

Through With School, Now What?
The answer is entirely up to yourself! It is only a question of whether or not you are properly trained. Every man pays for a business training whether he gets it or not, pays for it in smaller salary, in harder work, in dissatisfaction, in fewer opportunities.
Fall term opens Sept. 6th. New classes forming each Monday after that date. Write, phone or call.
Empire Business College
Sydney, N. S.

DIAMOND DUST

Nothing But the Truth—Without Fear or Favour.

With the Red Lion's Champions for this year they are now the holders of the Champion Cup for keeps, having won it three years in succession. Hearty congratulations go out to Captain C. O. Robertson and his team on the fine brand of ball played throughout the season. Their win is a most popular and deserved one, and we hope they will have the same good fortune in coping the pennant in future.

Three more games still remain unplayed in the series. These will be played on the 7th and 14th inst. Wednesday next being a whole holiday morning and afternoon clash will be staged, therefore the fans who do not intend going out of town will be afforded the opportunity of witnessing a good brand of ball.

An all-Canadian vs. City game is now being arranged for, which big event will take place on the last half holiday. Great interest was taken when these

two nine's last appeared, and it is safe to say that fandom will have something interesting in store for them when "play ball" is announced.

A return football match is now being arranged for between St. John's (East) and St. John's (West) and the contest will take place to-morrow, (Saturday) evening on St. George's Field. Football fans who were present at the game on Wednesday evening between these two line-ups would not have missed it for anything as the match resolved itself into one of the finest games of the season. With a return game in view the disappointed ones will be on hand, and as the proceeds are greatly devoted to Halifax Funds a large attendance would be greatly appreciated. The footballers contesting are deserving of all that is due them and are to be complimented in giving another exhibition. The Football League as in the previous match is once again giving over the field free of charge for this very worthy object.

Poor Outlook for St. Pierre.

That conditions in the French Colony of St. Pierre are not exceedingly good, is evidenced by an news item in the North Sydney Herald of August 30, which states that Charles Thompson of the firm of Thompson and Sutherland, Ltd., returned on the Pro Patria last evening from a business trip to St. Pierre. Mr. Thompson says that conditions in the French colony are very bad, and that the people of Cape Breton are living in a paradise as compared to existing conditions on the island. The fisheries have been very poor and little business is being carried on. The outlook for the winter is extremely bad, Mr. Thompson asserts.

Obituary.

GERTIE MORRISSEY.

The angel of death with its icy hand visited the home of Mr. Peter Morrissey, 45 Parade Street, on Thursday morning at 12:15 and claimed as its victim Gertrude, the youngest and flower of the family. About a year ago she underwent an operation at the General Hospital for Peritonitis, but her frail constitution could not rally after such a strenuous operation, and despite the greatest kindness of loving parents and friends, and the best medical attendance, she finally succumbed after a long period of suffering, which was borne with the greatest fortitude and resignation to the Holy Will of Him who chastised those whom He loveth. Her death, although daily expected for the last six months, comes as a severe blow to the grief-stricken mother and family, who have the sympathy of the whole community of whom Gertrude was an especial favorite. She is not dead; the child of our affection. But gone into that school Where she don't need our school protection And Christ himself doth rule. P.E.M.

TO-DAY'S MESSAGES.

TARIFF THE ISSUE.

LONDON, Sept. 1.
In making announcement of an early general Election, Premier Melban said Canada could not get settled down to business unless the tariff problem was settled. The real challenge to the Government, he said, came from the Farmers Party, which demanded free trade. That their policy was wrong he was certain, and he was equally certain that it would be proven wrong by developments. Revision of the tariff in Canada was due and overdue. To decide the principle of the tariff he was going to place imperative question before the people of Canada. "Until they do decide it," declared the Premier, "we cannot have tariff stability, we cannot have business stability, we cannot have health and growth and vitality, until we know whether the people want a protective tariff, or whether they don't."

WHO IS AIDING THEM?

LONDON, Sept. 1.
A Reuters cable from Calcutta, India, reports that Rebels, who had previously departed from Parappanagudi, returned in large numbers again and cut the telegraph lines. British troops have been despatched to restore order. Over five thousand Moplas are reported to have taken up positions in trenches around the Mosque at Tittirangudi, whither troops have departed to engage them. The Rebels are reported to be in possession of a peculiar type of most destructive bomb.

WIRELESS FROM MARS.

NEW YORK, Sept. 2.
Wireless waves, 150,000 metres long, which is believed may have come from Mars, were picked up several months ago by Guglielmo Marconi during experiments aboard his yacht. Electra in the Mediterranean, K. C. Macbeth, London Manager of the Marconi Wireless Co. Ltd., made this statement yesterday at a luncheon of the Rotary Club. The maximum wave length produced in the world to-day is 14,000 metres, Mr. Macbeth said, and the regularity of the waves detected by Marconi and other experts led them to believe that they were not electrical disturbances, but efforts of Mars to get into communication with the earth. The only resemblance of these waves to any code used on the earth was the similarity to letter "V" in international code.

SEVERE CASUALTIES.

CONSTANTINOPLE, Sept. 2.
Turkish Nationalist forces, which have been fighting a desperate battle against the Greeks in the loop of the Sakaria River, in Asia Minor, are withdrawing toward Angora. Both Greeks and Turks have suffered heavily during the recent fighting, but the Turks were outnumbered, being aided by only seventeen divisions into their battle line against the entire Greek army. Correspondents of Greek newspapers telegraphed from the front that Turkish forces now are about fifty miles from Angora, occupying a line running through Cordium, Pileli, Sarigol and Karahodja.

FOOD KITCHENS OPENED.

PARIS, Sept. 2.
The first kitchen for feeding children was established in Petrograd to-day by United States relief administration. Another kitchen is to be opened in Moscow in a few days. Two ad-

ministration steamers have arrived in Petrograd with cargoes of food.

Personal.

Bishop Renouf, of St. George's, is at present in town; he is returning to his diocese by Sunday's express.

Here and There.

The newest in Knitting and Crochet Instruction Books are now ready for sale at BISHOP'S.

Choice Astors, 25c. doz. on Saturday. VALLEY NURSERY, LTD.,—sept.11

THE WEST END BAZAAR.

51 Water St. West, sept.11

The HAY Situation!

All our advices from Quebec, Charlottetown, New Brunswick and Nova Scotia point to a short Hay crop this season and the actual figures estimate the shortage as low as fifty per cent. or one-half of an average yield.

The excessive heat and lack of moisture during the growing season is accountable for the poor crop and as a consequence Hay has "jumped" considerably the past few weeks, and higher prices are expected as the season advances.

Under these conditions we strongly advise our customers to secure their Winter requirements of Hay at once, and as we have a large shipment (secured before the advance) ex Canadian Sapper from Montreal to-day, we are prepared to quote tempting prices on this lot for prompt delivery from ship's side. Get our quotations.

Williams' Dental Cream, 35c.			

A Very Valuable Worker

ON AND UNDER THE LAND.

Followers of Isaac Walton may look upon the ordinary earth-worm as being a special provision of Nature whereby they are enabled to follow the fascinating pastime of angling.

Golfers and bowlers, on the other hand, may view the presence of worms in the soil as being part of the onerous which compels them to subdue the ground by the sweat of their brow for the pursuit of innocent pleasure.

Their Valuable Work.

Ground destitute of worm life is not as a rule the place to secure luxuriant growth of vegetation. In the best soil, worms, even of large growth, are to be found travelling through the soil, doing work which the hand of man, even with modern tools, could never accomplish.

It might be foolish advice to suggest the breeding of worms in a plot, and thus secure the maximum amount of irrigation and purification. But it would be equally foolish not to advise the securing of soil humus, which is the sine qua non of good cropping, and at the same time creating a breeding-ground for worms.

If the value of many of the meanest creatures in life is a doubtful quantity, the value, at least, of the earth-worm is an undoubted asset to tillers on the land. In fact, without their presence soil purification and irrigation would be an impossible task.

Worms are cold-blooded, have no eyes, and work, strange to say, in a perpetual nightshift. The dew which falls almost nightly may, to some extent, account for this nocturnal labor. They burrow into soil to an extent which is almost incredible. Where the earth is of a good loamy nature, their labor is as far down as five feet. Their great value is due to their eating of the soil, the earth going through a subtle process of purification. The soil is thereafter deposited on the earth's surface in the form of worm-casts. These deposits are really new soil, and it is this sweet soil which year after year makes it possible for the land to yield its fruits.

Skuffer School Boots

At 1914 Prices at SMALLWOOD'S.

SCHOOL SHOES

One pair of Skuffer Boots will outwear at least 2 pairs of any other brand of School Boots made. Double wear in each pair. Send the boys and girls to Smallwood's for Skuffer Boots, they wear like iron.
