executed only four men.

NEW YORK, Dec. 18.—Walter S. Philips, 12 years old, was bitten in the face by a pug dog two months ago. He remained in apparently perfect health till last Sunday afternoon, when he began to show symptoms of rabies. Four physicians were called, but the boy became worse hourly. In a quiet interval between his convulsions Monday afternoon he called his brother. Will to his bedside and asked him 'What day is this? This is Monday, replied his brother. Yes; but what day of the month is ut? 'It is the 16th of December.' I will die on the 17th of December.' I will die on the 17th of December,' said the sufferer. The little fellow's prediction came true. He died yesterday.

, Chief Superintendent.

CAMPBELL'S WINE OF BEECH-TREE IN DISEASES OF THE LUNGS AND THROAT.

MANY years have clapsed since the Medi-deal School of Paris, as well as Dr. Gim-bert of Cannes, called the attention of the Medical Board to the use of the Creosoto de Gourdon de Hetre (Beech-Tree-Tar.) for the cure of Phthisis, Pulmonary affections, Ca-tarrh, Congestion of the Lungs and other dis-eases of the Respiratory Organs. Several ex-periments have been made, and all have given unexpected results.

unexpected results.

In the South of France, where all persons threatened by Phthisis go to be treated; where Doctors Boachard and Gimbert, the two specialists so highly recommended by public opinion, have experimented with all the proposed medicines against pulmonary Tuberculosis, it is the one prepared to-day and that which for ten years past, they have finally adopted, after many comparative experiences, based upon the antiseptic method, having specially in view the destruction of the Bacilli.

After a few days use of the remedy the comparative compared to the second of the second

After a few days use of the remedy, the experforation diminishes, and very soon one is pleased to witness the gradual disappearance of the Baccilli, the breaking off of the fever and the rapid recovery of appetite and strength When instead of confirmed Phthisis, Ca-tarrh, or Chronic Bronchitis have to be dealt with, the different forms of which may some-times give rise to an uncertain diagnosis than Railway Office, Moncton, N. B. 11th Dec., 1889. ' A Stitch in Time Saves Nine,' with, the different forms of which may sometimes give rise to an uncertaint diagnosis, they have always been cured. Those excellent results need not astonish us, if we consider the lucky natural associations of complete antiseptic and Balsamic principles in the compound we now describe. When our Wine shall have restored health, it will be well not to discontinue its use at once, and, at all events to use it again about a fortnight before wister sets in, and at every change of season followed by damp weather.

N. B.—The use of Cod Liver Oil, as a powerful assistant to the remedial properties of the Wine, is recommended. Compbell's "Skrei" Oil, being the best, is the kind which should be taken. Sold by life much time, money and suffering may be prevented. A Cough or Cold neglected often ends in Constimption, which might have been cured in a few days had the proper remedy been used. Don't delay, delays are dangerous, Secure st once a bottle of
