

We take pleasure in calling attention to the notice in our advertising sheet, of the private course of lectures to be delivered by Dr. H. R. Storer, of Boston, upon the "Surgical Diseases of women." The course is intended exclusively for graduates, and will cover in as thorough and practical a manner as possible, all that experience up to the present time has shown to be available in the relief of this class of disorders.

It is needless to allude to Dr. Storer's qualifications for this task, as he is already widely known in this country, and as the associate of Sir J. Y. Simpson, of Edinburgh, in 1854-5, and one of those selected by him to edit his obstetric works, his reputation abroad is enviable.
