CAMPING GROUND

We hope our Town Council and Board of Trade will not lose sight of the fact that nearly every city and town of any importance in the Maritime Provinces will in future make a worth while effort to arrange for the accommodation of camping tourists who are expected to visit the provinces this year.
We have many excellent sites upon which camping parties could locate and all that would be expected of us would be a water and lighting service of inexpensive arrangement.

This new and unique business of attracting this type of tourists may not in a single season, produce all that is expected of it, but the modern and desirable town which first extends its hand of friendship and evidences a desire to display a fair amount of hospitality will be among the chosen points of stop-overs.

The venture calls for but a trifling outlay, and we think if our efforts to satisfy are made known to our friends in the U. S., they in turn will pass along the word of welcome, and it will only be a season or two before Newcastle, as a tourist camping site will be a high liner.

EDITORS MAIL

We are not responsible for opinions expressed by writers under this heading. Correspondents would oblige by writing legibly, and on one side of the paper only, name and address (not necessarily for publication) must always be sent. Correspondence should be as concise as possible.

Newcastle N.B.; March 24 1924

The Editor of the Union Advocate
Newcastle, N. B.

Dear Sir,

The Newcastle correspondent of the Fredericton "Gleaner" seems to be somewhat disturbed over the following letter to the Fredericton "Gleaner" in which I asked for a contradiction of the report which appeared under big headlines in their paper regarding the speakers at a Temperance Meeting held in Newcastle recently:

"The writer noticed an item on the front page of last night's "Gleaner" in which was stated that Sydney Casey ONE OF THE SPEAKERS at a Temperance Meeting in Newcastle was arrested for drunkenness. The writer was at that meeting

and wishes to state that Mr. Casey had nothing whatever to say SO THAT THIS PART OF THE ITEM is an absolute falsehood and we would ask that this be contradicted through your paper. We do not know who your correspondent is but can readily understand the purpose for which this was written."

In the police court this morning while trial against W.L. Durick for alleged violation of the Prohibition Law was in progress this letter was brought in by the defence implying that a mis-statement had been made by me and the defence went on to prove that Mr. Casey had said a few words at the meeting and we wish to give the following facts regarding this:

In contradicting the report the writer perhaps was not as explicit as should be and made the statement that Mr. Casey had nothing whatever to say. We wish to give you fully the facts of the case. Mr. Casey was at the meeting and was asked a few questions by people present but did not at any time rise to his feet to make any remarks and this is what the writer implied when he said that Mr. Casey HAD NOTHING WHATEVER TO SAY although technically speaking, this may be considered as making a speech but the writer does not interpret it in this way. In fairness to the "Gleaner" correspondent; if he considers the answering of a question asked across the aisle of a building as representing a speech made I will of course; leave it to the public to decide.

Yours truly
F. E. LOCKE

A GOOD
SPRING TONIC

One That Will Quickly Improve Your Health.

With the passing of winter many people feel weak, depressed and easily tired. No particular disease, but the system lacks tone. You find yourself tired, low spirited, unable to get sound sleep at night. All this is the result of closer indoor confinement of the winter months and shows that the blood has become thin and watery. New enriched blood is what you need to put you right, and there is no other medicine can give you this new blood as surely and as speedily as Dr. Williams' Pink Pills. This new blood goes to every part of the body and quickly improves the general health. The digestion is torpid, you have a better appetite, nerves are strengthened and sleep is refreshing. The value of Dr. Williams' Pink Pills when the system is run down is shown by the experience of Mrs. Peter Arendt, Ravenscrag, Sask., who says: "I was in a badly run-down condition, and prostrated with nervousness, I did not sleep at night, and grew so weak that when I tried to move about I would be overcome with dizziness. I heard about Dr. Williams' Pink Pills and got a supply. After I had taken a few boxes I began to feel better. Continuing the use of these pills my appetite improved, I slept better at night, and I was soon as well as ever I had been. I have also given Dr. Williams' Pink Pills to my daughter, aged fourteen, with the best of results. I desire in this way to express my thanks for the great benefit I have found through the use of these pills and to recommend them to others in need of a blood-building medicine."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE BUSINESS MAN

The business man of today is a creator; a builder and an economist. He who thinks otherwise is a Marxian Socialist and a small-bore petty diplomat.
The only way to make money is to render a service for humanity; to supply something that people want and to carry things from where they are plentiful to where they are needed. He who confers the greatest service...at the least expense...is the man whom we will crown with honor and clothe with glory.

Any other policy is a failure. Boost your home town and your home town will boost you.

Amendments to the Hydro Act of 1920 under which the New Brunswick Electric Power Commission was created promise to be the most important legislation at the present session of the Legislature. Not only will there be an amendment necessary to increase the bond issues to provide for further preliminary research work if nothing is provided for actual operations in commencing development at Grand Falls but some important amendments are likely in reference to proceedings for settlement of land development. Hon. Wm. Pugsley has already been in consultation with Hon. J. P. Byrne Attorney General upon behalf of his clients the Ingelwood Pulp and Paper Company in relation to proposed amendments to facilitate proceedings with that company's claim for land development at Musquash development over which there is a wide difference in the amounts offered and claimed by the company.

Preliminary application in the matter had been made to the late Mr. Justice Chandler who would have acted as arbitrator but for his death which has further set back the proceedings.
