WARREN LELAND,

Largest Hotel Enterprises

of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to Cal-ifornia, he learned that one of the officers of the vessel had cured himself, during the voyage, of an obstinate disease by the use of Ayer's Sarsaparilla.

Since then Mr. LELAND has recommended

AYER'S SARSAPARILLA in many similar cases, and he has never yet heard of its failare to effect a radical cure.

Some years ago one of Mr. LELAND's farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Hor-rible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enormously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND'S direc-

healed the sores, removed the swelling, and completely restored the limb to use. Mr. LELAND has personally used Ayer's Sarsaparilla for Rheumatism, with entire success; and,

after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases. We have Mr. LELAND's permission to invite all who may desire further evidence in regard to the extraordinary curative powers of AVER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, adway, 27th and 28th Streets, New York. Mr. LELAND'S extensive knowledge of the good done by this unequalled eradicator of blood poisons enables him to give inquiress

THE NORTHWEST REBELLION.

THE CAPTURED REBEL DOCUMENTS AND THEIR CONTENTS. RIEL'S PROPHECIES. (From the Montreal Star.) GARIEPY'S CROSSING, N. W. T., May 18. —It is really wonderful to find by the cap-tured documents the amount of information the rebels possessed regarding the column and its movements. All the way from the Salt Plains daily reports of our

Varieties.

column and its movements. All the way from the Salt Plains daily reports of our movements were received by the council, and some surprise was caused by our branching off the trail at Vermilion Lake to strike across the prairie to Clarke's Crossing. Even such little details as the trouble of a teamster to catch his horses at one camp were noted and the number of wagons of each convoy as it joined the column reported. A wonderfully correct plan of our camp at Clarke's Crossing was also found a mong the documents, giving even the location of each gun, latrine, fire trench and tent. The tents of the various of general, staff and officers were also distinguished, and all the rocks in the

distinguished, and all the rocks in the locality marked. Some idea as to the precautions taken by the rebels to obtain

L believe in the Divine mission of Louis David Riel. I accept Louis David Riel as prophet. In the dreams of the night I conceived of Louis David Riel as an instrument in he hands of the Guide to gather to himself his own people.

Louis David Riel and William Henry

"The Petted Indians are the bad ones Poundmaker has been petted and feted, and stands in the front rank as a raider. Little Pine, bribed to come north and kept in comfort, hasten to the carnage. Big Bear, who has for years enjoyed the privilege of eating of the bread of idleness, shows his gratitude by killing his private and his best formula in the property of the privilege of eating of the bread of idleness, and his best formula is a mass of ruins. Fifty persons are the privilege of eating of the bread of idleness, shows his gratitude by killing his private to the general way an earthquake on London, May 29.—A partial potatoe curred at intervals of ten minutes, were of great violence. A great part of the cavalry barrack is a mass of ruins. Fifty persons are known to have been killed and hundreds of injured have already been taken from the general way an earthquake on London, May 29.—A partial potatoe famine and a sharp rise in prices is threat-city was destroyed. The cavalry barrack is a mass of ruins. Fifty persons are been ruined by frost. shows his gratitude by killing his priests and his best friends in cold blood. It is singular that the Canadian papers which the United States Government would have to give him, sufficient proof to commit him was not adduced he would be immediately released. If evidence was conclusive against him the Secretary of State at Washington would at once isto the Canadian authorities.

the Gatling gun platoon of the Second regiment, Connecticut National Guard.— In no case would Dumont be delivered He served in the war of the rebellion, and over if the offence should be regarded as a political one, and there are many cases he had considerable experience in Indian

A MODERN BRUTUS.

Riel appears to have carried his idea of immortalizing himself as a North-western Mahdi pretty far, and among the general's literary captures is abook of his prophecies. Each prophecy is written in the shape of a dream and most of them are of not the least significance. He did his utmost to excite the superstition of the half-breeds, and when a rocket was fired from camp at Batoche as a signal 'to the steamer he told his followers that it was fire from heaven descending on their enemies:

In all might at once form a Canadian and your of the 40,000 splendid seamen of Canada. She should also raises ix regiments of Canada. She should also raise six (Special despatch to the Halifax Herald.)

OTTAWA, June 3—A telegram from Sir Leonard Tilley shows that the conversion of the \$25,000,000 of fives of 1860 into fours for twenty-four and a half years, has proved a great success. The terms offered were interest to the 1st of July on the old fives agreed by the holders to be converted into new fours, and one per told his followers that it was fire from and stores she carried would be delivered at the admiralty dockyard in the Pacific with the conversion of the stance and raise six proved a great success. The terms offered were interest to the Halifax Herald.) heaven descending on their enemies. That Riel gloried in his apostacy is clearly proved by a placard which was posted about the country in prominent places and a copy of which your correspondent saw nailed to a prominent tree at Garley's the first being a sort of belief and the second a form of oath both of which are given verbatim.

BELIEF AND OBJECT.

I believe in the Divine cause and aim of the present movement.

Let this be compared with the time it now takes to get to our saving in interest \$250,000 a year. Such is the popularity of the new fours that there is active bidding in the London market for all old fours, the hollers of which are selling rather than make the exchange, the object of the bidding being to secure the old fives for the purpose of exchange for the new fours. The success of the new loan of five million pounds sterling to cover floating liabilities of fifteen million dollars and give ten millions for capital expenditure during the next fiscal year, is also assured.

commence what ought to be now in course fiscal year, is also assured. of active arrangement." BUTCHER BIRD AND SPARROWS.

From the Portland (Me.) Press, May 16. A gentleman who has just been making a trip thorough the the gold regions of Yarmouth gives a very favourable account the bird-houses, and eaves of buildings. Louis David Riel and William Henry Joseph Jackson are agreed that God's will be done on earth at all costs and at all hazards.

I commence to understand what a true friend Louis David Riel has been to me. We agree at last.

Dear Brothers,—We, of the Saskatchewan have united under Jesus Christ as our king and Louis David Riel as our governor, being agreed that his will be done on such as in Heaven and that hence forth, we generally and forwars we shows the seem of the new mine on the west side of the Kempt river. Manager Cowan has found nine good veins in close proximity. The richest that has been worked is nine inches in width. About fifteen tons of ore has been taken out, the last of which will turn out about \$60 or \$70 of gold to the ton. When it is considered that the average yield of gold in Nova Scotia is only \$16 or \$18 to the ton, went to no one could say. The bird found but two victims the first day. Meanwhile some boys had notice the has been put up and the company intend to the trouble, and finally managed to kill the the wealth of this mine becomes apparent.

A mill and plant valued at about \$5,000 has been put up and the company intend to work this to its utmost capacity.

There is considerable excitement in Yarmouth over these two developments.

The wealth of this mine becomes apparent.

Meanwhile some boys had noticed the trouble, and finally managed to kill the bird with a stone. The moment the bird struck the ground the very building was alive with singing sparrows, so delighted were they to be out again. Can it be that

Herald is published in time of peace every that if these new discoveries at Kempt to Beach at Melbourne on Saturday, offertroubles it will be issued when convenient treason to believe that Yarmouth gold mines ing to match Hanlan against him to row and when opportunity offers of getting it out of the country. As the mails are cancelled for the present this is a very uncertain thing to depend on. Single EARTHQUAKE IN INDIA. Hanlan can reverse the defeat which Beach inflicted upon him. Beach has re-
