The Blood is the Life．－The stream which is poisoned at the fountain＇read might have all the purifiers in the world poured into it，but they would only act and purify the water until a new supply of posison arrived to contamin－ ate the whole river．So it is with ordinary Blood Purifiers．They cleanse the blood； the poisun source still exists．Eigar＇s Pharpholeine acts differently；it goes to the fountain head，tones the nerves which control digestion and assimilation，and thereby assures the inanufacture of rich，good，blood to supply and invigorate the body．It also tones the nerves which control the action of the glands，and directs and emables the excre－ tory ducts to throw off the poison which has ac－ cumulated，thereby altowing Nature to work her cures naturally．

that he sent the following report of what he considered a most obstinate case
Dear Sir，－I have used your Phaspholeine in many cases for which it is recommended， and am pleased with the way in which it acts．In a case of most obstinate Chronic Bronchitis（the disease had baffled the usual treatment in such cases）．your Phosphnleine acted like a clanrm，and I aseribe the recov－ ury entirely to the use of it．From my ex－ perience of it，I feel justified in saying that it is an important remedial agent in all eases of wasting diseases，and I can heartily recommend it to the notice of the profession and public as a remedy of real merit．
