"BEATING THE NEW TAXES"

(Ottawa Journal)

Those who talk, as some are now
talking, about "beating the new
taxes" display a curious kink in their
moral conception of citizenship. To
pay taxes is one of the primary
duties which one owes to one's
country. To seek to evade this
duty at any time is to play the quitter
in respect of one of the most
important of responsibilities to the
state. But in these times, when
heavier taxation is in reality the
"mopping up" process of the war,
the tax evader plays a game not far
removed from that of the man who
funkt in the course of the fight.

Let there be no mistake about
that. The taxes imposed are to
wind up the part we took in the late
war. To help pay them, therefore,
is as much a duty upon Canadian
citizens as was the obligation to con-
tribute one's best between 1914 and
1918. And the man who, either
through meanness, or a "smart Alec"
idea of things, or a wrong conception
of public duty, tries to evade them,
is in a degree as much of a slacker
as the man who could not be found
when the call was to go "over there."

No one need endure the agony of corns
with Holloway's Corn Cure at hand to re-
move them.

BOSANQUET COUNCIL

Council met May 31st. All the mem-
bers present. Minutes of previous meet-
ing read and confirmed. Ralph Gray
and others petitioned for a tile drain to
benefit lots 9, 10, 11 and 12 in the 2nd
con., and F. H. Moloy and others
petitioned for a drain to benefit lot 21
con. 4, and lots 19 to 22 inclusive in the
5th con., and the clerk was instructed to
notify A. S. Code to examine the areas,
make plans etc., for the work.

Menhenick—Walden, that all culvert
pipes 18" and over be paid out of the
General funds.—Lost.

The following orders were given:—C.
Medcalf \$100 work on the Elliot Award
drain; John Dallas, \$22.75 for gravel;
Wm. Bryant, \$43.50 for printing and
supplies, \$18.85 to be charged to the
Police Village of Grand Bend; J. H.
Campbell \$2 attending Court of Revision,
and \$8 equalizing the assessments of the
Police Village of Grand Bend; R. D.
Thomson, \$73.60 for 24 danger signs;
Peter Nichol, \$100 for work on the Spear-
man drain; Eli Frayn, \$73.92 for tile on
the road; C. Sutherland, two trips to
Sarnia re legal advice, and searching lot
boundaries and \$11.91 for telephones,
and postage; N. Sitter, \$12.65 expenses
to interview the Minister of Highways
re Provincial road across Bosanquet; Hy
Bosseberrry, \$10.30 expenses to Sarnia
with Mrs. Gerouard; Dr. Clarke, \$25
medicine and attendance on Mrs.
Gerouard; Karr Cement Co., \$32.00 for
tile for the Donald drain, and \$84.73 for
the Spearman drain; L. S. Parkinson,
\$25.00 grant to Thedford Band; G.
Sutherland, \$35.00 maintenance of Mrs.
Gerouard in Sarnia Hospital, and \$2.25
registering Sand Road by-law.

A By-law was passed appointing the
township officers who are the same as
last year.

Council adjourned to meet on Mon-
day, July 5th, at 10 a.m.
GEO SUTHERLAND, Clerk.

How's This?

We offer One Hundred Dollars Reward
for any case of Catarrh that cannot be
cured by Hall's Catarrh Medicine
Hall's Catarrh Medicine has been taken
by catarrh sufferers for the past thirty-five
years' and has become known as the most
reliable remedy for Catarrh. Hall's Cat-
arrh Medicine acts through the Blood of
the Mucous surfaces, expelling the Poison
from the Blood and healing the diseased
portions.
After you have taken Hall's Catarrh
Medicine for a short time you will see a
great improvement in your general health.
Start taking Hall's Catarrh Medicine at
once and get rid of catarrh.
Send for testimonials, free.

potent as Mother Graves' Worm Extermi-
nator, and it can be given to the most
delicate child without fear of injury to
the constitution.

COSTLY PLACE TO MAINTAIN

White House, From Time of Its Orig-
inal Building, Has Absorbed
Millions of Dollars.

Just 100 years ago President Mon-
roe indulged in a little extravagance.
He "blew himself" to a bathtub. It
cost \$20, and for a long time there-
after was the only bathtub in the
White House.
The historic mansion has been pret-
ty expensive from first to last. Up to
date considerably more than \$3,000,-
000 has been spent on it, including
repairs and refurbishing.
Its cornerstone was laid by George
Washington in a bare field October 1,
1792. Since then it has been twice
rebuilt—after the British burned it
and again during the Roosevelt ad-
ministration. It was commonly called
in early days the Great House, or the
President's Palace.

Recently Mr. Tumulty again gave
out the announcement that the White
House would be closed to visitors for
some time to come, "because of neces-
sary repairs." It seems forever to be
needing repairs and refurbishing, and
for the latter purpose much more than
\$1,000,000 has been expended since
the beginning.

The original cost of the building
was \$333,207. Its reconstruction
after the British raid of 1814 involved
an expenditure of \$246,490, the house
being gutted and its walls so far de-
stroyed that the greater part of them
had to be replaced above the first
story with new brick and fresh cut
stone.

Inevitably there will be a third re-
building some day. Plans and a model
of the White House as it ought to be
with wings added, have already been
made. The wings are embraced by ex-
terior colonnades. In the east wing
is to be a great reception room; in
the west wing the state dining room.
On the second floor of each wing are
to be five bedrooms. Thus the presi-
dent will have about twenty bedrooms
at his disposal, and will be enabled to
offer much freer hospitality. Con-
servatories in the rear will complete
a magnificent quadrangle, and the whole
effect will be very beautiful.

The cost of rebuilding the White
House in this style will be in the
neighborhood of \$2,000,000.

Diversions That Benefit.

In an address at the Royal College
of Medicine to students about to start
out in practice for themselves, Dr.
George Steele-Perkins of Edinburgh
gave this advice:

"Also learn to play lawn tennis, golf,
bridge, billiards, or whatever games
most appeal to you, and among other
things do not neglect the noble art of
self-defense."

This advice is as sound for the
young man starting out as a lawyer
or a broker or a business man. For
every man needs some amusement to
which he can turn in order to forget
the worries of his working hours. No
man is ever too busy to play; an
hour's relaxation makes him work bet-
ter. That is why Gladstone chopped
down trees and studied Homer, why
Wilson plays golf, why Charles
Schwab plays bridge, why Cleveland
went fishing, why Roosevelt rode,
boxed, played handball; why the late
J. P. Morgan was never too busy to
devote an hour to talking art with
some one who really knew.

Such diversions keep a man from
going stale.—Exchange.

FORTUNES OF WAR

High Military Rank Attained by
Humble Civilians.

Sir Douglas Haig Tells of Many In-
stances That Came to His No-
tice During the Great War—
Men That Failed.

An interview with Sir Douglas Haig,
printed in the Manchester Guardian,
contains some shocking instances of
the romance and fortunes of war.
"Promotion," said the field marshal,
"has been entirely by merit, and the
highest appointments were open to the
tumblest, provided he had the neces-
sary qualifications of character, skill
and knowledge."

"Many instances could be quoted of
men who, from civil or comparatively
humble occupations, have risen to im-
portant commands."

"A schoolmaster, a lawyer, a taxicab
driver and an ex-sergeant major have
commanded brigades."

"One editor has commanded a di-
vision and another held successfully
the position of senior staff officer to a
regular division."

The undercook of a Cambridge
college, a clerk of the Metropolitan
water board, an insurance clerk, an
architect's assistant and a police in-
spector became efficient general staff
officers.

"A mess sergeant, a railway signal-
man, a coal miner, a market gardener,
an assistant secretary of a haberdash-
ery company, a quartermaster ser-
geant and many private soldiers have
risen to command battalions."

"Clerks have commanded batteries."
"A schoolmaster, a collier, the son
of a blacksmith, an iron molder, an
instructor in tailoring, an assistant
gas engineer, a grocer's assistant, as
well as policemen, clerks and privates,
have commanded companies and acted
as adjutants."

These instances are not strange.
They show possession of military in-
stinct which only required the chance
to be displayed.

Analyzing further, of course, it
could be abundantly shown that some
men, although given high rank, fell
down lamentably when opportunity
for work offered.

While technical education is essen-
tial, soldiers are born, not made.

It would be interesting to collate
from our own records some of the
many instances of American soldiers
who rose from the ranks to commis-
sions after a brief apprenticeship to
the profession of arms.

Ground Glass Not Harmful.

Experiments recently carried out
by the army medical corps have en-
tirely disproven the popular belief
that ground glass is harmful to the
digestive tract.
Glass was ground and sifted to se-
cure varying degrees of fineness and
considerable quantities of the material
were incorporated in fresh meat,
the same being fed to hungry dogs.
This was repeated in some instances
on a number of days after which the
dogs were killed and the digestive
tract examined both with the naked
eye and by the aid of the microscope
and appeared normal in every way.

These findings should eliminate for
all time the idea of glass being the
cause of death in animals maliciously
poisoned.—W. H. Feldman, Colorado
Agricultural College, Fort Collins,
Colo.

Its Face Was Its Fortune.

Two years ago my husband and I
were coming into Chicago from an In-
diana town in a roadster that cer-
tainly showed the hard use we had
given it. About midnight we started
down a little grade on a lonely stretch
of road and found at the bottom that
the road was blocked by two large
machines with licenses from a West-
ern state.

We stopped, of course, and expected
one machine to pull aside. Instead
two men walked back to our car and
looked us over. Then one called: "All
right," and the road was cleared.

They thought our old model ma-
chine was probably not worth stealing,
but they neglected to search our pocket-
s, which contained several hundred
dollars.—Chicago Tribune.

Women and Asthma.—Women are
numbered among the sufferers from asth-
ma by the countless thousands. In every
climate they will be found, helpless in
the grip of this relentless disease unless
they have availed themselves of the pro-
per remedy. Dr. J. D. Kellogg's Asth-
ma Remedy, despite its assurance of
benefit, costs so little that it is within
reach of all. It is the national remedy
for asthma, far removed from the class of
doubtful and experimental preparations.
Your dealer can supply it.

Wedding Stationery of the finest
quality at The Guide-Advocate.

Boilers Heated by Electricity.
The curious anomaly of steam boil-
ers heated by electricity is attracting
serious attention in certain localities.
Such boilers have been set up of ca-
pacities up to 1,500 kilowatts, or 2,000
horse-power, taking electric current of
voltages up to 10,000, and offer advan-
tages where coal is high and water-
power cheap, as in certain woodpulp
and paper factories of northern Eu-
rope. Steam is generated by passage
of the electric current through wa-
ter. Narrow vertical tubes of insu-
lating material contain water, and are
connected at top and bottom with the
interior of the boiler. Alternating
current is sent through the water col-
umns, the tubes with three-phase cur-
rents being connected in groups of
three. Moving the electrodes in the
tubes regulates the current strength.
An efficiency of 95 per cent is claimed
and one watt of electric energy is
stated to produce nearly four pounds
of steam.

For Asthma and Catarrh.—It is one of
the chief recommendations of Dr. Thom-
as' Electric Oil that it can be used in-
ternally with as much success as it can
outwardly. Sufferers from asthma and
catarrh will find that the Oil when used
according to directions will give immedi-
ate relief. Many sufferers from these
ailments have found relief in the Oil and
have sent testimonials.

While dismantling the barn on M.
Sadler's farm to be moved to Jas. Ran-
kin's, 8th con., Plympton, a heavy beam
fell on Clifford Rankin, and gave him a
bad shaking up. Fortunately he did not
receive the full force of the weight of the
beam or he would have been instantly
killed.

Small but Potent.—Parmelee's Vege-
table Pills are small, but they are effec-
tive in action. Their fine qualities as a
corrector of stomach troubles are known
to thousands and they are in constant
demand everywhere by those who know
what a safe and simple remedy they are.
They need no introduction to those ac-
quainted with them, but to those who
may not know them they are presented
as the best preparation on the market for
disorders of the stomach.

POWER LIGHT

\$495 40-LIGHT PLANT
E.O.B. TORONTO

also made in 65, 100 and 200 Light Sizes

You will quickly realize its worth on the farm

The instant you press the button, your house, stables, cellar, garage and barnyard can be brilliantly lighted by electricity, produced by

The "F" Power and Light Plant

It also provides ample power to drive your separator, pump, grindstone, churn, washing machine, and any other light machinery.

Runs six hours on one gallon of kerosene or distillate. Equipped with famous "Z" engine, 1 1/2 h.p. Self starting and easily operated.

Come in and see the plant in operation.

J. MCKERCHER

Agent for Labor Saving Equipment 2

Ford

1920 Advantages

- Has deep, wide, luxurious seats, with plenty of room.
- Unsurpassed in anything near its price in riding qualities.
- Has very high grade heavy upholstery.
- Has roller bearings in front hubs.
- Has double bulb headlight system, which is more efficient than dimmer type.
- Has a magneto to furnish ignition independent of storage battery.
- Repair parts can be had almost anywhere at very little cost.
- Has real service behind it which has never been attempted to equal.
- Can always resell a used Ford to better advantage.

Orders are still coming in faster but just now I am getting a good bunch every week. Will be able to give fairly prompt delivery. Once you are in the 1920 Ford the decision is made.
