ANIMATION ON A RISING SCALE

Shown by the New York Stock Market.

CLOSED ACTIVE AND STRONG

With the Top Level of the Day Well Maintained.

CHICAGO WHEAT UNCHANGED.

Quotations and the Leading English, American and Canadian Stock Grain and Produce Markets.

> IN WALL STREET. Press Despatch.

New York, June 29 .- To-day's stock mar ket showed more animation on a strongly rising scale than has been seen for many weeks in New York. Business for the first two hours was considerably in excess of the average for the full daily trading of last week. The market closed very active and strong, with the top level of the day well maintained. Net gains of 1 to 2% was general among the leading active stocks. Reading was the leader of the day's market, with its advance of 234 on the purchase of enormous blocks 2% of the purchase of chormous blocks on a constantly rising scale. The Pennsylvania group of coalers was conspicuous throughout and Pennsylvania itself broke through the opposition, which held it for a time at 125 and rose to the best in a time at 125 and rose to the best in the late dealings. The grain carriers were later to respond, but they came forward vigorously in the final dealings, with the Pacifics leading. The buying gave rise to renewed surmises as to possible new adjustment of relations and control in the field of the trunk lines and coalers, as an outgrowth of the final lodgment of the new Pennsylvania stock. The apprehension that with the completion of the new Pennsylvania stock. The apprehension that with the completion of the Pennsylvania stock subscription the motive for support of the stock by the underwriting syndicate having passed, the price would give way was seen to be without ground to-day. The ability of the money market to carry through this great operation has detracted from the fewrs of a money source in watering the of a money squeeze in meeting the 1st requirements. The special

from Bartlett, Frazier & Co.:—

New York, June 29.—Close:—To-day's market opened strong, and the strength was maintained almost without exception up to the close, when most stocks were selling at the highest prices of the day. There were various factors at work to create a more hopeful sentiment than has been prevalent for some time. The principal one was the belief that all of the new Pennsylvania stock had been subscribed for, and that the syndicate would not be asked to take up any of the allotments. An official confirmation of this story was received during the afternoon. Further favorable factors were the receipt of private despatches stating that the crop situations in the west were satisfactory, and the fast that there was comparatively little hardening in the money rates. Some
