land, in connection with special work for the society, and will visit Canada before returning to the Chaco.

—Aylmer Express: The death of Grand Master R. B. Hungerford has cast a gloom over Masonic circles in Aylmer, where he was well known, and a great favorite. He has in many ways shown his kindly feeling to the brethren of Malahide Lodge, where he was a frequent visitor in an unofficial capacity.

—Hensall Observer: The following are the officials in charge of the cement walk: Mr. Ironside, assistant engineer of London, who was here on Tuesday taking the levels; Sam Baker, of London, who represents the council as inspector, who acts for the council, and is said to be the best inspector in Ontario, and L. Langley, one of the firm of contractors, who acts as foreman. These superintend a force of eighteen workmen, besides teamsters.

—Mr. C. B. Riley, a former Londoner, arrived here yesterday direct from the Philippine Islands. When troops were called by the U. S. government for that far-off land, Mr. Riley was employed on the "World-Herald" of Omaha, Neb., and he proffered his services as correspondent for that journal. He left Manila on the 5th of August, and reached the residence of his mother here as stated. He says that there are great opportunities offered for young men in the Philippines and intends returning as soon as possible.

OFFICERS ELECTED.
At last night's meeting of Coal Employees' International Local Union No. 7483, the annual election of officers took place, resulting as follows: President, Jos. Davies; vice-president, James Brown; recording secretary, Albert Butler; financial secretary, James Young; treasurer, H. Land; inside guard, James Davis; outside guard, Jas. Eggett.

FRUIT INSPECTION.
Mr. A. McNeill, of Walkerville, the newly-appointed fruit inspector of Western Ontario, was in London yesterday, and speaking to The Advertiser said that much good had already resulted from the recently-passed fruit inspection act. The growers, he said, were inclined to look upon this act in the wrong way, thinking it meant that the fruit would be graded. The wheat was wrong. The intention is simply to guard against deceiving packing so that a better feeling towards Canadian fruit may be aroused in England. His duties are to see that fruit is properly packed, and if necessary, instruct growers in packing.

CLAIM FINES.
The finance committee, which met last night, received through Police Court Clerk Moule, a letter from Crown Attorney Magee, in which the latter claims that fines to the amount of \$210 have been wrongfully paid to the city treasurer, and must be paid over to the provincial treasurer. The crown attorney writes on behalf of the provincial treasurer and refers to fines that date back as far as December last. They were imposed for the following offenses: Assault, assaulting a peace officer, fighting in a public place, keeping house of ill-fame and frequenters of same, breach of the fishery act, vagrancy, and undertaking to testify falsely. The advice of the city solicitor will be taken.

Several applications for remissions of taxes were disposed of.

"SUPERBA" CLOSING TONIGHT.
A satisfactory audience last night greeted the second performance of "Superba" at the Grand Opera House, and all were delighted with the performance. Both the matinee and concluding performances tonight should be well-attended. The week's business as a whole has been most gratifying to the management of the new house.

CLOSING THEIR ENGAGEMENT.
The C. S. Sullivan Company close their satisfactory and successful engagement at the London Opera House by the presentation tonight of "My Uncle from Japan." Patrons of the house will undoubtedly be present in numbers to witness the company's farewell performance.

ing entertainments at the New Grand opera house. It will be presented in a revised and up-to-date form, having been thoroughly overhauled with a view to eliminating any features that might seem to be not in keeping with present day methods and demands. Special popular prices—50, 35 and 25 cents will prevail.

COMING NEXT THURSDAY.
The next attraction at the London Opera House is "In Gay Paree," given by a reputable and clever burlesque organization, which met with great success in the United States, and which is being much sought by Canadian managers. The programme opens with an operetta, "The Sun," followed by a series of specialties, and concluding with a funny burlesque, "Under Two Rags." A number of the successes of the day will be introduced during the evening.

PASTY FOOD
Too Commonly Used.

The use of pasty cereals is not advisable. A physician says: "Pasty cereals are very indigestible and a bad thing for the stomach, causing a depressed feeling and quite a train of disorders, particularly of the intestines and nerves."

"Cereals such as wheat and oats, can be cooked long enough and well enough to fit them for human use, but the ordinary way of cooking leaves them in a pasty condition."

A gentleman from Evansville, Ind., whose name can be secured upon application, writes to the London Advertiser, Battle Creek, Mich., says: "My physician prohibited the use of oats and wheat, for I was in a bad condition physically, with indigestion, dyspepsia, etc. He said the heavy paste was indigestible, but the Grape-Nuts being a thoroughly cooked food and cooked in such a manner as to change the starch into grape-sugar, could be easily digested. I have become very fond indeed of Grape-Nuts and all the uncomfortable feelings have disappeared. I have gained nearly twelve pounds in weight and none of the distressed, full feeling after my meals that I had formerly. Grape-Nuts Food has done the work."

LIGHT CROWD AT CLOSE OF FAIR

Concluding Performance and Races Were Excellent.

Fine Weather Marked Closing Day, But Failed to Draw Large Attendance.

The concluding day of the Western Fair was favored with weather that would have proved the salvation of the treasury had it been forthcoming on the three previous days. The fine weather, however, did not avail to offset the impression that the concluding afternoon is not as good as previous ones, and the attendance was smaller than the brightness of the day warranted.

All the departments, except that of live stock, were in full operation until the gates were closed. Some of the live stock was removed for shipment to Ottawa Fair, which opens on Monday.

The rest of the exhibits remained in their places, as required by the regulations. The showrooms closed by the directors had, of course, ceased operations at 1 o'clock, but most of the others kept going as long as there were prospective visitors in sight. Both the sidewalk people and the vendors of refreshments report having a poor week's business.

THE ATTRACTIONS.
The full programme of attractions was given in front of the stand, the performers being in excellent form. The races were among the best of the week, and were not concluded until about 6:30. The mixed race, left unfinished from the previous day, fell to N. Wade's Dolphy W. Well-contested consolation races for runners and for trotters and pacers were run. The summary:

LONDONER'S LUCKY FIND IN AFRICA

Picked Up a Valuable Diamond Ring on a Battle Field.

A ring that is attracting more attention than most rings do, is shown in the window of Mr. Chas. Ward's jewelry store. It came into the possession of a London soldier on one of the South African battle fields, and Mr. Ward purchased it from him. The lucky fellow who discovered it was one of a party sent out under command of a British officer to bury those slain in battle. The usual thing in such cases is that the officer gets all the valuable findings, but this time the young Londoner secured one of the rings worn by a Boer general. It is a circlet of fine diamonds of an unusually pure color, and the whole ring is of rare beauty. It is 18 karat gold, of exquisite workmanship, and Mr. Ward values it at about \$200. "Something that had been engraved inside it had been filed off. The man on whom it was found wore also diamond bracelets and bands of gold on his clothing."

Recooperative Effect.
Considered with reference to its recuperative effect, there is not so much to be said in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The fact is that it is a most effective remedy, how much did you cost last year?

Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appetite, restores the lost courage.

The word "mille" comes from the Latin "mille" a thousand. A thousand paces of a marching soldier made the Roman mile.

THE NEVER-FAILING medicine, Holloway's Corn Cure, removes all kinds of corns, warts, etc.; even the most difficult to remove cannot withstand this wonderful remedy.

The first regular road in the northern half of Scotland—that is, the portion north of the Firth of Forth—was in 1745.

WE HAVE NO hesitation in saying that Dr. J. D. Kellogg's Dysentery Cure is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.
