

WHAT WILL BECOME OF THE CARLING CUP THIS YEAR?

A Question Being Considered by the Local Sports.

John J. Ryan, the King of American Plungers.

Prediction for Lou Dillon—Heavy Winner on the English Turf—Sporting News.

HOCKEY.

THE CARLING CUP.

What will become of the Carling cup this winter? It is a question that arises with the first sign of ice. The Seventh Regiment team won it last year and redeemed themselves, by the victory, from other losses they experienced during the season.

THE NORTHERN DISTRICT NOMINEE.

The northern districts of the O. H. A. are going to make a strong plea for representation on the management. Hitherto, Toronto men have been greatly in the majority, with the east and west somewhat represented, but the north not at all.

ANOTHER CANADIAN FOR PITTSBURG.

Kingston, Nov. 27.—Queen's senior hockey team suffers a severe setback by the resignation of a captain, "Dick" Wilson, who leaves today for Pittsburgh, Pa., to enter the Westinghouse electrical works.

WATERLOO'S HOME-BREWS.

Waterloo, Nov. 27.—Waterloo will line up a fast hockey team of home-brews for the W. O. H. A. this year. The annual meeting was held last evening, and, judging by the enthusiastic officers elected Waterlootes will see lots of good hockey this season.

DETROIT SOLD TO SYNDICATE.

Detroit, Nov. 27.—The Detroit club has been sold for some weeks. The information has not been given out in deference to the wishes of one of the new syndicate, who wished his name withheld for a short time, but upon the return of Mr. Angus from Turtle Lake the names of the new owners will be made public.

LEADING ENGLISH OWNERS.

Though Sir J. Blundell Maple won 56 races this year his 28 successful horses did not earn as much as Major Eustace Loder won with two horses,

the latter's unbeaten Pretty Polly alone winning more than Sir J. B. Maple's extensive and expensive string earned towards the finish. Like Major Loder the first two owners on the list, Sir James Miller and Mr. John Gubbins, owe their positions largely to one horse each, Rock Sand and Ard Patrick. The list is as follows:

Table listing names and earnings of horse owners.

BRANTFORD AND CHATHAM JOIN.

Secretary A. J. Macfadden of the Ontario Curling Association, received the application on Friday, of the Brantford and Chatham curling clubs for admittance to the tankard series. These clubs are old members of the association, but have been out of the play for several years. Their admittance raises the total of the clubs now in the association to 84. There are six new clubs this year, while one old club has dropped out.

ROOT BEAT JIM FLYNN.

Pueblo, Col., Nov. 27.—In the eighth round of what was to have been a twenty-round go, Jack Root, of Chicago, won the decision over Jim Flynn, of Pueblo, last night before the Rover Club. The decision of Referee Otto Floto, of Denver, was questioned by the crowd, as Floto counted nine, and used the word "out" for his tenth count. The "out" found Flynn on his feet ready to continue the contest. Excitement ran so high that the crowd would probably have attacked Floto had it not been for the police interference. Referee Floto made the statement after the fight that the correct manner of counting was to use the word "out" for the tenth count. He declared that he had been robbed of the fight, as he was merely taking the time allowance. The crowd was with him in his stand, the blow that put Flynn to the mat was a short-arm jab, which caught him on the left point of the jaw. The blow came after a swift mix-up, in which honours were about even. The fight from start to finish was aggressive on the part of both men.

HOW JEFF BECAME A SCRAPPER.

Robert Edgren, in December Outing: James Jeffries, the present champion, might still be working in a boiler foundry but for one of the accidents of fate. He got hurt up his home town, Los Angeles, Southern California, like other boys, going to school, fighting now and then, but not showing any special aptitude for the game. When he was about 17 he went to work. He was a huge boy then, and in the fighting that always takes place among men who work in iron, developing strength and endurance, he more than held his own. One day a big negro came to town. He was one of those who travel light, who go abroad looking for small matches. When he gave out his challenge, Jeffries, a big, gruff fellow, gave him a terrific beating, but Jeffries found that he could endure the blows without being dazed. He settled down to study his rival's methods, and in the fourth round took advantage of an opening by landing a crushing body blow and stretch the negro helpless at his feet.

THE TURF.

At Benning—Demure (Collins), 5 to 1 and 2 to 1; Port Hunter (A. Brennan), 5 to 1 and 2 to 1; Munster (Hoar), 3 to 5 and out; The Guardsman (Tomlinson), 7 to 2 and 6 to 5; Pitcairn (Dunlop), 13 to 5 and even; Sam Craig (T. Burns), 4 to 1 and 7 to 5.

LOU DILLON WINTERED.

Millard Sanders, the trainer of Lou Dillon, 1:58 1/2, has finally decided to winter the champion mare at Memphis, in the state of Tennessee, as he intended. He will train a public stable, of which Lou Dillon will be a member, and he will handle her from the winter with the special object of having her in the best possible shape next spring to re-enter the fight against Father Time and his hour glass. Both Sanders and Mr. Billings believe that the champion mare will trot in 1:55 or better before the end of 1904.

CHELSEA LODGE DEFEATED.

At the rooms of Court Chelsea last night Court British O.C. defeated Court Chelsea by 34 points to 24.

Facetious Cowboy Enlivens Stop of Train in Arizona.

He was evidently trying to see how near he could come to some of the passengers.

WE OFFER \$1,000.

For a Disease Germ that Ligozone Can't Kill.

On every bottle of Ligozone we publish an offer of \$1,000 for a germ that it cannot kill. We do that to convince you that liquid oxygen does kill germs.

Kills With Oxygen.

Ligozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Paul, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple form into the blood as would kill germs.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

WE PAID \$100,000.
