FISHERY QUESTION.

Coming to the handling of the fishery question, the report of the American, we are now having another "fishery" controversy. One absurd claim the Americans make is for \$100,000, damages and to have some control over the preventing of two American schooners from fishing in Canadian waters.

Editorial Notes.

GETTING WORKERS AND WORK.—A few weeks ago we directed attention to the fact that the Grand Trunk authorities did not deliver the mails as usual about a week ago. We should have our mail every day before 7 o'clock. Instead of this, the mails from Montreal are gradually getting worse. It is frequently nearly 5 o'clock before the mail train for this station is 3:15 P.M. The proper time for the mail train to reach this station is 3:15 P.M. The mail train from Montreal is usually 4 and half past 4 o'clock when it reaches here. The mails from the east reach Montreal at 11 o'clock, and are allowed to lie there until three or four hours simply because it suits the convenience of the Grand Trunk to leave them. If the Grand Trunk carried the mails for nothing this kind of thing might be tolerated, but when they are liable for the service the public have a right to expect reasonable despatch. This disregard of the public has been pointed out to the Post Office Inspector and to the Postmaster-General several times, but as yet no steps have been taken to remedy the grievance. If something is not done shortly the public will be justified in concluding that the Postmaster-General is more desirous to serve the Grand Trunk Railway Company and suit their convenience than accommodate the public who pay for the service.

Horrible Massacre.

There is trouble again in Afghanistan. London, Sept. 6.—Startling news has arrived from Afghanistan. A large body of Afghan soldiers, armed and equipped, and a number of British troops, attacked the British Embassy at Kabul, the members of the staff, and the accounts defending themselves under desperate circumstances. The British Embassy was attacked by a large number of Afghan soldiers, armed and equipped, and a number of British troops, who were engaged in a desperate struggle.
