We regret that Mr. Percy Bentley is leaving our town; he is moving to Sydney where the firm of Bentley & Co. have opened a branch store. He has been a good citizen and though we shall miss him here, we wish him every success. Last night the LOOF and Board of Trade gave an "At Home" in their hall as a farewell to him. It was very largely attended, seventy or eighty persons being present, and a most enjoyable time was spent. The programme was excellent and well carried out, Mrs. Burdett's reading deserving special mention. Progressive crokinole was much enjoyed by the young people.

Mr. John S. Smith and family, of Halifax, have moved into our town and will occupy Mr. George Armstrong's residence until May next. Mr. Smith is inspector of agencies in the well known life insurance company the Standard.

Our postmater, H. E. Reed, and wife left on Saturday last for the States. Mr. Harry Reed is giving good satisfaction as substitute. We are glad to welcome among us Rev. T. B. Layton, who has been laboring in the eastern part of the province. He has been in poor health for some time, and we trust that the air of Middleten will prove beneficial to him.

Ottaws, Nov. 27.—So far, there have been but two names mentioned for the deputy Speakership of the House of Commons and chairmanship of committees in the new parliament. They are Mr. T. B. Flint, M. P., of Yarmouth, N. S. and Dr. MacDonald, of East Huron, Ont. Both of them have presided at times in the course of the last parliament. If the Speakership of the Senate goes, as seems likely, to Senator Power, a Nova Sociian, and the Speakership of the House of Commons to a Quebec member, Mr. Brodeur, the probability is that the government's nonince for the vice-chair of the lower chamber will be an Ontario man.

The forest wealth of Nova Scotia amounts The forest wealth of Nova Scotia amounts annually to about three million dollars. This sum is the value of the wood and wood products exported, but by far the largest part of it is represented by the export of deals. The lumber industry of Nova Scotia may fairly be called the deal industry, for most of the product of the forest is sent abroad in that form. It is a great and growing export trade. From the two ports of Halifax and Parrsboro, the largest export points, there was shipped to the markets of Europe this year no less than iniety million feet of lumber, principally deals, representing a money value of at least a million dollars. Smaller shipments were also made from many other points and it is probable that the deal exports of Nova Scotia would total considerably over a hundred million feet. To get this vast quantity of lumber ready for shipment nearly fourteen thousand men were employed, distributed as follows: In the woods, 10,000; in the saw mills, 2,500; in river driving, 800.

All but States administred by the priest. All but of those sworn were Bolomen. The number included the twelve hundred Bolomen who had previously surrendered. The proceedings at the church occupied the entire day and included an address by General Young and an exhortation by the priest. Scarcely any rebels remain in the vicinity of Santa Maria. General Young attributes this gard or freeling, but leaving the sense of feeling, but leaving the sense of feeling occaine into the spinal cord was discovered about a year ago, and has since been adopted all over the fact to three causes—there ecclotion of President McKinley; the arrival of a stronger body of troops, and the especially rigid enforts to the sense and the deportation of prisoners to Manila.

The Chinese Puzzle.

London, Nov. 27.—Dr. Morrison, wiring to the 'Times' from Pekin, on Sunday, says: 'The foreign envoys have agreed to two proposals that were previously rejected, owing to lack of unanimity. These are Sir Earnest Satow's proposal that China should agree to recast the commercial treaties and the Italian proposal that China should agree to freign financial control as a guarantee of the-indemnity.

'The delay in the presentation of the joint note is due to the postponements by the home governments. This increases the discludities of the position and aggravates the dislocation of trade and finance, especially the collection of inland revenues. At the lowest estimate the indemnity is computed at £60,000,000.
