NEW YORK.

H. C. Becher, broker, Bank of Commerce building, received the following by private wire from Bartlett, Frazier & Carington today:
New York, July 29—Close..—Stocks are being absorbed by strong firms and individuals, and the time has arrived appropriately. parently when a readjustment of price values can be more easily accomplished. The market is still susceptible to attack, but its strength to resist is gradually in-creasing. Prices are being held with comparative firmness today. Some prescomparative firmness today. Some present sure was applied to a few stocks in the early trading, but they withstood well. Pennsylvania was one of these stocks. Atchison has acted heavy during the renoon session and eased after open-ig. Amalgamated Copper, preferred, is today. The railway list is firm and industrials are steady. Specialties are slightly erratic. It is rumored that the Rockefellers' interests will treentrol of Maxican Central. interests will try to secure U.S. Leather.

Harvesting is imperiled by wet weather in Russia and France, and the latter was confirmed by the Paris market opening from 1½c to 1½c higher. The Liverpool of tutures opened unchanged, while the spot on hard Kansas advanced 1½d. There was an active trade just over 78c for the September, and a good deal of liquidating by longs. The Government's weekly bulletin confirmed the recent reports of an unsatisfactory condition in the spring wheat belt. This is particularly true in the more northerly sections, and rust is prevalent in South Dakota and Southern Minnesota. The winter wheat yield is light, but has been secured and Southern Minnesota. The winter wheat yield is light, but has been secured wheat yield is light, but has been secured under exceptionally favorable conditions, and no further damage is reported. Prices eased off towards the close, principally under the influence of profit-taking. The reaction is the natural sequence to the recent advance. Local receipts were 146 cars, compared with 541 last year, with 70 cars estimated for tomorrow. Corn—The corn market was a big and broad one, with the buying coming from all classes of speculators. The price movement, however, was controlled by

local pit conditions rather than by any change in the crop situation. The prediction for showers in Kansas tonight caused some apprehension, so the original bulls took profits.
