U. showed that the school boards of the British Columbia cities had been asked to have temperance taught in the schools, and held that the Sunday closing law had a beneficial effect in pre-venting the descoration of the Sabbath. Three points were particularly pressed upon the association "1-Absolute and eternal banishment of intoxicating liquor from our homes: 2-Continual knocking at the doors of legislative halls for more stringent legis-lation on the liquor question; 3-The en-forcement strictly of the liquor laws now upon the statute book."

A lively discussion followed in which Rev. Mr. Solyer, Rev. Mr. Brownlee, Rev. D. D.

This is a French Protestant mission in the province of Quebec, having a remarkable history and a phenomenal growth of fifty-eight years since it was founded by Madame Feller. Miss Fannie Allen, state missionary, gave the folosing address, on the loving Christly touch of mission work. She brought out in beautiful, simple words the wonderful power of the human touch which reaches the tudi-vidual by house to house visitation of conse-crated women. She spoke earnestly of the faith and contempt of God's word. The Baptists were, she said, the pioneer mis-sionaries at Montercy in 1847. In answer to that we can point to the records of the last thirteen years and show that not only all claims and expenses have been fully met, but that the surplus fund to day has over \$950,000 to its credit. There is no reason to believe that the present low rates will not always be ample to pay all claims against the order.

In the Dominion we have six High Courts, not including the one to be insti-tuted at Calgary. The organization of a High Court depends on the number of sub-ordinate courts in a district. The minimum number of courts necessary to secure a High Court is six, and of course as many more as desired. England has made a wonderful record for herself, where since the first sub-ordinate lodge was organized only one year ago, emongh of them have been started to admit of five High Courts."
