

At the City Hall.

The weekly meeting of the Council was held yesterday afternoon. Mayor Cook presided and all the Council members were present.

After the Minutes of the last meeting were read, the following matters were given consideration:—
A communication was read from J. E. White, South Side, in reference to the unsanitary condition of the dump in this locality. A committee of the Council will visit the site, and see what can be done.

J. C. Pratt and A. E. Chown wrote in reference to the condition of Le-Merchant Road. The City Engineer reported this matter already has been given attention by the Roads Department.

F. J. Curtis asked that hopper be removed from front of his residence Patrick Street. As Mr. Curtis has water and sewerage in his house, it was ordered that his request be granted, and hopper removed as soon as weather conditions permit; also that owners of dwellings in this locality be notified to conform to the regulations by having sanitary appliances immediately installed.

The Inspector General reported he had no objection to permission being given the Red Taxi Company to install gasoline service tank at their premises, Theatre Hill.

B. Guzzell stated he was prepared to sell two horses to the Council, if they needed same. The Council will likely require horses in the near future, and it was therefore ordered that this application be placed on file.

Communication of E. English, with reference to concrete sidewalk, Rawlins' Cross, was referred to the City Engineer; who will visit the place and report.

A communication was tabled from the Newfoundland Industrial Workers Association stating that, as a result of contractors engaging non-residents for the various works of construction and repairing or other work, a great number of the members of their association were thrown out of employment, and they asked that the Council take into consideration the advisability of making such by-laws or rules for governing or regulating same. The matter was referred to the Solicitor with a view to ascertaining Council's position in relation thereto.

Application of William Whitmarsh for lease of property, belonging to the Council on Munday Pond Road for grazing purposes, during the coming season was ordered filed.

Mr. S. Walter asked that he be compensated for damages to his property during the opening up of the water line road. The Engineer reported that the property of the applicant was not trespassed upon or interfered with in any way. The Council therefore, acknowledges no responsibility.

Solicitor Carter reported on the application of the Methodist Guards' Old Comrades Association, in reference to that portion of the Parade Ground leased them by the Government, that the said lease was invalid, as the ownership of the property in question was vested in the Imperial authorities, and the Council had the right of possession. The Council therefore, cannot recognize any claim the Association may have to this land.

A letter was read from G. W. B. Ayre, on behalf of the Newfoundland Amateur Athletic Association, in reference to the Parade Ground. In view of the Council's power to transfer its rights to this property, being limited by the Municipal Act, he stated it would be necessary to amend same, so that the Association might receive proper guarantees to enable them to put the grounds in good condition and enter upon such expenditures as would likely be incurred. As this property was handed over to the Association by the late Commission, to be used by the public for recreation purposes, it was ordered that the Colonial Secretary be communicated with, so that amended legislation might be introduced at the present Session.

Application of P. Grouchy, to erect dwelling, Pine Street, was deferred.

Thomas Shea asked permission to build annex to dwelling, Central Street. His request was accepted to subject to the Engineer's approval.

Plan submitted by John Grant, for the erection of a dwelling, McKay Street, was passed, subject to the approval of the City Engineer, and on condition the building is connected with water and sewerage.

Several other routine matters were disposed of; requisitions for various departments accepted; reports of City Engineer, Health Officer, Sanitary Supervisor, etc., tabled.

The Accounts presented were ordered paid.

The meeting then adjourned.
