diner a escot, to dine at an ordinary where each guest paid "shot," and any one who did not contribute would be said to get off "scot free."-London Answers.

THE WORD HUMBUG.

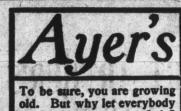

There Are Various Plausible Explanations of Its Origin. The word "humbug" has been traced back to the title page of "The Universal Jester, a choice collection of merry conceits, bonmots and humbugs, by Ferdinando Killigrew, Lon-don, 1735-40." The following are the most plausible and possible derivations

In the time of James II. a worthless coin was minted at Dublin from a soft mixed metal, which became known as uim bog, pronounced Ocombug-i. e. soft copper, worthless money.

Some see in it a corruption of Ham burg, from which town so many false reports came during the war of 1799 1806 that such news was received with "Oh, that is a Hamburg!"

Others refer it to hum, in the sense of hoax, and bug, in the old sense of bugbear. Others say it is merely hum buzz, used in combination to signify without sense. Others, again think that it was first applied to Homberg, a chemist and an ardent seeker of the philosopher's stone .- Notes and Queries.

discussing the Mormon question. "My dear sir," answered Mr. Meeksit still or stand still even for a mo- ton, "it is not only wrong. It's fool-

Bob Bowery, one of the finest men who ever fought a fire, was killed. The walls of the old Globe building were thin and filmsy, and one of them suddenly collapsed, bearing down under it young Bowery, who down under it young Bowery, who was rescued in a dying condition. He passed away in the hospital a few hours later, murmuring, "Boys I'm going." Chief Ardagh and Charles Smedley, caught in a trap in the se-cond building south of The Globe, had to leap for their lives, and their injuries were such that they never the en months, the ridges on the nails of the hand of the affected arm may be seen, while they will be absent on the other hand. The more acute the illness the sharper will be the ridge. Extreme anxiety and mental depression have the same effect on injuries were such that they never re-covered. The McKinnón building was the nails as physical disease. The Friendship of Youth. Two boys brought up together some-times remain fast friends for life, but

e look at

destroyed in this fire, helping to bring the monetary loss up to \$775,-000. At this fire, the inadequacy of the water pressure was held respon-sible for the rapid spread of the flames, while a high wind made the foremen's task doubly hard. On the following Thursday the great incendiary fire occurred in the Osgoodby Building, on Melinda street. memorable feature of this fire The Was the thrilling leap for life of Mrs. Caven, the invalid wife of the care-taker, who, from a height of ninety feet, sprang through a window, sher downward, striking some telephone wires, and rebounding, fell sately in-to a net. Her nurse slid down a wire for some distance, and then leaped into the net, as did her husband.

Died at Their Post. Passing over the ill-favored John

Eaton fire, the fatal Hees fire, the McKendry fire, and that of Gowans, Kent and Co., we come upon the dis-aster by which the lives of five gal-lant firemen were lost. This blaze lant firemen were lost. This blaze occurred on July 10, 1902, in the occurred on July 10, 1902, in the old street railway barns on Front street, occupied at the time by F. McIntosh and Co. As is the almost invariable rule, the men mot their death under falling walls, and not by burning or suffocations. Adam Kerr, David See, Walter Collard, Harry Clarke, and Fred. G. Russell perished. This is a record, in a rough way, of Toronto's great and

rough way, of Toronto's great and fatal fires. In the amount of pro-perty destroyed they sink into nothingness in the presence of the latest

At an evening party it was remarked | Elbe that nobody could draw two things at once. Sir Edward Landseer, who was present, replied that he thought he could, and, taking a pencil in each hand, he drew simultaneously and without hesitation with the right hand the profile of a stag's head and all its antiers complete and with the left hand a lovely horse's head. The acts of draftsmanship were strictly simultaneous and not alternate, and the drawing by the left hand was as good

as that by the right.

Von Bulow's Advice to a Girl. It is to Dr. von Bulow that is debit ed the curt criticism of a young and very pretty girl's effort on the piano-forte. When she had struggled through one of Bach's fugues after the fashion of the ambitious maiden aspirant and asked the great master what he would advise her to do, "Go and get married." he answered as he turned away and left her.

Fortune Through Failure. "I owe my success in life to politics."

"Why. I didn't know that you had ever held office."

"I never have, but I ran for office once and got so badly beaten that I turned from politics in disgust and took up the line that has brought me a fortune."

She Drew the Line. Magistrate-Will you take this man to be your lawful husband, to love,

honor and obey him? Miranda-Look hyar, jedge, I'll 'gree to wash an' iron nigger, but I ain't gwine ter 'low bim ter boss me!

Never Hits It.

Gadsby-That fellow Noscads is regular fortune hunter. Raynor-Well, he's a mighty poor shot.
