

THE THUGS OF INDIA. Dr. Hooker, in his "Himalayan Journals," just published, gives an account of the Thugs, some of whom, belonging to the approvers of the establishment for the suppression of Thuggee, he himself saw. Of these, he says, the first was a mild-looking man, who had been born and bred to the profession; he had committed many murders, saw no harm in them, and felt neither shame nor remorse.

He explained to me how the gang way by the unwary traveller, enter into conversation with him, and have him suddenly seized, when the superior throws his own linen girdle round the victim's neck, and strangles him, pressing the knuckles against the spine. Taking off his own, he passed it round my arm, and showing me as coolly as a sailor once taught me the hangman's knot. The Thug is of any caste, and from any parts of India.

The profession have particular stations, which they generally select for murder, throwing the body of their victim into a well. The Dakot (dakhee, a robber) belongs to a class who rob in gangs, but never commit murder—arson and house-breaking also forming part of their profession. These are all high-class Rajpoots, originally from Guzerat; who, on being conquered, vowed vengeance on mankind. They speak both Hindostanee and the otherwise extinct Guzerat language; this is guttural in the extreme; and very singular in sound. They are a very remarkable people, found throughout India, and called by various names their women dress peculiarly, and are utterly devoid of modesty. The man I examined was a short, square, but far more powerful Nepaice, with high arched eyebrows. These people are great cowards. The Poisoners all belong to the eno caste, of Pasie, or dealers in toddy; they go singly or in gangs, hunting the traveller's resting-places, where they drop half a rupee weight of pounded or whole datura seeds into his food, producing a twenty-four hours' intoxication, during which he is robbed, and left to recover or sink under the stupefying effects of the narcotic. He told me that the datura seed is gathered without ceremony, and at any time, place, or age of the plant. He was a dirty, ill-conditioned looking fellow.

HOLY LAND.—A letter from one of the American travellers in the Holy Land, gives a melancholy account of the present condition of affairs there. The Turkish troops having been withdrawn to fight the Russians, anarchy, disorder, and violence of all kinds, are prevailing. Many of the inhabitants have taken refuge in the walled towns, and the peasants, as they work in the fields, have with them their arms loaded for an encounter. Bands of Bedouin robbers traverse the country in every direction, and the party to which the writer was attached, was attacked, and one of them wounded. Thus, while Europe is about to plunge into a war, originating in the question as to the control of the Holy Places, the inhabitants of that region are left at the mercy of the spoiler. In one case it is stated that forty men and two women were massacred by a party of Bedouin vagabonds.

Russian Treaty with Japan.—A letter from Malta, of April 9th, says:—"By the India mail the news came, via Ceylon, that the Russians have signed a commercial treaty with Japan, which throws open the trade of that country. The Americans, it would appear, have not been very honourably treated by the Russian squadron in these seas, who rather cavalierly succeeded in getting the treaty, which, in all justice, is due to the Americans; and this after they had been lent coals, &c., by the Americans in China. If it had not been for this kindness on the Americans' part, it is doubtful if the Russians could have got so early to Japan."

CHINESE EMIGRANTS.—The California papers report a revival of the Chinese immigration into that State. A Dutch ship, the Isis, had just arrived at San Francisco, with nearly five hundred Chinamen on board, and reported three other vessels at Hong Kong taking in passengers when she sailed. Two ships had already left previous to the Isis, with full complements of passengers.

OHIO LIQUOR LAW.—A stringent liquor law has been passed by the Ohio Legislature, which punishes by fine and imprisonment persons selling liquor to parties intoxicated, or in the habit of getting intoxicated, and also renders the retailers of liquor liable in civil suits for damages.

DR. HOOPLAND'S CELEBRATED GERMAN BITTERS, Prepared by Dr. C. M. JACKSON, No. 120 Arch Street, Philadelphia.

The "Philadelphia Saturday Gazette," says of Dr. Hooplund's German Bitters: "It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hooplund's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are coined about for a brief period, and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said, Aug. 25.—"Dr. Hooplund's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent physicians of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

"J. G. Moore, Esq., of the Daily News said, October 21st.—"Dr. Hooplund's GERMAN BITTERS.—We are trying this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and have derived more benefit from the experiment than we derived previously from any allopathic treatment, at the hands of our first physicians."

"C. D. Hindley, Mayor of the City of Camden, N. J., says:—"HOOPLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. For inquiry we were permitted to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce evidences of the same merit."

For sale wholesale and retail at THE GERMAN MEDICINE STORE, No. 120 Arch Street, next door below Sixth Philadelphia, and by respectable dealers generally throughout the country.

In this mammoth-wholesale Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the City of Spindler, we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedented popularity of his medicines, and the immense sale of them, we had expected to find him a millionaire, and rolling in wealth. But no, we found him in his laboratory, busy with his labors, among his crucibles, alembics, and retorts—giving his personal care to the compounds, on the virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, and its prompt returns in cash, the Doctor is not rich. The reason assigned is, that the material is costly, and he persists in making his preparations so expensively, that the net profit is small.—American Farmer, Phil.

The Far-famed Medicine! HOLLOWAY'S FILLS.

SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS' SUFFERING. The following testimonial has been sent to Professor Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and constant spitting of phlegm intermixed with blood. This so shook my constitution that I was unable for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

I am, Sir, your obedient Servant, (Signed) H. MIDDLETON. Dated Jan. 1st, 1852.

A PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS' DURATION. Copy of a Letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly, (Signed) J. GAMIS. Nov. 23, 1852.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE. Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To Professor HOLLOWAY, Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, who obtained no relief whatever, and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and she came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, after a considerable period had elapsed. I have felt no return whatever of the complaint. I am, Sir, your obliged Servant, (Signed) W. MOON. Oct. 8th, 1852.

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS. Copy of a Letter from Mr. G. Briggs, Chemist, Gool, dated February 14th, 1853.

To Professor HOLLOWAY, Sir,—I have much pleasure in informing you of most surprising cure of Dropsy, recently effected by your valuable medicine. Captain Jackson, of this place, was afflicted with Dropsy for several of eight months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary; notwithstanding the various remedies tried, and the different medical uses consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

These celebrated Pills are wonderfully efficacious in the following complaints: Ague, Dropsy, Inflammation, Bilious Complaints, Erysipelas, Jaundice, Swelling of the Skin, Female Irregularities, Leucorrhoea, Cholera, Fevers of all kinds, Piles, Constipation of the Bowels, Gout, Head-ache, Urine, Dropsy, Indigestion, Scrofula, and Sore Throat, Stone and Gravel, King's Evil, Secondary Symp-toms, The Dolent, Venereal Affections, Worms of all kinds, Ulcers, and whatever case, &c.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and Dealers in Medicines throughout the Civilized World, at the following prices: 2s. 6s. 8s. and 20s. Currency each Box. There is a considerable saving by taking the larger size. N.B.—Directions for the guidance of patients in every disorder afflicting the human system. GEORGE T.
