ECZEMA IS CAUSED BY IMPURE BLOOD

Cured by Dr. Williams' Pink Pills Because They Make Pure Blood.

Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it that does not reach the blood—that salves and outward applications are worthless and a waste of money. The reason why Dr. Williams' Pink Pills have always been so successful in curing this most annoying trouble is because they act directly on the blood, reaching the root of the trouble and driving out all impurities. They banish eczema, salt rheum, and unsightly pimples and eruptions, relieve the irritation and itching and give perfect health. Mrs. A. Puing, of Milestone, Sask., says: "I was afflicted with a blood and skin disease which the doctor called eczema, but which did not yield in the least to his treatment. I was covered with sores and in 'very bad shape. A friend advised me to take Dr. Williams' Pink Pills and after using eight or nine boxes I was completely cured. I can strongly recommend the Pills to anyone suffering from that trouble."

A medicine that can make new red blood will cure not only skin troubles, but also anaemia, rheumatism, neuralgia, indigestion and a host of other troubles simply because these troubles are the result of bad blood. Dr. Williams' Pink Pills make new blood and under their use blood and nerve troubles disappear. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville Ont.
