RUSS VESSELS NOW BOTTLED IN MOON SOUND

German Cordon of Battle ships Barring Way to Finland Gulf.

OUTCLASSED

The Russian Fleet Put Up a Brave Fight Against Odds.

London Cable - Apparently contingents of the Russian fleet-in all about twenty warships of various classes-are bottled up in Moon Sound, with a cordon of German war craft barring their egress northward back into the Gulf of Finland, or to the south into the Gulf of Riga.

Brave, but out-classed by reason of superior gun-range and heavier tonnage, the Russians gave battle to the Germans and attempted to force back the enemy armada off Oesel Island. Standing far outside the shell zone of the Russlans, however, the guns of the German dreadnought sank the battleshtp Slava—a relic of the days before the Russo-Japanese war-and so badly damaged other units that the Russian flotilla was forced to seek refuge in Moon Sound-lying between Moon Island and the Esthonia coast. Nearly all of the Slava's crew were

Immediately seeing their advantage, the Germans, according to the latest German official communication, began Moor intense operations against lsiand, hammering its eastern shore tatteries until they were silenced, and also attacking the Russian guns on the mainland, butting them out of action. Moon Island was captured and the Russians took refuge inside Moon

Thereupon the Germans threw warships to the eastern part of Kassar Eav lying to the north of Moon Island, barring exit from the northern en-trance to Moon Sound and also rushed contingents to the south of Moon Island, apparently closing the passage to the south into the Gulf of Riga

Already the Germans have attempted to attack from the north into Moon Sound, but the Russian guns have held them back successfully. Among the German warships attacking the old line versues of the Russian fleet were at least two dreadnoughts of the Grosser Kurfuerst type-vessels dis-placing 25.000 tons, as against 12,516 tons for the Slava. A majority of the crew of the Slava was saved by Rus-sian torpedo boats when the vessel took the final plunge.

The Germans claim that 10,000 prisoners and 50 guns were captured on Ocsel Island on Monday.

BERLIN OFFICIAL REPORT.

The official German statement "Reclassification of the booty cap

tured on Oesel Island has up to the present given the following results: Ten thousand prisoners from two Russians divisions—only a few hundreds escaped to Moon Island; fifty guns. including some undamaged heavy coastal and field batteries, numercus arms and other war material

"Portions of our naval forces pressed forward through the mine fields in the Gulf of Riga to the south ern exit of the great Moon Sound, whither about twenty Russian war-

acre being 29½ bushels in 1917, as compared with 37.30 bushels in 1916. Barley yields 51,684,000 bushels, as compared with 42,770,000 bushels in 1916, the average per acre being 21% bushels, as compared with 23.72 bush-els in 1916. The yield of rye is 4,239,800 bushels,

which is slightly more than the quan-tity returned a month ago; the yield per acre is 20 bushels, as against 19.3 bushels in 1916.

For the three Prairie Provinces the For the three Prairie Provinces the Yields are as follows: Wheat, 209,794,-200 bushels; oats, 237,925,000; rye, 2.534.000; barley, 36,727,000; flaxseed, 6,747,000 bushels. The total yields of the remaining grain crops, now re-ported for the first time this year, are as follows: Peas, 2,786,600 bushels from as follows: Press, 3,'36,600 bushels from 151,030 acres, an average of 18½ bushels per acre. Beans, 635,700 bushels, from 43,000 acres, average 14% bushels per acre. Buckwheat, 7,189,000 bushels from 236 400 acres as 10% bushels acre. Buckwheat, 7,189,000 Dushels from 336,400 acres, or 12½ bushels per acre. Mixed grains, 15,741,000 bushels from 469,140 acres, 33½ bushels per acre, and corn for husking, 6,193,000 bushels from 173,600 acres, and average of 35% bushels per acre.

Correspondents were asked to report on the quality of the grain crops at the time of harvest, as measured against a standard of 100, representing grain well bedded grain well headed, well filled, well saved and unaffected to any appreci-able extent by frost, rust, smut, etc., the average results for the whole of Canada are as follows: Fall wheat, 76; spring wheat, 72; all wheat, 73; to, spring wheat, 72; all wheat, 73; oats, 74; barley, 75; rye, 79; peas, 69; beans, 71; buckwheat, 63; mixed grains, 79; flax, 67; corn for husking, 67. The figures are generally high for Outcode Ontario, wheat being 80, oats 92 and barley 89. In Quebec wheat is 67 and Darley 89. In Quebec wheat is 67 and oats are 74. In the Prairie Provinces wheat is 75 in Manitoba, 70 in Sas-katchewan and 75 in Alberta. Oats are 62 in Manitoba, 77 in Saskatche-

wan and 56 in Alberta. The condition of root and fodder crops, measured against a standard of 100 as representing a full crop, was, on Sept. 30, as follows: Potatoes, 64; turnips, 72; mangolds, carrots. etc., 77; sugar beets, 76; corn for fodder, 72, and

alfalfa, 81. The condition of the potato crop by The condition of the potato erop by provinces was on Sept. 30 as follows: Prince Edward Island, 81; Nova Scotla, 77; New Brunswick, 57; Que-bec, 47; Ontario, 81; Manitoba, 69; Saskatchewan, 71; Alberta, 89, and British Columbia, 70.

WAR OFFICE IS

Dominions.

London Cable - To its thousand and one activities the British War Office has now added the ownership and management of a British film business. The entire control of the business. The entire control of the issue is what is known to the moving picture world as the Topical Budget has passed into the hands of the Army Council for the duration of the

war. By the unwritten law of Whitehall, the War Office cannot "go into busi-ness," so the difficulty or owning and controlling the film business was obviated by the appointment of a com-mittee of practical men, responsible to the War Office.

the war Office. The idea of putting out official topi-cal pictures twice a week, illustrating the various happenings on the fronts, and incidents in this country connected with the war, came from France, where the Government decided some time ago regularly to issue films from the front as a means of keeping pub-lic interest steady in the progress of the war, and stimulating public support for its prosecution.

Starting as a strictly national sur-vey of war's doings, the War Office Topical Budget has blossomed quickly into an international concern by a system of interchange with the Allies. so that now it presents to the British public scenes from every front on which the Allies are fighting, except the Bussian the Russian. British pictures will be distributed

through the War Office to France, Italy, Portugal, and all over the British Empire, as well as to the United States. Neutral countries, too, are to be organized for the distribution of these same pictures, and in return cer-tain pictures from neutral countries will be sent here for distribution through the British Isles.

The official film photographers will not confine their work to the front They are also to take pictures of all national events. naval, military or otherwise, happening anywhere in the British Isles.

No official figures have been published as to the Woi, on Moon Island, and on the Esthonian coast, near Werder Island, were silenced.

"Other of our naval units are lying in the eastern portion of Kassar Bay and are barring passage to the west."

ESTIMATES OF CANADA'S CROPS

Slight Reduction On Earlier Grain Reports

As Sent Out by Statistics. Office.

Ottawa Report - The census and statistics office publishes to-day the second or provisional estimate of the yield of the principal grain crops of Canada in 1917, a statement of the quality of these crops at the time of harvesting, and the condition of root crops on sept. 30. The report is com piled from the returns of crop correspondents made at the end of Septem ber.

The estimates of the yield per acre of wheat, oats, barley and tlax are somewhat lower than those reported at the end of August, and the reduction applies to all the provinces. The lafer returns, being based to a larger extent upon threshing results, appear to indicate that the first estimates based upon the appearance of the crops in the field, were too high.

yleld of 1916.

Of oats the total yield is 393,570.000 bushels, as compared with 410,211,000 make good resolutions, but f stable in 1916, the average yield per another matter to make good.

murber of dead and wounded in riets; calculations vary from 50 or 60 dead to 500, the latter number being

given in the report of a non-Italiar authority in Turin. The question of supplies is especial

thrown from aeroplanes this being

The question of supplies is especial. Iv grave regarding wheat, coal and woel: Italy produces no coal, and must import all she needs. Her wool is insufficient owing to the immense consumption for military clothing. But the most sericus of all is the ne-cessity of importing this year about three milion tons of wheat; otherwise three milion tons of wheat; otherwise it will be almost impossible, even with the restrictions imposed by bread cards, to reach the next harvest. point.

cards, to reach the next harvest. The Government is being called upon by Parliament to justify its ac-tion with respect to both of these situations. Whatever the result is, whether with the present Ministry in power or under a new Cabinet, the nation is determined to carry on the war to a victorious end and deteat the efforts of the intransigeant So-cialists, who are trying to spread dis-satisfaction among the troops and in-duce them to, cease fighting after October 31.

WOOL FOR HUNS.

Condemned by the British Prize Courts.

London Cable — The prize court condemned wool valued at \$700,000 shipped in Swedish ships from Buenos Ayres and consigned to the Swedish army administration at Gothenburg. It was shown to the satisfaction of the court that the wool was not intended for the Swedish army administration. The wool was seized at Kirkwall last May and June. Intercepted docu-The wool was select at Kirkwall last May and June. Intercepted docu-ments disclosed a clumsy plot to send wool to Germany. There were nearly a million and a quarter dollars' worth the field, were too high. The total yield of wheat for Canada is now provisionally estimated at 231,730.200 bushels, the average yield per acre being 15% bushels, as com-pared with 16% bushels reported a month ago, and with 17 bushels the vield of 1916. May and June. Intercepted docu-ments disclosed a clumsy plot to send wool to Germany. There were nearly a million and a quarter dollars' worth of more wool seized under similar conditions pending disposal by the prize court.

You never can tell. Any man can make good resolutions, but it's quite

Definite Move to Break With the Tcutons.

London Cable -- Many reports of the growing weakness of Turkey have been received in England and France from various sources during the last week. If there is any truth in them, Turkey is on the point of collapse. Some of the reports say that there is a definite movement on in the Otto-man Empire to break with the Central Powers, and that the Kaiser's visit to the growing weakness of Turkey have

Powers, and that the Kaiser's visit to Constantinople was brought about by this peril. The continuous food riors this peril. The continuous food riots are said to be merely a surface indication of internal conditions, which are rapidly approaching the breaking

The Turks realize to-day that the The Turks realize to-day that the cause of Germany is doomed to failure, and gradually the Turkish people are awakening to the knowledge that if awakening to the knowledge that if awakening to the fortral Powers their they cling to the Central Powers th own country will be divided by t the victors. To avoid this they are willing to force their pro-German Government to make a separate peace.

FATHER AND SON.

Fought Together, Wounded Together, Return Together.

London Cable - Returning to Canada from the Canadian discharge de pot at Buxton together are a father and son named Robert McMillan. They enlisted in the same battalion at Springhill Mine, Nova Scotia. The father went to France fourteen months ago, and the son reached military overseds age seven months later, and joined his father's battalion. They fought together for seven months. A German sniper shot both at Vimy in successive shots as they were walking along a communication trench. Neith er was severely hurt. Both were sen

to England, and spent some time in hospital, but in different institutions, each getting his discharge to Canada simultaneously.

und less irreconcilable peace pro-po-als are to be expected from Ger-many during the coming week. In spite of von Kuchlmann's pom-pous statements concerning Alsace-Lorraine and the Kaiser's nervous ac-tivity Germany, is fered by the most tivity Germany is faced by the most imperative necessity of stopping the war as the result not only of the in-sufficiency of her output of munitions

of Austria. The Bulgarians, too, are now renewing the overtures which they initiated last winter for a separ-ate peace. They are working busily through special envoys, and in partle-ular through well-known pro-Bul-garian sympathizers in England with the object of nersuading Britles and

the object of persuading British and French diplomacy that the Bulgarian people are still true to the Entente Nor are the Turks behindhand in
