WHAT IS WANTED IN A HORSE.—This is well stated in the *Transactions* of the Onondaga Co., Ag'l Society, in substance as follows; Horses are wanted, first for speed on the road, second, for conveying heavy loads quickly. For the first they have no competitors among our domestic animals; for the second none but the ox and the mule. Either of these is kept at less expense, less risk, and less care. The horse compensates this increase solely by his *speed*. Celerity and power united, sum up in two words the peculiar requisites of the horse.

## PURE BRED ANIMALS,

## PRIVATE SALE,

*Mount Fordham, Westchester Co., 11 miles from City Hall, New York, by Harlem Railroad.*

HAVING completed the sale of animals, as advertised in Catalogue of 1854, (excepting Short Horned bull "*Balco*" 9918), at prices highly remunerative, for which patronage I feel grateful, not only, to the public of almost every State in our Union, but to the Canadas, Cuba, and the Sandwich Islands; *I will issue about the 1st of March, a Catalogue for* 1855, of Short Horned Bulls, and Bull Calves (some of which belong to my friend, and part associate Mr. N. J. Bear) North Devon Bulls and Bull Calves, Southdown Rams, Suffolk, Berkshire, and Essex Swine, of almost all ages, and of both sex, now ready for delivery. This catalogue will be illustrated with portraits of my Prize Animals. Most of the original animals of my breeding establishment were selected by me in England in person, and strictly in reference to quality, *in my judgment*, best adapted for the use of this country.
