CHINESE MUTINY.

Special to the Evening Telegram.
PHILADELPHIA, June 17.—A mutiny on board the British steamer Highland Monarch, bound for Auckland, New Zealand, followed by a dash for liberty by a dozen Chinese members of the crew, resulted in the drowning to-day of four and the narrow escape of three others. The men rescued are in the police station, while those who did not get away from the vessel are in irons on board. The trouble started last night. The ship had been lying at the extreme southwest part of the city for three weeks loading coal oil. As the U. S. Immigration law puts a fine of \$500 on the captain of a steamer for each Chinaman who escapes, the twenty Chinamen aboard were not allowed

shore leave, and the others, all Englishmen, were given liberal shore leave.

CONFERENCE CONFIDENTIAL.

LONDON, June 17.—The conference representing the Government and the Opposition on the subject of the House of Lords' veto legislation held their first session to-day. It was agreed that their deliberations, the scope of which is to be untrammelled, should be confidential.

Dead Body Found.

At 6.35 this morning as Mr. Saml. Boone of the South Side was rowing across the harbor to this side, when off Kennedy & Mullaly's wharf and near the Calypso he espied the dead body of a man floating in the water. Reaching the pier and going up to Water Street he informed Sergt. Mackey, who was doing early duty, and he in turn procured officers Nugent, Churchill and Whalen, and the body was taken ashore. A stretcher was procured from the Calypso, the remains were placed on it and Mr. Mullaly kindly lending his horse and cooper's dray, the body was brought to the morgue. The body was in an advanced stage of decomposition, the hands and face being gone. Sergeant Mackey made inquiries so that the remains might be identified, and finding John Whalen he came to the morgue and saw that the body was that of his nephew, John Whalen, aged 29, who lived with his grandmother and uncle at 8 Buchanan Street. The boots which he wore were the principal means of identification. Whalen was reported missing on Sunday, April 10th, by his uncle, John, and particulars were given in the Telegram next day. He was seen that night by Miss Buey on New Gower Street, and later by Miss Hurley at the rear of the Post Office. This was at 11.30 at night. It is thought the man left the two companions he was with, wandered down on one of the uptown wharves and went overboard. It was thought for a while that he had gone to Bell Island and later to Sydney, but it was deemed sure that he was dead when Dr. Rendell saw the body to-day, pronounced death to be due to drowning, and his father then arranged with Undertaker J. T. Martin for the interment of the body. The funeral took place this afternoon. A magisterial enquiry will be held before Judge Knight on Monday.

News From Labrador.

A wire came from Twillingate to the Reid Nfld. Co. this morning, saying that the steamer Invermore had arrived at Twillingate at 8.20 a.m. this morning and left a half hour afterwards for St. John's, Capt. Parsons' Labrador report is as follows: "Arrived at Nakovic on the 13, south west winds and fine weather all the way north. Returning south encountered strong east and north east gales with heavy sea; no ice on the coast; a sign of fish from Beban to Bait Harbor. All the settlers have arrived at their stations on the coast."

Play the Game.

People who profess to know say that some of those who go trouting each holiday and contribute fish to be exhibited for prizes are not playing the game square. Some who go to the lakes in company pool their fish, select the big ones and put them forward for prizes, giving the name of an individual member of the company as the lucky fisherman. This is an infraction of the rules connected with the prize-giving, and those who offer them should see to it in future that only individual catches should be awarded a premium.

The Cost of Living.

The "Literary Magazine" calls attention to ten important considerations which seem to have been generally overlooked in the discussion of the cost of living. They are as follows:
1. Automobile tires are now two inches larger than they were five years ago, and cost more when they burst.
2. The price of theatre seats for good attractions has gone up to \$2.
3. Whenever anyone has a nickel left down town the moving picture show gets it.
4. Railroad fares have gone down 33 per cent, which enables us to travel four times as much as we formerly did.
5. Ten years ago a piano cost \$400, and we didn't have any. Now it costs \$1 per week, and we are paying for two—the present one and the one which wore out last year.
6. Taxicabs have got so cheap that now costs 10 cents to ride home after midnight instead of 10 cents by owl car.
7. Talking machines are now a necessity, whereas 10 years ago they were a luxury.
8. Food is now put up in such handsome packages that we buy each year more than \$25 worth of labels, which are not in any way nourishing.
9. Tailor-made clothes are now so cheap that we spend \$20 for a made to order suit instead of picking out a handsome-down for \$46.
10. Most of us have larger families than we had 10 years ago, anyway.

Rev. Father Morrissey

A Combined Treatment That Really Cures Catarrh.

Canadian weather, with its extreme cold and sudden changes, gives almost every one Catarrh, and makes it hard to cure. Some recommend internal remedies—some external applications.

Father Morrissey used both—tablets to be taken three or four times a day to invigorate the system, purify the blood, and help it throw off the disease, and a soothing, healing, antiseptic salve to be applied inside the nostrils. This combined treatment known as

"Father Morrissey's No. 26"

attacking the disease from within and without, soon cures.

Mr. A. C. Thibodeau, General Merchant in Rogersville, N.B., writes on Jan. 22nd last:

"A few words as to the merits of your Catarrh Cure. For the last 10 years I have been troubled with Catarrh of the head and stomach, and during that time have tried all kinds of other Remedies with no results, until I tried your Catarrh Cure which I am glad to say has cured me. I highly recommend it to those who are suffering with this disease."

Don't trifle with Catarrh—cure it with Father Morrissey's No. 26.

60c for the combined treatment at your dealer's.
