

PARALYSIS COMPLETELY CURED

"Fruit-atives" Performs Another Miracle

BOSTON, N. B., JULY 25th, 1911
"I had a stroke of Paralysis in March 1910, and this left me unable to walk or help myself, and the Constipation of the Bowels was terrible.
Nothing did me any good and I was wretched in every way.
I then took "Fruit-atives" for the Constipation and it not only cured me of this terrible trouble, but gradually this fruit medicine toned up the nerves and actually cured the Paralysis.
By the use of "Fruit-atives" I grew stronger and stronger until all the Paralysis and weakness left me.
I am now well again and attend my store every day. I say "Thank God for Fruit-atives!"
ALVA PHILLIPS.
"Fruit-atives" not only cured the terrible Constipation, but so toned up the nervous system and the general health as to completely overcome the Paralysis.
The "Fruit-atives" is a wonderful medicine.

Increasing Sobriety in British Army.

The changes that a century has wrought in respect to the use of strong liquor were illustrated during the recent meeting in London of the Royal Army Temperance Association, which now has 67,433 members, of whom 38,495 are in the Indian Army. According to the figures presented there are now 88,380 total abstainers in the British Army and 2,795 in the temperance section. Earl Roberts said a great change had come over the majority of the army in India since the days when it was the custom to provide every soldier with a 'tot of arrack' every morning. Earl Curzon recalled that in 1812, when the Peninsular War was in progress, the Duke of Wellington's force was 'drinking if not a drunken army. The idea then was that the hard drinking man was the best fighting man and there was a direct ratio between whiskey consumed and courage displayed. The Duke himself while extolling the bravery of his men deplor-ed their drunkenness and social vices. Nowadays all recognize that the old idea was a ludicrous fallacy. Every general who has commanded troops in the last quarter of a century would say that the best marching army and the best fighting army was a sober army.
No alcoholic liquors of any kind were used on Amundsen's sledge journeys in search of the pole. Yet that fact did not prevent the success of his expedition. We have known of a good many enterprises being spoiled by the use of liquor. After all, strong drink is a pretty good thing to leave alone.

The Undergraduate Society of Arts of McGill University held its fourth annual dinner recently. It was a big success, and it was 'dry.' This is the second 'dry' dinner held by the undergraduates, and we congratulate them upon its success.

"Thomas," said the mother severely, "someone has taken a big piece of gingerbread out of the pastry."
"Tommy blushed guiltily."
"Oh, Thomas," she exclaimed, "I didn't think it was in you."
"It isn't, all," replied Tommy. Part of it's in Elias."
"I'm worried about my boy."
"What's the matter with him?"
"Well, I told him to clean up my lawn, and when I had home last evening I found that he had done it."
For the first time in the history of Canadian universities a woman has been appointed a full professor. Miss Corie Dennis, M. A., is to be professor of Botany in McGill University.

Toilet Hints.

Sour milk left on the face and hands to dry is an acid that whitens the skin. If the wash leaves a sour odor on the skin remove with vinegar, hot water and then a good face cream.
Almond oil is used to bring the desired whiteness to the hands. The hands should be dipped in the oil then in French chalk and incased in a pair of old gloves over night. Another plan recommended as a hand beautifier is to wash with peroxide, letting it dry on the hands, then rub in a good cold cream and don old gloves. In the morning wash off with lemon juice, vinegar or cider, hot water and a good skin cream.

Direct Legislation.

Direct Legislation seems, in Canada, to be a geographical return. In Manitoba anyone advocating this system of popular legislative control is denounced by the government as Gri; in Saskatchewan the same man would be described as a Tory while in Alberta, where both parties have endorsed it, the man who opposes it is an exception. Probably in some of the Eastern provinces an advocate of direct Legislation would be described as an 'Anarchist.' Is anything further required to prove the urgent necessity of removing from party politicians the power they now have to confuse the people?

A Word of Gratitude.

"In justice to humanity I want to tell you that I was a great sufferer from itching piles, and have found Dr. Chase's Ointment the best treatment obtainable," writes Mr. Fred. Hines, Brockton, Ont. "It gives instant relief and I can recommend it to any sufferer from this dreadful disease."

For Cleaning Canvas Shoes.

Oxide of zinc is the simplest and most economical cleanser for canvas shoes. Mix a small quantity of the powder with water to the consistency of thin paste. Apply with an old toothbrush or other small brush, rubbing in thoroughly, and let dry before wearing. Five cents' worth of oxide of zinc purchased from the drug store will be found sufficient for an indefinite number of cleanings.

DR. A. W. CHASE'S 25c. CATARRH POWDER

Is sent direct to the diseased parts by the Improved Blower. Heals the inflamed, clears the air passages, stops dripping, cures Catarrh and Hay Fever, whooping cough, croup, and all other throat troubles. It is so soothing and pleasant to use, that children would drink a whole bottle if they were permitted.

Useful Articles.

Squares of hemmed cheesecloth kept in the kitchen or pantry drawer will be found useful to put over bowls or pitchers containing soup, milk, etc., or to throw over a cold roast before putting it away. Of course, the cloth should be fastened snugly over the dishes, and a box of rubber band-kept with the pile of cloth will be found more convenient than string for this purpose.

Nothing Like it for Colds.

Mrs. Holland Ferguson, Sheffield, N. B., writes: "Dr. Chase's Syrup of Marshmallows and Licorice has cured my children and myself of severe colds. We are never without it in the house. There is nothing like it for colds and throat troubles, and it is so soothing and pleasant to take, my children would drink a whole bottle if they were permitted."

Lady (to shoe clerk)—I should like to get a pair of shoes.

Clerk—Yes, ma'am. What size?
Lady—Size 3.
Clerk—Yes, ma'am. Just let me measure your foot.
Lady—But I told you the size.
Clerk—Yes, ma'am; but we have three sizes of size three—size three for a size three foot, size three for a size five foot.

An old darkey was taken ill and called in a physician of his own race.

After a time as there were no signs of improvement, he asked for a white doctor. Soon after arriving, Dr. White felt the old man's pulse and examined his tongue.
"Did your other doctor take your temperature?" he asked.
"I don't know, boss," replied the sick negro. "I ain't missed nuffin but mah watch."

Children Cry FOR FLETCHER'S CASTORIA

A certain editor when at church one Sunday joined in the singing of that familiar hymn, "Crown Him Lord of All." Coming to the last verse the person and congregation were shocked to hear him sing at the top of his voice.
"Let every kindred, every tribe, In this terrestrial ball, Bring forth the dollar and subscribe—We need them, we need all."

CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age. How It May Be Passed in Safety.

So, Wellington, B. C.—"For a year during the Change of Life I was really too weak to walk and was very despondent and thought I was going to die, but after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier my health and strength returned. I am very thankful to you and praise your medicine. I have advised several women who suffered as I did to try your medicine. You may publish this if you wish."—Mrs. DAVID B. MORRIS, South Wellington, Vancouver Island, B. C.

No other medicine for woman's ills has received such wide-spread and unequalled endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills such as inflammation, coloration, tumors, irregularities, periodic pains and nervous prostration, and we believe it is unequalled for women during the period of change of life.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Anchor SHINGLE STAINS

The Best Preservative of Undressed Wood Anchor Shingle Stains indefinitely postpones, if not absolutely prevent wet or dry rot. They show up the grain of the wood, giving delicately artistic finish, not only to the surface coated, but to the entire building.

We have used infinite pains in the selection of pigments best suited to combine with our specially treated COAL TAR CREOSOTE, and our success has been proportionate with our care.

Anchor Shingle Stains are being very largely used on the roofs, and in many instances also on the bodies, of the most attractive houses in our midst; they are also employed with excellent results from an economic standpoint on sheds and other outbuildings.

If your dealer cannot at the moment supply Anchor Shingle Stains, please write us to arrange for you.

The Old Way and the New

In a recent article showing how home manufacturers have become public utilities and how women are to be benefited thereby, just as they are benefited by their own cooking and sweeping and their own domestic servants, Martha Beane, Bruyere makes the following amusing but effective comparison:

When I was in college we had a song in which the hero asked his loved one: "Can you brew, can you bake Good bread and cake?"

Before my love I utter, Can you sew a seam? Can you churn the cream? And bring in the golden butter? What use is retraction? Chemical reaction, biologic proto plan.

Psychologic microcosm? Would you be my weal, You must cook the meal— You shake your head— You'll not wed— An so farewell!"

If that song were re-written and brought up-to-date, the lover's questions would be much harder to answer and yet they might not be so discouraging. They would run something like this:

"Are you up on the pure food law, affecting the manufacture of can condensed soup? Can you assure me that you know the conditions governing the sanitary production of pastry? Can you bring enough influence to bear on public opinion so that the family clothing will not have to be made in a sweatshop? Do you know how to get honest Government inspectors appointed, to assure the purity of the milk and butter you promise to serve me?"

What use is your knowing Everything of sewing. All of picking and preserving. All of washing and of serving? Would you be my weal, Do not cook the meal— You shake your head— You'll not wed— And so, Farewell!"

FAMOUS STAMP COLLECTIONS Lord Crawford's Was One of the Most Extensive in the World

Stamp dealers in all parts of the world are discussing the sale to Lord Crawford's great collection. What is sold was probably one of the finest collections of foreign stamps in the world, and what he retains include the best collection of United States stamps, and a collection of British stamps second to that of King George alone. Before the sale Lord Crawford's collection was the finest that the expenditure of unlimited money, and the research of half a lifetime ever accumulated, with the possible exception of the collection of Count Phillips in Reims, said to be worth about \$5,000,000. Lord Crawford's collection of United States stamps, however, was unrivaled, and no matter what amount a collector might be willing to spend in the effort, he could not duplicate the collection because of the peculiar circumstances in which some of the unique specimens were obtained.

TREASURE TROVE FOUND Workmen Gathered up Harvest of small Coins Under Old Sidewalk

Under the board-walk at Dominion Park, Montreal, workmen engaged in renewing and repairing the walks discovered a treasure trove—an accumulation of coins which had been hidden under the sidewalk for many years. The coins were found by millions of people during the last seven years.

More than \$25 in small coins was found by the laborers. Pennies and nickels predominated, with dime quarters and halves naturally rare. After the first few coins were found the men on the job became sharp-eyed as ferrets. It began to be reported with a total find of \$142. From this amount the sums run down the scale to only a few cents, by every man at work on the sidewalk found money of some kind.

Sciatica and Lumbago

Sciatica, neuralgia and sciatic rheumatism are the result of a run-down nervous system. For this reason all treatments must necessarily fall which do not build up the nervous system.

Mr. W. T. Collins, Morpeth, Ont., writes: "It affords me pleasure to be able to speak favorably of two of Dr. Chase's medicines—the Nerve Food and Kidney-Liver Pills. I had been a sufferer for twenty-five years from sciatica, lumbago and neuralgia and tried almost all the medicines I could hear of, without any particle of benefit, until I commenced to use Dr. Chase's. I noticed an improvement before I had used two boxes, and the benefits obtained by continued use have been wonderful. I have so much confidence in these two medicines that I have recommended them to dozens of my friends, and I have yet to hear of a single case in which they failed to give satisfaction."
