Ms. Cox's Sales of Silverware, Jewellery, Watches, &c. have attracted so much attention and been so much better than he expected, he has determined to remain in Sackville another week. Very fine display of goods is open to the inspection of the public, whether including purchasers or not. Rogers' Silverware—a fresh supply just received. 1 ins.

UNEXPECTED FAME.—Joseph C. Allen, Esq., of Botsford, visited Dorchester one day last week and an hour or so after his arrival, perceived he divided with Parker the attention of the court and people. Wherever he turned, a hundred eyes were levelled at him; they peered into his face, they looked under his coat, they took stock of his clothes, they stared him out of countenance. He was totally unprepared for creating such a sensation and the cause of it considerably annoyed him. At last when six constables surrounded him, each one silently surveying him with his most professional air, human endurance could stand it no longer, he suddenly demanded "What the d— do you take me for?" One of them replied, "Why, ain't you Parker's father?"

The Pic-Nic at Dorchester on the 28th, promises to be one of the most agreeable events of the year. A band will discourse sweet music during the afternoon and evening. A platform for terpsichorean performers will be erected. The programme of the afternoon's performance includes Scotch games, foot and hurdle races. Medals are being struck for the winners. Prizes will be offered in Ladies archery. The Dramatic Club play at Robb's Hall in the evening: "Paint Heart never was a Fair Lady" and "Limerick Boy." Return tickets on the trains are expected. The committee having the affair in hand intend making it in every way a most agreeable and enjoyable affair. The proceeds are in aid of the new Catholic Church at Dorchester, and while a committee of Catholic gentlemen are managing the affair, the people of other denominations are cordially invited to participate. The most liberal arrangement are being made in providing refreshments—all the delicacies and fruits of the season will be spread. A very large attendance is confidently anticipated.

The McCarthy Murder.

THE MYSTERIOUS STRANGER ON THE STAND!

DORCHESTER, Aug. 10.—The "mysterious stranger" has at length appeared on the scene. He was the first witness called to day.

BENJAMIN ALLEN, farmer, of Botsford, sworn, and examined by Dr. Tuck, said he came from Summerside, P. E. I., to Point de Chene on the boat the 12th of October last and had a rough passage. He stopped at the widow Clark's, at the Point, and walked up the track to Shediac in the evening, starting from the Point about 11. There was no light in the Weldon House, but he saw one in Osborne's. He went in the front door through the hall to the bar room door, on the right. There was a young man and woman in the hall. The young man met him and witness told him he wanted a drink. He went to the bar room, but he did not see the man who he thought was the murderer. He saw a woman behind the counter. He also saw a tall, stout man there dressed in dark clothing. He could not tell whether he had a rubber coat or not, but he had a felt hat on. Witness spoke to no one but the boy or young man, as he called him. Witness had a pair of grey pants on and a black reefer. This was between 11 and 12 o'clock. Witness had no conversation with the man who he thought was the murderer. He thought he saw McCarthy and his wife on the day he came from Summerside. He thought he had seen the woman in the dock (Mrs. Osborne) at Shediac in the Osborne house. The parties the witness says in the Waverly were two women, one in the hall and one in the bar room; two men, one in the bar room and the other met him and brought him the brandy. Witness then went out and went to Mrs. Prior's and stopped all night. Next day he took the train for Lunenburg and got his brother-in-law to drive him to Port Elgin. He has been to Shediac since at different times.

Cross-examined by Mr. Palmer.—That night after leaving the Osbornes they went to Githro's. They were in bed and he went to Prior's and remained all night. Hon. Mr. Pope and Mr. Harris, of Moncton came over in the boat with witness. He went to Githro's, and he had there about eleven. He had no watch, but Mrs. Clark said it was eleven. Witness left Mrs. Clark's before she went to bed. He thought it is none of Mr. Palmer's business whether he said Mrs. Clark money or not, but his Honor thought it was his business, witness said he did not pay her any. She did not ask him. He never testified in this case before. He walked up over the bridge from the Point, but can't give any idea of the distance. He reckoned he was smart enough to jump over the holes. He was a little tight. It cleared off at nine and did not rain till twelve. Mr. Palmer wished to ascertain the number of brinks witness had but he is afraid his wife will hear. He could not remember. The woman in the hall was near the door and the other one was behind the counter. He could not describe the stout man in the bar-room. He just caught his eyes. He would not say whether he was morning and drank. He says he never told any one he had grey pants on for the night he left. When he came to the Point he black. Schurman's about 6 o'clock. Mr. Palmer wished witness to detail his whereabouts from the time he left Summerside. He said he didn't wish to go into vulgarities. Here the ladies left, and witness said he was playing euchre, courting, &c., and didn't wish to tell the rest. He would rather be looked up. However, it turned out to be a most amusing and interesting story. He explained his whereabouts the remainder of the night again.

To Dr. Tuck, he said it did not rain while he was out after 9 o'clock. To a Juror—He met no one that night.

George McFee and Millidge Lockhart, being absent, the clerk declared their recognizance forfeited unless they appeared.

Dr. Tuck proposed to show that Lockhart was out of Canada and he would supply his deposition taken at Shediac.

William Lockhart, Petitioner, as then put on the stand to prove his brother out of the jurisdiction.

Mr. Palmer objected, and after a storming of legal points witness stood aside.

Dr. Tuck expects to close the prosecution this afternoon. Mr. Palmer wishes to have the Parker girl recalled. Dr. Tuck is willing for counsel to call her on defence but not on his side. Mr. Palmer wishes to ask her in regard to a deposition she had made about a child she had. His Honor thinks Mr. Palmer should make Parker his own witness.

An argument took place on the legal points, and the Court adjourned for dinner.

Allen drew quite an audience.

DORCHESTER, Aug. 14.—Hon. Mr. Hanington was in Court to-day, though still looking poorly.

Dr. Chandler, of Dorchester, was called by Mr. Palmer. He was examined at considerable length, relative to his opinion as to the progress of decomposition under certain conditions, and on many of the points covered by the testimony of the interpreter, does not determine the question. The expert duty on lumber which was in force in New Brunswick, was contrary to the principles of free trade, notwithstanding it was for the purpose of revenue and not of protection, and so are the duties levied on spirituous liquors imported into the Dominion. I am aware that in talking about free trade, politicians make a distinction between the natural course of the purpose of revenue, and not to regulate or restrain trade. Such a distinction, of course, arises in Parliament in discussing what is interference shall be, and its extent,

The Botsford Meeting.

Special to the Post.

Bay Verte, 15th.

The meeting last night was attended with about 200 persons, including strangers and boys. It was not an enthusiastic nor was the Minister of Marine well received. Wm. Duncanson, Esq., filed the chair. The Minister denounced the Post, Sir John's Government and Mr. Chapman. He spoke of his claims on the people having represented the Country for 26 years and never doing anything for the people, but would, if elected, guarantee the Cape Tormentine Railway. The meeting was not a success.

PGWASH ITEMS.—The Archbishop of Halifax accompanied by several Priests, paid a short visit to this part of his Diocese on Tuesday last. He held a short service in the Chapel and addressed his people on their duties as good Catholics. He was well and favourably received, this being his first visit since his appointment to the Archbishopric. He has promised to visit them next year for the purpose of holding confirmation.—Everything is moving along in the usual fast pace. At present there is danger of getting ahead of the times.—Hay making is about finished and has been stored in very good condition, considering the wet and catching weather, as farmers term it.—A ship, the "Finland" is expected daily from London, at present there is only one barque in Port.—There are still a few cases of diphtheria in the place, but on the whole there is very little sickness, and consequently the Doctors business is slack, but the Butchers and Bakers are thriving.—The Government steamship "Glendon," Broome, arrived here on Sunday last with supplies for this Light, which were landed on Monday, and the Lighthouse inspected. Admirers of the Post, (and they are no few) wish the Editor success in the political field.

A GRAND GOVERNMENT PLO NIC is being worked up by Hugh Davidson and some other gentlemen who have the misfortune to belong to the Rogue-Grit-brother Charles party. It takes place at Petodiac to-morrow. Sir A. J. Smith speaks. A special train passes here in the morning and returns at night. Return tickets, one fare, and refreshments at exceedingly low rates are announced. We advertise it gladly as we know the people are anxious to see the spectacle of the sleeping lion aroused. Bottom in *Madam's Night's Dream*, also wanted to play the lion, and shouted "I'll roar," &c., but he had the head of a jackass.

THE GREAT RACE at Barrie, Ontario, on Monday, resulted in Hanlan's victory six lengths ago ahead of Ross. There were seventeen entries. Thirty thousand people were present. Ross has paid Hanlan the pretty compliment of saying it was useless for him to row against a steam engine.

HON. MESSRS. CARTWRIGHT and McKenzie went through last night to Halifax.

Extract taken from the "Canada Lancet" dated 14th May 1878.

"PHOSPHORENE.—This new preparation of the Elixer of the *Phosphorene*, which has been named *Phosphorene*, is fast gaining favor with the profession. It was unfortunate that the manufacturers (Evans, Mercer & Co.) chose for it the above name, as it gives the appearance of a PATENT NOSTRUM, WHICH IT IS NOT. It is a combination of the Hypophosphites of Iron, Soda and Lime, with Calveia and other Tonics, in the form of an Elixer, and is a most excellent tonic. It is easily administered, agreeable to the taste, and very efficacious in the TREATMENT OF DEBILITATED CONDITIONS of the system. It has proved a most valuable remedy in the treatment of INFANTILE DEBILITY AND CHRONIC WASTING. Sold by all druggists throughout the Dominion. Price, one dollar per bottle."

or it will terminate in that dreadful disease, consumption. We are aware that a prodigious number of persons are attacked by this disease, and that a cough or cold when bordering on consumption, or even when the lungs are affected, but we can save our readers that VICTIM'S BALSAM OF WILD CHERRY will do all this; and in making this assertion we speak from our own experience, having suffered for months from a cough, which after using many remedies without any relief of the least kind, was cured by VICTIM'S BALSAM OF WILD CHERRY. We were, however, so fortunate as to secure several bottles of VICTIM'S BALSAM OF WILD CHERRY, and are now entirely rid of the cough, and restored to former health. To those suffering in a like manner we recommend this excellent preparation.

50 cents and \$1 a bottle; large bottles much the cheaper. Sold by dealers generally.

An Unpleasant Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you, your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that "Green's August Flower" will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, loss of spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its life saving properties. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. For sale by Amana Dixon.

To Conquer.—The production of a remedy that "may truly be said to alter the prospects of the Consumptive as to give hope of cure in not a few cases, saving of much suffering and life in the greater number"—"the only remedy worthy of the name, which, if carefully used, will rarely fail to produce marked beneficial results. Prepared only by J. H. Robinson, St. John, N. B., and for sale by druggists and general dealers. Price, \$1 per bottle; six bottles for \$5.

Great harm and discomfort is caused by the use of purgatives which gripes and rack the system. *Painex's Purgative* is free from all impure matter, and is mild and health-giving in its operation.
