

THE

# WINTER EVENINGS

Provide an excellent opportunity for the Farmer to decide on what new Implements to buy for the coming season's work.

To procure good results, it is essentially necessary to have the best of Tools. There are many reasons why Massey-Harris Machines are the best. The new Catalogue, which will be sent you on application, will explain some of them.

THE BRANTFORD NEW NO. 3 MOWER (FRONT-END).  
(17 3-in. OR 21 24-in. SECTIONS.)

The above cut illustrates the product of a great many years of study and experimenting. The success of this light running Machine has been marvellous. In Europe alone, the orders for Brantford Mowers have doubled during the past year.
