GODERICH, Dec. 10, 1873.

Our Gravel Roads.

After a years trial of the system of no tolls on the Connty Gravel Roads, the Council at its meeting at Seaforth last week decided to do away with the toll sare lost. Townships have to depend by be open for discussion by Congress satisfactory manner. principally on statute labour to keep for two months to come." their roads up, and we fancy they will have little labour to spare for what have heretofore been county roads. Besides. some townships will have more than their fair share of the burden. Under any system there will be grumbling and dissatisfaction, but we think the plan adopted during the past year, for the County to keep up the great leading roads which it built at a large outlay, is the correct one. We think it should have been continued in force, even if the county rate was a little increased

thereby. What we lose in one way we gain in another. With regard to the Northern Gravel Road in which the town of Goderich is interested, the Council have offered to purchase it for the sum of \$20,000 in wisest thing the town can do to get the ly lost or. the community. The follow-

The Welland Canal Solicitorship.

Some of the Tory organs are making a great fuss over the appointment of Mr. J. M. Currie to the Welland Canal solicitorship in place of Mr. Rykert. They allege that Mr. MacKenzie has inaugurated the American system of discharging former employees and filling government offices with his own friends. Were such the case we would be as ready to condemn Mr. MacKenzie as they are, for we look upon that system as being one fraught with great evil. two dollars and twenty-two cents.

And whereas for paying the interest and creating an equal yearly sinking fund for paying the said sum of \$5000 and interest as hereinafter mentioned, twill require an equal, annual, special rate of nearly seven-eights of a mill in the dollar in addition to all rates to be ilevied in cach year. Be it therefore could have been no chance of saving it. The Bayfield river rose higher than it has been known for many years and swept away one hundred feet of railway embankment at Stapleton, which had been repaired by trestle work. The forests in all directions have been protataed to a considerable extent and sidelines blocked everywhere by uprooted trees.

THE LADIES of the Church of England here, held a most successful sale on Thursday and Thursday evening, and continued are sum of \$150, clear of expenses, to be ap-

in the form of a Social on Friday and Friday evening, realizing the handsome sum of \$150, clear of expenses, to be applied in payment of the debt on the new parsonage which has just been completed. Notwithstanding the heavy wind on Thursday morning, numbers of ladies went to the town hall and prepared as it indeed was, a most sumptuous dinner for all who would partake for the small sum of twenty-five cents, and an excellent tea in the evening at the same price.
