THE MOST VALUABLE SPRING AND SUMMER MEDICINES IN THE WORLD. DR. HALSEY'S FOREST WINE, AND GUM COATED FOREST PILLS.

An invaluable Compound Sarsaparilla preparation. Manufactured on the same principle as the Forest Wine, to which it is an important adjunct. They are coated with Gum Arabic, an important ingredient which Dr. Halsey has received the only patent ever granted on Pills by the Government of the United States.

DR. HALSEY'S Forest Wine and Gum-coated Forest Pills, unite in accomplishing the same great end, THE PURIFICATION OF THE BLOOD, THE RENOVATING AND RESTORATION OF THE STOMACH AND BOWELS.

THE BLOOD IS THE LIFE!!! The life principle of man is the blood, no sooner are those organs of the stomach which make and nourish the blood, cleansed of morbid matter, and restored to healthy action by the use of the Forest Pills, and pure blood made to flow in the veins by the use of the Forest Wine, than disease begins to vanish, and the strength and energy of body return. This is the principle on which is founded these great medicines, and by which—

Scrophula, Dropsy, Bilious Disorders, Diarrhoea, Indigestion, Weakness, Head Aches, Nervous Energy, Jaundice, Coughs, Colic, General Debility, Exacerbation of the Bile, Illness of the Stomach, and other Disorders, Cholera, Ulcers and many other diseases are radically cured.

CHOLERA. Which at this moment is spreading death and Terror over the earth, it is still a great mystery.

Asiatic Cholera is but a disease. In its advanced stages, uncontrollable and incurable. It is in the atmosphere. The air everywhere contains Cholera infection. All who breathe partake of the poison, all are exposed to the same malignant infection, and

ALL LEAVE THE CHOLERA. That all experience, Cholera, sooner or later, may appear strange, but is nevertheless terrible. How few are those who have not already experienced its insupportable loathsomeness, or bearing down of the bowels, a sense of sickness at the stomach, and other strange symptoms? This is cholera; but why, it may be asked, if all inhale the same poison, do some die suddenly of the disease, while others survive? One or two of these symptoms? No answer is ready. With cholera as with other diseases, in proportion as the system is disordered and clogged with morbid matter, does the infection take hold of us, whether it be Asiatic Cholera, Influenza, or other epidemic disorders. If pure blood circulates in our veins, and the body is healthy, and the stomach and bowels are in a sound condition, the system is charged with morbid matter, the cholera seizes its victim and death follows.

Dr. Halsey does not pretend that his Forest Wine and Pills will cure cholera in its advanced stages; no medicine will do it unless the victim will not, it is then too late. Our advice is, in such cases, send for a physician. If the constitution be strong he may keep life in the body until the disorder turns and the patient recovers; but nearly all in advanced cholera die.

WHAT IS TO BE DONE THEN? When the first symptoms are felt, and before the disease takes its turn, the first thing to be done is to remove the morbid matter from the system, remove "the fuel which the infection ignites," then purify the blood, strengthen and fortify the system. This, in precisely the principle on which Dr. Halsey's Forest Pills and Forest Wine act. One or two of these powerful and salutary pills taken at the commencement of the disorder, carries off all infectious matter, and the symptoms of Cholera disappear, while the fortifying and strengthening effects of the Forest Wine fortify the system against further attacks of Cholera or any other disease.

Ms. WILLIAM BOWEN, Sir: This may certify that for the last two years my hair has been falling off, in such quantities that I have left me almost entirely bald. Recently, I have freely used your Sarsaparilla, and I am pleased to say, that it has restored my hair to grow, and I have every reason to suppose, by a further application of your Sarsaparilla, that it will be still more abundant. My hair is now in a healthy state, and growing nicely, for which I feel very grateful. Respectfully yours, A. E. BOYCE.
