## THE EDITOR'S EXPERIENCE.

A SUFFERER FOR SEVERAL YEARS FROM ACUTE DYSPEPSIA.

Food Distressed Him and it Began to Have a Weakening Effect on the Heart—Many Remedies Failed Before a Cure Was Found.

From the Cause, N. S., Boston.

While newspaper men are called upon in their capacity as publishers to print from week to week words of praise spoken in favour of proprietary medicines, it is not often that the editor himself feels it his duty to say a good word on behalf of any of these preparations. And yet, if a newspaper has actually found benefit from the use of a proprietary medicine, why should he not make it known to his readers, and thus perhaps point out to some of them the road to renewed health. The editor of the *Breeze* believes it his duty to say a few words of praise in favour of a remedy that has proved an inestimable boon to him, and to say them without any solicitation on the part of the proprietors of the medicine, who, as a matter of fact, had no reason to know that he was ailing or was using their medicine. For several years the editor of the *Breeze* had been subject to that distressing complaint, dyspepsia, and only those who have been similarly troubled can know how much misery this trouble entails. He had but very little appetite, and what he did eat caused an unpleasant feeling of fullness, and made him feel languid and heavy, often causing intense pain in the stomach only relieved by vomiting up the food which he had taken. He was also troubled with palpitation of the heart, brought on no doubt by the dyspepsia. Numerous remedies alleged to cure dyspepsia were tried, but without success, and the trouble was approaching a chronic state. At the suggestion of a friend Dr. Williams' Pink Pills were tried and relief soon followed their use, and after a few boxes had been taken the editor was able to assert positively that he had been cured of his dyspepsia by this remedy that has proved so great a blessing to mankind. To any one troubled with this complaint he would strongly recommend Dr. Williams' Pink Pills. To newspaper men particularly they will be found just the thing to impart health and vigour to the whole system and enable them to pursue their work free from that tired, despondent feeling so prevalent among the craft. The editor of the *Breeze* firmly believes that what they have done for him they will do for others, and he gives them his hearty and unsolicited endorsement.

Dr. Williams' Pink Pills are an unfailing cure for all troubles resulting from poverty of the blood or shattered nerves, and where given a fair trial they never fail in cases like that above related. Sold by all dealers, or sent postpaid at 50 cents a box, or 6 boxes for \$2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont., or Schenectady, N.Y. See that the registered trade mark is on all packages.
