REGULATIONS FOR FISHING IN N. B.

Restrictions Which Should be Remembered

Official advice concerning fishery regulations for the province of New Brunswick have been received from Ottawa.

Gaspereau fishing by means of gill-nets and pound-trap nets is permitted from March 1 until June 25, both dates inclusive, except on the Miramichi River, where the season begins on May 25 and ends June 25, inclusive. Gaspereau fishing is prohibited from the time of low water nearest 6 p. m. Friday of each week until 6 a. m. of the following Monday, except in St. John harbor, where fishing is prohibited from Saturday until Monday, from the time of low water nearest 6 p. m. and 6 a. m., respectively, for the days given. The mesh nets for gaspereau fishing shall not exceed 3-1/2 inches, extension measure. When in the opinion of a fishery officer for any district, gaspereau fishing is harmful to any other fishing, he may prohibit gaspereau fishing during the fishing period.

In herring fishing, no nets shall be set for herring within 1,000 feet of any weir under license. Driving with torches or other artificial lights is prohibited. Except where a special permit is granted for fishing bait for use in deep sea operations, weirs, nets, etc. must be open for the free passage of fish from Saturday until Monday, from the low water time nearest 6 p. m. until the low water time nearest 6 a. m.

A closed season is fixed for striped bass from the last day of February until the 13th of November, inclusive, except that angling may be carried on at any time. Use of seines for bass fishing is prohibited, also use of nets having meshes of less than 5 inches extension measure. All bass less than 12 inches in length must be returned to the water immediately. A license fee of \$1 must be paid for net fishing, of bass. All bass nets must be kept open from Saturday afternoon until Monday morning, on the low tide nearest 6 p. m. and 6 a. m. respectively.

Fish shipped during a closed season must be accompanied by a certificate of a fishery officer.

Export of clams is forbidden from May 1st to June 30, inclusive, and in St. John and Charlotte counties no one shall dig clams without a permit.

Cod fishing by seines is prohibited within half a mile of fishermen operating from anchored boats, with hooks and lines.

During September, October and November, in water frequented by salmon or trout, no person shall use a spear or torch or other light in fishing eels.

Use of explosives is prohibited in fishing by gill-nets, drift nets, trap nets or by angling. The mesh shall not be less than five inches extension measure. After 1924 the mesh shall not be less than six inches.

Salmon net fishing is prohibited except by license.

The fee for a gill or drift net license is \$1 for the first ten fathoms and

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumsden, Saskatchewan.—"My mother had taken Lydia E. Pinkham's Vegetable Compound and when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same."—Mrs. MAX RETZER, Lumsden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for bear in mind, it has been helping women for nearly fifty years.

Women Tell Each Other

In your own neighborhood are women who know the value of this wonderful medicine and they talk to one another about it. So if you are troubled with pains and irregularities, a tired feeling, nervous and sleepless spells, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief

"FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S.

"For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work.

About two years ago, a friend advised me to try "Fruit-a-tives", which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit."

A. W. FRANKLIN.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c., or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

three cents for each additional fathom. For a trap net the fee is \$5 for the first ten fathoms of leader and 10 cents for each additional fathom.

Salmon fishing by nets is prohibited from August 16 until the last day of February, both inclusive, except on the Petitcodiac below the Moncton highway bridge, where the season closes August 31. In each week the close period from Saturday until Monday dates from low water, except on the St. John river, where the closed period is from 6 p. m. Saturday until 6 a. m. Monday.

Salmon angling is permissible from May 24 to August 31, inclusive, except on the Restigouche, where the period is from April 1 to August 15. The number of salmon taken in any one day by an angler shall not exceed five, and curly artificial flies shall be used.

Shad may be fished for only by license, costing \$1, from May 16 until June 20. From Saturday afternoon until Monday morning fishing of shad in the harbor is prohibited.

The closed season for trout is from October 1 to March 31. In Loch Lomond the catch per day is restricted to 12 fish, brown trout less than 12 inches in length must be thrown back into the lake.

Feeding The Russian Children

The feeding of 75,000 Russian children and thus saving them from death by starvation has been a worthwhile task, made possible through the public interest aroused by the campaign conducted by the Canadian Committee of the Save the Children Fund. But Russia has not been the sole gainer. Canada has gained something. Everybody, who has either worked or contributed through this campaign has been benefited.

The sense of duty done is one of the finest things in the world. No one will ever regret having done something. Everybody, who has either worked or contributed through this campaign has been benefited.

The sense of duty done is one of the finest things in the world. No one will ever regret having done something to save these 75,000 children from one of the worst deaths. On the other hand, if people had not contributed after the call for help came to them, they would have been condemned in their hearts. They also would have regretted the fact that they had refused to give aid to those who so badly need it.

The Canadian Committee of the Save the Children Fund is continuing its campaign with the hope of saving another 75,000. Will you not assist? Your contribution, however small, will help. Do not withhold it. Send it in without delay to Sir George Burn, Treasurer of the Save the Children Fund, Ottawa, or forward it through your local bank or committee.

HARD FOUGHT BATTLE EXPECTED

Over the Freight Rates Question

OTTAWA, May 11—The contest over the scope of the investigation into freight rates by the parliamentary committee seems likely to be hard fought.

While among representatives of eastern ridings there is much feeling in favor of broadening out the inquiry the western members will fight vigorously to keep down to the Crow's Nest Pass agreement.

While those who want a revision of the agreement are arguing that it is out of date and therefore not as much value even to western farmers western members maintain that the advantages it contains are of paramount value.

Speech On Radio Features Ad Bureau Dinner

That the public "would never stand for direct advertising by radio" was the keynote of a highly interesting address by John W. Elwood, vice-president and secretary of the Radio Corporation of America, to the gathering of 850 assembled for the A. N. P. A. Bureau of Advertising dinner at the Waldorf-Astoria Thursday evening. Mr. Elwood predicted that the radio would mean increases in both circulation and advertising for newspapers.

Two other distinguished speakers addressed the assemblage, but the practical discussion of the radio's effect on newspapers by Mr. Elwood stood out as the feature.

Senator Gilbert M. Hitchcock, owner of the Omaha World-Herald, was as impressive as ever, and his presentation of the financial problems faced by the United States and the rest of the world was masterful. He described in detail his proposal to congress to take steps to establish an international banking corporation, capitalized at \$2,400,000,000. Of this, the Government of the United States would hold \$1,300,000,000; exporters interested in international trade, \$200,000,000; with the remaining \$900,000,000 to be offered to the other nations of the world. Senator Hitchcock said that he had never regretted giving up the law for journalism.

Seymour L. Cromwell, president of the New York Stock Exchange, dealt with the history of the exchange and American finance in general. He discussed the recent bucket shop fiasco in New York and other large cities, with the comment that it seemed to him that some of the large newspapers had taken the wrong slant in the publicity which followed the recent succession of failures.

William F. Rogers, chairman of the bureau of advertising, presided at the dinner, and introduced William A. Thomson, associate director of the bureau, who was toastmaster. Mr. Thomson presented Mr. Elwood as a man unusually well qualified to talk to newspaper men on a subject of first and immediate importance, because of the interest manifested in the radio during the sessions of the A. N. P. A. convention.

Mr. Elwood scouted the idea that the radio would take the place of newspapers in the advertising field, and said that the future of the radio will be along the lines of entertainment. The only effect it will have on newspapers in the advertising line will be to add more space buyers, he said.

In commenting on the present methods of broadcasting, Mr. Elwood said that it was difficult to tell just

what the future would bring, but he was certain that it would go on to greater things. He told how the realization of the radio's power was forced upon the manufacturers of the instruments when they were taken by surprise with the rapid growth of radio. The newspapers, in his opinion, will continue to have a part in it. Radio has already cut into the field of the transatlantic messages, Mr. Elwood told the assemblage, and about 20 per cent of the messages coming from Europe are now sent by the wireless.

Purity Ice Cream Made Without Air!

When you preserve peaches you shut the air out to keep the flavor in. So it should be with ice cream—air contaminates, air soils, air steals away the flavor.

That's why Purity Ice Cream is made without air. It's carbonated by the new Heath Process—and comes to you cleaner, creamier, colder.

A revelation in ice cream. Tell your dealer you want to enjoy it.
