Don't be in a hurry to buy your  
DRY GOODS AND GROCERIES,

T. L. BRAY

Is doing in that line. Remember that he has REDUCED HIS PRICES to a very small profit; the effects of so doing has swelled his cash receipts to over 50 PER CENT, more for the months of October and November this year, than for the corresponding months last year. This is certainly a very large increase of trade, which goes to show that I am selling goods as cheap as any house in the County of Perth. I don't advertise to "sell good goods, no bankrupt stocks," &c., "at half price." Such advertisements are all bosh. There is no merchant in Canada who intends to pay his creditors 20 shillings to the pound can afford to sell his goods at half price, but I do advertise to sell

from the fact that I have added a large amount of cash capital to my business of late, which enables me to purchase my goods on the very best terms from some of the leading manufacturing and wholesale houses in Canada and Great Britain. Of these advantages I am determined to give my customers the benefit. Call, and you can be convinced my stock is always well assorted.
