

in almost every quarter of the globe. More than the usual success has been obtained by many, due beyond doubt to the eminently practical training they received.

Some have risen to distinction—carving for themselves a name and a professional reputation extending far beyond the cities in which they reside, and reflecting honour on the University which is their Alma Mater. In the special field of Ophthalmology—Dr. Wood, of Chicago, stands pre-eminent among the practitioners in the United States who follow this specialty. This gentleman graduated in 1877, and practiced for at least ten years in Montreal as a general practitioner, filling during that time in Bishop's the chairs of Chemistry and Pathology. Another graduate who occupies a distinguished position in this same field is Dr. H. B. Chandler, of Boston—one of the Surgeons of the Boston Eye and Ear Hospital. I every now and then see evidence of the very excellent work he is doing. In the field of general Medicine I find Dr. Tetreault, of Orange, New Jersey, occupying the position of Medical Health Officer, and a recognized authority on Sanitary matters. In the City of New York I find Dr. Wolfred Nelson holding an enviable position as a Life Insurance Specialist. In Kingston, Jamaica, West Indies, Dr. Bronstorff, who graduated in 1884, I am informed, has risen to the position of one of the leading Surgeons, and has a reputation for Surgical knowledge, and skilful operator, which extends all over the Island. Dr. A. J. Richer, one of our graduates, and on the Faculty Staff, is rapidly coming into notice as an authority on Tuberculous diseases, and is the head of the Sanatorium at St. Agathe. In the far West, at Belt, Montana, I hear of Dr. Vidal, who graduated in 1890, being so pressed with work as to need for several years past, two assistants. Dr. Blackmeer, who graduated in 1884, is Professor of Medical Jurisprudence in the Barnes Medical College, (St. Louis), with a class of over four hundred students. In Montreal I find Dr. Maude Abbott one of our first lady graduates doing excellent work in the Pathological Laboratory of the Royal Victoria Hospital—also Drs. Jack and Foley—who graduated from Bishop's in
