NOT IN THIS WORLD

Episcopal Congress at Boston Sees Little Chance For Church Merger. Boston, May 14 .- "The Outlook for Visible Church Unity" was a topic which greatly interested a large audience today at the Episcopal Church Congress, which concluded its sessions after a number of eminent men had spoken. The conclusion reached was that there can be no visible church unity without a full recognition of the validity of the priesthood and the sacramental system One of the speakers expressed the opin-ion that no help toward the decided end can be expected from the Roman Catholic Church until the idea of a primacy at Rome supplants that of the papacy. Bishop William Crosswell Doane, of Al-

realized in this world.

Rev. Dr. H. H. Oberly, D.D., of Elizawards unity must be made with the Protestant denominations. Rev. Dr. Wm. R. Huntington, of New York, said a merger of churches, unless carefully arranged and on constitutional grounds, would place the Episcopal Church in great danger, humanly speaking, "of being badly bruised between the upper millstone of the Roman domina tion and the millstone of the Protestant

thought that the possibility of

federation." COURTS DETAIN EAMES.

Philadelphia, May 14. - Suit was begun here today against Emma Eames, who is charged with alienating the affections of Emilio de Gorgorga, a baritone in her company. # U. S. SENATE RIDER HALTS SIGNING

Otherwise Waterways Treaty With U. S. Would Be Ratified

### ONTARIO'S INTERFERENCE

Sir Wilfrid Laurier Points Out That Action of Premier Whitney Was Out of Place.

Ottawa. May 14. - The waterway treaty with the United States was under discussion in the Commons today, several Conservative members attacking it, claiming that it was injurious to Canada, and demanding that it be not ratified as it stands.

The question was introduced by Mr. Government had allowed matters to reason why they had agreed to the didawdle on, taking three years to appoint three commissioners, and in the Milk River. end it found two of them in the corridors of its own department at Ottawa. He declared that the American Government originated ideas, pushed would only remark that the Senate negotiations with celerity and appoint- amendment had been such as to cause The colonial ed eminent authorities. office in London also showed energy and ispatch, while the Ottawa Government moved only when prodded by the colonial office. The upshot was that the American commissioners were appointed two years before the Canadian section was completed, and sevbeen at work, and no special technical

experts were appointed. He criticised the Canadian Government for yielding to the Americans -roomed house, all conveniences; when they refused to include the St. In conclusion Sir Wilfrid criticised resale, cheap. 45 Briscoe (Ridout Johns River. He wondered what the the action of the Government of On-American attitude would be if Canadian companies supplying power to for the purpose of furnishing the same to Canadian consumers. The Ameritransmission of electric energy which ity. The same applied to the waterhad been set for discussion. Then the American section so dom- Mr. Hanna might offer their opinions, inated the Canadian section as to induce it to consent to the use of waters between the two countries on a basis thing.

of "equitable division." This should, he principle of "equal benefits." The need for such a rider is shown in the Niagara settlement. The real authors of this, he stated, are American commissioners, and the effect is that the American section fixed the maximum amount 18,500 second feet, which could be diverted on American side and then adjusted the

Canadian diversion thereto. He refused to accept the theory that the Canadian power could be recalled when the country needs it. When Canada needs that power it will be at a period when the United States cannot do without it. There will be huge in-United States Government will not allow the supply to be cut off. In some way it will nail down those advan-

Another subject which he discussed was the Chicago Drainage Canal. It Shaw and Arthur T. Laird, of Albany will allow ten thousand foot seconds N. Y. to be taken from the lake system. Yet the committee has nothing to do with

Finally, Mr. Magrath discussed the long, runs through Alberta. At the Falls.

Mr. Claude MacDonnell discussed the conditionsp revailing at Niagara Falls laying stress on the location of the boundary line, which gives the whole crest of the Canadian Falls to Canada. The discharge of water over the American Falls, according to Mr. J. W. W. Spencer's contention, is only 7 per cent of the flow, or about 14,000 feet per second; while the utmost American claim is that 14 per cent of the discharge goes over the American Falls. Thus the Americans at most have oneseventh of the water. Yet out of 56, 000 feet per second, which may be diverted. Canada gets only 36,000. Canada has six-sevenths of the water and gets only 64 per cent of the diversion. Counting in the Chicago drainage canal she gets only 54 per cent. Allowing fought out before the insurance comvalues at \$10 a horsepower the yearly value of the American diversion is worth \$9,285,000 and that of the Canadian diversion is \$16,700,000. On a basis of water supply the American share should be \$2,500,000 and the Canadian share \$23,500,000. Mr. MacDonnell adverted to different methods shown by the two governments in choosing men. First and last, he said, the Americans have appointed five eminent engineers as commissioners, and another eminent engineer as secretary, whereas Canadian commissioners have two lawyers, one astron-

R. Trotter, the labor agent, nor that the greater part of St. Mary's criticise any officer or member of the River belonged to that country. His supreme court or any of the lesser argument was that the major portion courts." of the water supply came from Cana-American side.

Mr. Boyce said that the internation- reinstated." al waterways committee had divided the water powers at St. Mary's River equally between Canada and the United States. The American Senate's amendment, he claimed, would absolutely nullify the division made by Brown, Shipley & Co., and J. P. Moritself to them.

# YOUR SAVINGS ACCOUNT

MAY BE SMALL at first, but the noticeable feature of Bank of Toronto Savings Accounts is that they grow.

We are constantly opening accounts for small sums, but these usually increase to amounts that are very satisfactory to both Depositor and Banker.

The first deposit acts as a magnet for the odd amounts that are so apt to be wasted.

the waterways commission. He apnealed to the Premier to advise Great Britain to reject the treaty. The Premier.

Sir Wilfrid Laurier lefended the personnel of the commission, declaring it preposterous to say that men were appointed because of their political influ ence. The commssioners had been in trusted to make a division of the waters of the St. Lawrence basin, and everyone had to admit that they had

made a fair division. As regards Niagara, some held that they should have got more, but under a treaty it was impossible for each party to get all that it wanted. If they gave a little more than Mr. Magrath thought they should have given, it was still debatable whether they had acted

wisely or no.t Concerning the St. Mary and Milk Rivers, he pointed out that the Americans contemplated putting at the head of these streams an immense reclamation works, where water would stored and would be available during all the summer months. Mr. Magrath and his constituents would have the . A. Magrath, who said the Canadian benefit of it. This, he said, was the

version of the St. Mary River into the Sir Wilfrid said he would not care to express an opinion at present on the whole treaty for obvious reasons. delay in the ratification of it Two things, he said, were to be con-

sidered: 1. What are the physical conditions to be affected by it? 2. The amendment is not as clear and

as lucid as one would wish. The Premier said he had not made eral of the Canadian appointments up his mind regarding the treaty, but showed that the patronage system had he was very glad to have the views of those who had spoken, though he was not prepared to say that he would
