BOMB THROWN AT LODZ

Police Officer in the Polish City
Has Feet Blown Off.

Lured by Phone Message, Police Commissioner Szabolovics Became Target for a Terrorist Who Carried His Deadly Explosive in a Basket—Accompanying Policeman Drew His Sword and Wounded the Commissioner's Assassin So He Will Die.

Lodz, Russian Poland, April 3.—Police Commissioner Szabolovics of the second district was seriously injured Saturday by a bomb, which was thrown at him in the street. The Police Commissioner had been summoned by telephone to come to the office of the chief of police and started on foot, followed by a policeman. The former noticed at Konstantinowski and Zawarski streets a poorly clad man carrying a basket. As Szabolovics approached the man suddenly hurled a bomb, blowing off the commissioner's feet and severely wounding him in the breast. It is feared his injuries will prove fatal.

Force of the Explosion. The force of the explosion tore a hole in the ground two feet deep and twelve feet in circumference. The accompanying policeman drew his sword and wounded the commissioner's assailant on the head. When the prisoner was searched a loaded revolver and some cartridges were found in his pockets. He is reported to be dying from the sword cuts received.

The explosion was heard about five miles away. All the windows in the neighborhood were shattered. People in adjoining houses were thrown to the floor. Szabolovics is hated by the Socialists. He is charged with killing a Socialist during the disturbances here in December last.

Peasant Terrorize Lithuania. St. Petersburg, April 3.—The latest outbreak of peasant disorders officially reported is in the Werra district of Lithuania. Regular mobs of peasants are marching through the country, pillaging estates and demolishing the houses of the land-owners. One proprietor was shot. The peasants entered Werra, wrecked the vodka shops, became drunk and terrorized the inhabitants. Troops were called for. The telegraph and telephone wires are cut, and communication with the outside world is severed.

Overshadows the War. New York, April 3.—A St. Petersburg despatch to The Herald says that agrarian risings throughout Russia are assuming such proportions that they overshadow the war. These organized disorders are the result of the spread of revolutionary literature, urging that such risings are the only means of preventing the bread-winners being sent to the war. As a matter of fact, the troubles render the proposed mobilization impossible.

FOUR KILLED, 40 INJURED.
Mob of Jewish Socialists Meet Troops in Warsaw Streets.

Warsaw, April 3.—A serious conflict occurred at 7.30 o'clock last night in Dzikia street, where a Jewish Socialist society known as the Bund had organized a demonstration. The troops which came to disperse the gathering fired into the crowd, killing four persons and wounding 40 others.

The trouble began when, under the pretext of holding a memorial meeting for the late Jewish Socialist leader, a crowd of over 1,000, mostly Jews, carrying red flags, marched into Dzikia street and was met by a mixed police and military patrol of 20 men. The police declared the Socialists fired revolvers at them, the leaders inciting the mob to attack the patrol, which thereupon, fired several volleys into the crowd. The crowd removed all but nine of the wounded, two of whom were women. These were taken to the hospital. It is expected that two or more of the wounded will die. The police made many arrests.

To Blow Up Schools. Conditions here are causing much uneasiness and nervousness. Hand-printed proclamations have been found in the streets warning the public against walking near Government buildings and other places, as bombs would be thrown in the quarters. Several parents whose children are attending school in defiance of the school strike have been warned by letter to withdraw their children, as the school buildings would be blown up.

Moscow, April 3.—The Assistant Minister of the Interior has forbidden the assemblage of congress to deal with the cholera epidemic because, according to official information, the promoters of the congress intended to give it the form of a demonstration against the Government.

Murder Affair Was "Arranged." Berlin, April 3.—A despatch from Tangier received here yesterday announces that the affair of the murder of a German subject named Genthe has been arranged. The two Moors who were implicated have been condemned to imprisonment for life, and the Government of Morocco has undertaken to erect a monument over Genthe's grave and compensate his family.

Francis Genthe, a newspaper correspondent and well known as a writer of hunting and military stories, was murdered in March, 1904, while traveling in Morocco.

Coal Strike is Averted. Philadelphia, April 3.—By the action of the soft coal operators of Central Pennsylvania, who met here Saturday to discuss the threatened strike of the bituminous miners has been averted. The operators in secret session decided to grant the demands of the men by renewing the wage scale in effect last year, the basis of which is 62 cents a ton for pick mining.

Col. Morris Seized With Paralysis. Prince Albert, N. W. T., April 3.—Col. Morris, commanding the N. W. M. P. here, was paralyzed Saturday and is still unconscious. He was excited over a small fire occurring at the barracks, and was seized shortly afterwards.

DESTROY THE RAILWAY

Russians Are Making a Permanent Job of It This Time.

The Inference is Drawn That They Do Not Contemplate Recovering the Situation—Natives Credit Japanese With Almost Hopeless Attempt to Transfer Bulk of Five Armies to Vladivostok in a Roundabout Way.

London, April 3.—The correspondent at Tokyo of The Times says: "Reports from Manchuria show that the Russians are destroying the railway much more thoroughly than hitherto. The evident inference is that they do not contemplate recovering the situation."

Japs' Big Undertaking. Gunshu Pass (108 miles north of Tie Pass), April 3.—The situation here is unchanged. Gen. Mischenko has moved forward into close touch with the Japanese and keeps up constant skirmishing. Elsewhere everything is quiet. Native reports, which may be taken for what they are worth, state that the Japanese are leaving the Russian front, only a screen, capable, with the help of the Mukden and Tie Pass fortifications and garrisons, of holding in check Gen. Linewitch and are transferring the bulk of their five armies to Vladivostok by means of a wide movement through Mongolia to Tsinghar. Considering the great distance involved, the plan appears too bold and almost impracticable; but Japanese intoxication from continual success, bold initiative and determined perseverance must be regarded. The situation affords an opportunity for Russian cavalry, which thus far has played an insignificant role, to distinguish itself by penetrating the Japanese intentions.

Gen. Linewitch has ordered the resumption of drive, keeping the soldiers occupied in the daytime, and music in the bivouacs at night. An energetic regime is being instituted. Left 2,000 Troopers. Tokyo, April 3.—The following official advice have been received from army headquarters in Manchuria: "Our scouts advanced toward Hailu and collided with 300 of the enemy's cavalry at Shauclengtz, 30 miles southwest of Sellung, on the morning of March 28. The enemy, 4,000 in all, retreated to Hailu, leaving 2,000 troopers. There are large stores of cereals at various points between Yingacheng and Sanchengtz. The situation is unchanged in the Changchun and Kian districts." Dangerous Scouting Feet. With Gen. Kuroki's army in the field, April 1, via Pusan, April 3.—Two detachments of Japanese cavalry have returned to the army after the most extensive and dangerous scouting exploit of the war. The detachments were sent north early in January under the leadership of Col. Naganuma and Major Sasegawa and each numbered 150 men. Only 100 men of each detachment returned. They explored the Russian positions west of Mukden. They encountered and eluded many forces of Russian cavalry and penetrated Gen. Mischenko's lines. Then going northward they crossed the railroad, cutting the road and the telegraph lines during the battle. Afterwards they visited Kirin and explored that place and finally returned to the army north of Kailuan.

Linevitch Reports No Change. St. Petersburg, April 3.—A despatch from Gen. Linevitch dated March 31 said no change had then taken place in the situation at the front. "Our force in the direction of Singking (about 80 miles from Mukden) reports that according to information received from the natives, a force of Russians and mounted bandits, under Col. Madoloff, which has been assembling at Hailu, has returned to the front. According to native reports, it is said to be no place elected by the enemy for assembling."

"Our force at Welhuapomen (35 miles northeast of Tie Pass) reports that there has been no change in the enemy's positions in the vicinity of Hanchuich. There are some Russian infantry and cavalry about 32 miles northeast of Kailuan (25 miles from Tie Pass). "Our force at Changtu (40 miles above Tie Pass) reports that the enemy's cavalry outposts retreated 25 miles north of Changtu after burning the railroad station at Sousoutai. "Our force at Fakoman (30 miles north of Tie Pass) reports that the enemy's cavalry have been observed 30 miles northeast of that place and that mixed forces of the enemy occupy Fengshan (55 miles northeast of Fakoman). Pamienchon (about 15 miles west of Fengshan) and their vicinity.

Homeick Jap Suicided. St. Petersburg, April 3.—At the bureau established to look after the Japanese prisoners the story of the suicide of a number of Japanese imprisoned at Medvid is officially declared to be entirely misrepresented. One of a batch of 125 new arrivals who was invalided became very homesick and took his life. No complaints of ill-treatment have been received.

Russia Gets More Cars. Paris, April 3.—The Russian Government has ordered 2,000 cars and 170 locomotives of the St. Etienne Iron Works. It is understood that they are intended for increasing the military equipment of the trans-Siberian Railroad.

Supplies for Vladivostok. St. Petersburg, April 3.—More than 10 trains stocked with provisions and other materials are leaving St. Petersburg daily for Vladivostok.

Russia's New Peace Terms. St. Petersburg, April 3.—According to the peace reports circulated on the bourse Saturday, Russia will cede the southern part of the island of Saghalien, in the north Pacific, off the east coast of Asia, used as a Russian convict settlement, to Japan, and agree that Manchuria and Korea are permanently outside the Russian sphere of influence. The Chinese Eastern Railroad will be

St. Petersburg, April 3.—It is announced that the internal loan has been so largely subscribed that applicants will be allotted only 40 per cent.

To Examine British Claims. St. Petersburg, April 3.—M. De Martens, recently a member of the International Conference on the status of hospital ships, has been appointed to examine claims for compensation growing out of the sinking of the British ship Hipsang.

RESULT OF KAISER'S VISIT.

Sultan of Morocco Declines to Accept Whole of Reform Program.

London, April 3.—A despatch from Tangier to a news agency gives a report that the Sultan already has communicated to the French Minister to Morocco his reply to the French proposals by expressing regret at his inability to accept the whole of the reform program. The Sultan, the despatch adds, agrees to institute reforms at coast ports, but claims the right to raise loans wherever it is most convenient for the country's interest.

Delights Russian Press.

St. Petersburg, April 3.—Emperor William's speech at Tangier and prospective developments therefrom, across the attention of the Russian newspapers almost to the exclusion of peace discussions. Decided pleasure is expressed at the rocks encountered by the new Anglo-French entente. The Russian terms the visit of the German Emperor to Tangier a demonstration against the entente and points out that refusal of Emperor William to recognize French pretensions must deeply impress the Moroccans to the disadvantage of both France and Great Britain.

Recognition of Independence.

Berlin, April 3.—The Emperor's significant words have produced a strong impression here. The Lokal Anzeiger, in a despatch from Tangier, says that in replying to the members of the German colony Emperor William said he would make it his business to promote this trade, which was only possible on the assumption of the equality of all the powers, and the independence of the land. His (the Emperor's) visit was a recognition of this independence.

BLIZZARD AROUND CALGARY.

Fears for Sheep and Even Cattle Entertained.

Calgary, April 3.—A very heavy blizzard is now raging and considerable anxiety is expressed for sheep and even cattle. The past month has been almost summerlike and seeding is actually completed, so the snow will supply moisture badly needed. But a bad omen for the immediate future is the fact that prairie dogs have not yet put off their winter fur of grey, nor donned the dark habit of spring, without which no old-timer considers permanent summer assured.
